NORWEGIAN CONSULAR SERVICE.

CHRISTIANIA, May 18.—The lower house of the Norwegian Parliament today unanimously adopted, without discussion, the bill providing for the establishment of a separate Norwegian consular service. Previous to this action, former Premier Hagerup moved to postpone consideration of the measure until the electionate had an opportunity of pronouncing on it, but the motion was rejected by 80 to 6 votes.

THE GREAT WAR.

NOT GOING TOWARD JAPAN VERY FAST.

Russian Fleet More than Seven Hundred Miles from Formosan Straits.

Rojestvensky Slowly Sailing North, Evidently Headed for Some Port of Hainan Island — Foreigners Leave Vladivostok, Soon to be the Center of the Seat of War on Land—Plague Breaks Out at Harbin.

[BY DIRECT WIRE TO THE TIMES.]

TOKIO, May 18.—[Exclusive Dispatch.] No collission with the Russian Baltic fleet is looked for next week. The Navy Department announces officially that the Russians were not northeast of Paracels Islands last night, which makes them more than 700 miles from Formosa Straits. As they were within 160 miles of Paracels Islands when they started from Kamranh Bay, Friday of last week, it would appear that they are not traveling toward Japan at a rate of more than eighteen or twenty miles a day. The Japanese government knows the precise position of Rojestvensky's fleet.

Greatest activity prevails in the War Department. New regiments are being sent across the Sea of Japan every second day. The investment of Vladivostok is not far off. Since the middle of April, about 135,000 soldiers have departed for the seat of war, and not fewer than seventy transports, filled with all sorts of army supplies. A disaster to the Japanese navy, it is believed, would not interfere for five or six months to come with Marshal Oyama's operations on land. Every possible measure has been taken to increase army supplies.

It is strongly believed here that the Baltic fleet will be heard from within a few days in one of the bays north of Hainan Island. This will be an invasion of Chinese neutrality, but it is not likely that the Russian admiral will care much about a Chinese protest. There are several large harbors in Lieh Chew Peninsula, and it is believed that his fleet will be heard of from one of these.

HARD TO GET COAL.

[BY THE ASSOCIATED PRESS—P.M.]

LONDON, May 18.—Now that it seems definitely established that Vice-Admiral Rojestvensky has started on his northward journey there is a great revival of interest here in the Far Eastern campaign. Kwang Chau Bay, where provision junks are said to be waiting for the Russian fleet, is the most northward of French possessions on the Chinese Sea and the last port from which Rojestvensky can set for his final departure to meet the Japanese. It has a fine anchorage and a sheltered channel, where a large fleet may ride in safety.

Reports still circulate in London to the effect that the Russian fleet's coaling arrangements are extremely inadequate and have been the main cause of its prolonged stay in Indo-Chinese waters, and that the admiral is finding ever-increasing difficulty on this score.

The correspondent at Tokio of the Daily Telegraph says it is expected there that the Russian fleet will sail Sunday or Monday toward Amoy or Foochow.

VARIAG SOON JOINS TOGO.

[BY THE ASSOCIATED PRESS—P.M.]

VICTORIA (B. C.) May 18.—The steamer Tremont, which arrived today from Manila and oriental ports, was at Hongkong when the Baltic fleet reached Kamranh Bay. According to Charles Osborne, proprietor of a Michigan newspaper, who was a passenger on the Tremont, it left hurriedly, loading but 2000 tons of her cargo. Much excitement prevailed at Hongkong and insurance on outward cargoes was advancing. When nearing Japanese waters, the Tremont was stopped by the Japanese converted cruiser America but was not interfered with when she signalled her name, destination and nature of cargo.

Advices from Japan state that work on the cruiser Variag, now being raised at Chemulpo, is about finished. It is expected she would be floated at high tide May 28 and she will be made ready at once so that Admiral Togo may be given an additional cruiser. A small warship sunk inside the dock at Port Arthur is also being recovered and can be used almost immediately.

RUSSIAN FLEET SIGHTED.

STEAMING NORTH MAY 16.

[BY THE ASSOCIATED PRESS—A.M.]

SINGAPORE, May 18.—The Russian fleet was in latitude 13.30 north and longiture 11.3 east (about 120 miles northeast of Cape Varella, coast of Anam,) during the morning of May 16, according to a report brought here by the British steamer Honkwan.

The German steamer Seagovia sighted forty-two Russian ships forty miles from Cape Varella, May 15, steaming slowly north, apparently for the waters of Hainan Island.

PROVISIONING THE FLEET.

[BY THE ASSOCIATED PRESS—A.M.]

HONGKONG, May 18.—A special correspondent who recently proceeded from here to Kwang Chau Bay, observed, at 11 o'clock at night, May 16, 250 deeply-laden junks, presumably loaded with provisions for the Russian fleet, anchored southwest of and twenty miles off Cape St. John. The junks, near Hainan Island waters, exhibited signal lights, which were extinguished on the steamer's approach to Kwang Chau Bay.

JUNCTION EFFECTED MAY 8.

[BY THE ASSOCIATED PRESS—A.M.]

SAIGON, May 18.—A junction was effected May 8 by the squadrons of Vice-Admiral Rojestvensky and Rear-Admiral Nebogatoff. It took place outside territorial waters. The vessels started seaward May 14, going in an easterly direction.

[The latitude and longitude in which the Russian fleet was reported by the British steamer Hongwan I does not indicate that a naval battle is imminent. The Russians were, May 16, only about 120 miles from the coast of Anam, and apparently heading north, for the waters of the Island of Hainan, near which, according to a Hongkong dispatch, 150 junks, laden with provisions, were waiting for the Russian fleet. Even in case Admiral Rojestvensky decided not to take these supplies on board or if the Hongkong report is incorrect, the Russian fleet, May 16, was still about 70 miles from the southern part of the Island of Formosa, where, it has been asserted, Admiral Togo may give battle, and it is doubtful if the fleet can now make more than about 200 miles a day under the most favorable circumstances.—The Associated Press.]

FOREIGNERS OUT OF VLADIVOSTOK.

PLACE EXPECTED SOON TO BE CENTER OF SEAT OF WAR.

Several Days of Rain Ruin Roads and Put End to Military Activity. Japanese Strengthening Left Wing. Terrible Plague Breaks Out at Harbin.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, May 18.—Richard S. Greener, American commercial agent at Vladivostok, has cabled the State Department that all the foreign and commercial agents there have been asked to leave Vladivostok and are given permission to reside in the cities of the maritime provinces. Mr. Greener himself was just leaving Vladivostok for Haborowskz.

It is recalled that a similar measure was adopted by the Russian authorities at Port Arthur at the beginning of the investment of that place by the Japanese land and sea forces and hence it is assumed that Vladivostok is expected to become a center of the seat of war very soon.

RAIN RUINS ROADS.

[BY THE ASSOCIATED PRESS—P.M.]

GUNSHU PASS, May 18.—After several days of rain, a violent downpour set in today, which has ruined the roads and will necessitate a period of military inaction, besides increasing sickness in the camps of the two armies. Luxuriant vegetation is springing up, which will furnish green fodder and so favor future operations by cavalry.

According to Chinese reports, the Japanese are strengthening their left wing and also are sending important reinforcements to Korea, but no change in the position at the front has been noticed.

RUSSIANS TO NORTHWARD.

[BY THE ASSOCIATED PRESS—P.M.]

GEN. OKU'S HEADQUARTERS, May 18, 8 p.m., via Fusan.—At noon today, a Russian force consisting of three or four companies of infantry, seven or eight squadrons of cavalry and three or four guns appeared north of Changtu, from the direction of Fenghua. After firing several guns, they retreated in a northerly direction.

PLAGUE AT HARBIN.

[BY THE ASSOCIATED PRESS—A.M.]

LONDON, May 18.—According to the correspondent at Tokio of the Daily Telegraph, a severe epidemic of the plague has broken out at Harbin and the deaths resulting therefrom average 300 daily.

TORPEDO BOATS DAMAGED.

[BY DIRECT WIRE TO THE TIMES.]

ST. PETERSBURG, May 18.—[Exclusive Dispatch.] It is reported that several of Admiral Rojestvensky's torpedo boats have returned to Libau, on the Baltic, in a damaged condition. No details are given.

PROF. HUSSEY TO ANN ARBOR.

ANN ARBOR, (Mich.) May 18.—Prof. A. P. Hall has resigned his position as Professor of Astronomy and Director of the Observatory at the University of Michigan, and Prof. W. T. Hussey of Lick Observatory, California, has been elected as his successor.

FAIR CALIFORNIANS.

Daughters of the Golden State Entertain in Yacht Rooms of Hotel Astor at New York.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 18.—[Exclusive Dispatch.] The initial reception of the California Club composed exclusively of the Native Daughters of the Golden West and ladies who have resided in California not less than seven consecutive years, was held in the yacht rooms of the Hotel Astor tonight from 9 until 12 o'clock, and was in every way a brilliant success. The yacht rooms were decorated with escholtzias and other California flowers, and presented a brilliant appearance.

Mrs. Thomas J. Vivian, president of the club, assisted by other officers, received the guests, who numbered fully two hundred. Musical numbers were contributed by Miss Katherine Hilke, Mrs. Alice Gray, née McComas, Miss Carol McComas and others. At midnight, the guests responded, standing, to the toast "California," proposed by Rev. Dr. Campbell, formerly pastor of the First Methodist Church in Los Angeles.

Among those present were: Mr. and Mrs. Marion De Vries, Dr. and Mrs. Campbell, Mr. and Mrs. J. T. Pendergast, Mr. and Mrs. T. J. Vivian, Mr. and Mrs. Charles P. Gray, Mr. and Mrs. E. W. Hill, Mr. and Mrs. A. G. Beyer, Mr. and Mrs. C. G. Forbes, Mr. and Mrs. A. Delmar, Mr. and Mrs. L. S. Vassault, Mr. and Mrs. H. S. Jerome, Mr. and Mrs. C. Sullivan, Mr. and Mrs. William C. Scheide, Mr. and Mrs. Hillyer, Mr. and Mrs. G. E. Gordon, Mr. and Mrs. T. E. Shook, Mr. and Mrs. John Hazelrig, Mr. and Mrs. J. V. Van Eaton, Col. and Mrs. J. B. Mulligan, Joseph D. Redding, Mrs. Alice Moore McComas.

WOOD PRAISES TROOPS.

The General Says They Behaved Splendidly Against the Moro Outlaws.

[BY THE ASSOCIATED PRESS—P.M.]

MANILA, May 19.—[By Manila Cable.] The Moro outlaws against whom Gen. Leonard Wood has been campaigning have been killed in action, together with all the principals. The outlaws were supporters and followers of the Sultan of Sulu. The large chiefs of the Island of Jolo were not involved. The outbreak was purely an aggregation of piratical outlaws and disorderly characters of Sulu and the other islands stretching down to Borneo.

The position selected by the outlaws for the defense were in almost impenetrable jungles, and were exceedingly strong, prohibiting the use of artillery and necessitating close contact and an assault in two instances. Gen. Wood's forces sustained a loss of 9 killed and 21 wounded, all of whom are doing well. The constabulary had two killed. The latter were highly praised by Gen. Wood, who said: "The troops behaved splendidly and performed this difficult service in a highly creditable manner."

Gen. Wood has returned to Zamboanga with the troops.

"GREAT WHITE PLAGUE."

First American Tuberculosis Exhibition at New York Will Show Progress in Fighting the Disease.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 18.—[Exclusive Dispatch.] The first American tuberculosis exhibition will be held in New York City in November. The National Association for the Study and Prevention of Tuberculosis and the Committee on Prevention of Tuberculosis of the Charity Organization Society have decided that, in view of the widespread interest in the subject of consumption, as shown by the large number of anti-tuberculosis associations forming in all parts of the country and the increasing desire to provide better conditions for consumptives in many cities and States, it is time to gather together an exhibition which will show just what has been accomplished in this country and abroad in fighting the "great white plague."

The exhibition will be so arranged that it will present, through diagrams, photographs, and models, a picture of the progress being made in fighting tuberculosis, at the same time that it will show the need for much greater effort to bring the disease within the limits recognized by the authorities as possible.

Dr. Ernst J. Lederle, former Commissioner of Health in New York, is chairman of the committee in charge.

COST OF PATIENTS.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, May 18.—An attack on tuberculosis from every quarter constitutes a programme begun here today and to continue tomorrow, in which more than two hundred of the leading physicians of the country are participating. During the afternoon session it was stated that in Pennsylvania the average cost of curing a tuberculosis patient is $120. In New York the cost was estimated at from $7 to $8 per week, while in Maryland, $9 per week was given as the cost of cure. In comparison with this, it was stated that the value of the life saved, together with the cost of attention and medicines in cases where no special treatment was secured, amount to a total of $2000. The investment was said to return a dividend of not 5 but 5000 per cent. in favor of the organized effort, as represented in the modern institutions.

BOYCOTT BY CHINA.

"Yellow Peril" Talk Has its Effect.

Secretary Hay's Great Efforts in Behalf of American Influence Injured.

Flowery Kingdom Resents What it Considers is Unnecessary Harshness.

Modification of Exclusion Law is Sought—Minister's Active Work.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 18.—[Exclusive Dispatch.] Sir Chentung Liang Cheng, the Chinese Minister, stated today that he had received confirmation of the cable reports recently sent from Shanghai, declaring that the merchants of China had agreed to boycott American goods. It was further stated at the Chinese legation that the boycott will soon be enforced, and that "not a yard of American cotton cloth will then be sold in China."

Acting on the recommendation of its new Minister to Washington, China is adopting a more vigorous policy toward the United States. It has been determined to break down the exclusion law, if possible, and, if not, to make things uncomfortable for the authorities here.

The members of the Chinese legation talked frankly today of the plans that are to be pursued in bringing about the modification of the Chinese exclusion law. An attaché, speaking as the representative of the Minister, said:

"China considers that every deportation of one of its subjects from the United States constitutes a violation of its treaty rights. The United States, of course, can enact any laws it pleases, and may banish every Chinaman now within its borders; but the United States cannot escape its international obligations by adopting laws contrary to its treaty agreements.

"All this trouble is due to the harsh and unreasonable methods pursued in enforcing the exclusion law. Not long since, Mr. Chow, first secretary of this legation, was traveling east from San Francisco. At Winslow, Ariz., his train was boarded by an immigration inspector. The latter demanded Chow's papers, to show that he was rightfully in the United States. Chow produced his card as secretary of the Chinese legation, but the man informed him that would not 'go,' and that he must furnish other papers, or be held up. It became necessary for Chow to complain to the State Department about his treatment.

"We are now gathering information regarding all these outrages, as well as facts bearing on the exclusion and deportation of Chinese."

The attaché, in discussing the boycott, said: "The merchants' guilds are the most powerful organizations in the empire, and exert tremendous influence everywhere. They easily control the entire purchasing trade. It is only proper to state, however, that there is no connection between the action of our Minister here and this boycott."

The officials of the immigration service deny that the present laws are harshly executed. They say they are merely carrying out the orders of Congress, and assert that the Chinese Minister has no ground for just complaint. During the month of March, sixty-one Chinamen were admitted to this country and seventeen were deported. Of those admitted, twenty-two were citizens of the United States; five were returning laborers; eighteen were returning merchants; six were merchants; seven were members of merchant's families, and three were exempt from the exclusion law.

POPE AND KAISER.

PARIS, May 18.—[Exclusive Dispatch.] Deny Cochin, the Catholic deputy who has just returned from Rome, where he had a long interview with the Pope, says Pius has no idea of allowing the present French protectorate of Catholics in the Holy Land to fall into the hands of the Kaiser. The Kaiser's speech at Metz, said Cochin, unquestionably was meant to hint at William's intention to replace France there. This disagreeable act does not need to be taken seriously, Cochin said: "Our rights there are inalienable for all time. This is recognized by Pius, who wrote to that effect to President Loubet when he visited Rome. If the Kaiser should indulge in any overt act in the direction indicated, I have the Pope's assurance that he will at once intervene. He thinks that it is now more than ever necessary to keep at least that connection with France."

LABOR.

PEACE HANGS IN BALANCE.

Shea Upsets Plans of Chicago Team Owners.

Rioting and Numerous Fights Again Break Out.

Parents of Striking School Children Fined.

[BY THE ASSOCIATED PRESS—P.M.]

CHICAGO, May 18.—Peace in the teamsters strike is still hanging in the balance and although it is generally expected that a settlement will soon be reached, it seems tonight further away than it did twenty-four hours ago.

It was confidently asserted by the Team Owners' Association that the teamsters had consented to arbitrate with them the question of whether or not union teamsters should make deliveries to the boycotted houses. President Shea of the Teamsters' Union today upset this arrangement entirely, declaring that he had never agreed to any such proposition.

For the first time in several days, a riot broke out today and there were numerous fights between non-union men and the union teamsters. One of the disturbances, at Twenty-second street and Indiana avenue, blocked all traffic and delayed street cars for half an hour. The police were compelled to use their clubs vigorously to disburse the crowd and made several arrests. The non-union driver for the wholesale grocery house of Steele, Weddles & Co., who was the original cause of the outbreak, through no fault of his own, was badly beaten before the police could save him. In some portions of the South Side a vigorous antagonism to union men has developed. Several union teamsters were attacked today near Twenty-sixth street and Wentworth avenue and their union buttons torn off. The men were vigorously punished before making their escape.

GOMPERS LEAVES TOWN.

President Gompers of the American Federation of Labor, who has been in Chicago for the past two days negotiating for peace in the present trouble, left for Dayton, O., tonight. Before leaving the city, Gompers said that, so far, he had accomplished very little, but the prospects were that both sides would soon be able to reach a basis where a settlement of the difficulty satisfactory to both interests would be decided upon. "If the trouble still exists when I return to Chicago, next Saturday," said Gompers, "I will take up the matter where I left off this afternoon and continue my efforts to bring about a settlement of the controversy."

President Shea of the Teamsters' Union was the chief witness in the hearing today before Master in Chancery Sherman. He refused to answer the great majority of questions put to him, declaring that his answers would tend to incriminate him.

The parents of six school children who have taken part in the strikes because of delivery of coal by non-union men were arraigned today before Justice Hurley and each one of them fined $20 and costs for not sending the children to school. Other arraignments will be made tomorrow.

RENEWED RIOTING.

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, May 18.—Rioting broke out anew in the center of the city today. At Clark and Washington streets teamsters tried to blockade a United States Express Company wagon. Revolvers were drawn but no shots were fired. Twenty policemen responded to a riot call and dispersed the crowds which surrounded the entanglements of wagons.

The Team Owners' Association met today for the purpose of appointing an arbitrator to pass on the question of deliveries to boycotted stores. It had been reported that the teamsters' union had made such an appointment, or would do so. It turned out, however, that the union had taken no such action.

When Shea was informed of the purpose of the meeting of the team owners he said that no agreement had been made to arbitrate deliveries—that he had not considered the question, and that, in view of the injunction proceedings, he did not want to go to jail. He regarded the movement of the team owners as a subterfuge to keep the Employers' Association "off the necks" of the team owners. Shea also said there would be no settlement unless the strikers were reinstated.

Gompers, of the American Federation of Labor, denied that he had had anything to do with the delivery arbitration movement. His mission here is to try to hit upon a plan of settlement and bring the opposing parties together to consider it. He said progress had been made and he expected to see the attorney of the Employers' Association.

ARE A "SIDE ISSUE."

The team owners are a "side issue" in the strike situation, and their attitude does not indicate the attitude of the Employers' Association. The team owners, however, have been conceded by many to hold the key to the situation, inasmuch as an attempt by the team owners to force drivers to deliver to the strike-affected houses would apparently mean an immediate spread of the strike.

The arbitration proposal came originally from the Lumbermen's Association, and was reported to have been accepted by President Shea and the joint team owners' organization. Representatives of the team owners appointed as their member of the Arbitration Committee Edward Hines of the Hines Lumber Company, and it was said that the teamsters had appointed William J. Gibbons, president of the Teamsters' Joint Council. These two, after appointing a third, would, it was announced, proceed to settle the question as to whether teamsters should deliver goods to boycotted houses.

An Aldermanic arbitration committee appointed by Mayor Dunne held a meeting today at the office of Attorney Mayer.

Gompers and Levy Mayer, representing the Employers' Association, held a four hours' conference last night at the Chicago Athletic Club. Present also was Attorney C. S. Darrow and George Perkins, president of the Cigar Makers' Union.

Gompers said he would leave tonight for Dayton, O., and that he will return to Chicago either Saturday night or Sunday. He expects to meet representatives of all the Chicago labor organizations Sunday and review the labor situation.

SAILORS' UNION CONVENTION.

SEATTLE SCENE OF SESSION.

[BY THE ASSOCIATED PRESS—P.M.]

SEATTLE, May 18.—The convention of the Sailors' Union of the Pacific and the 'longshoremen began its three days' session in this city today, with representatives from Eureka, Cal.; Portland, Or., and all the cities around Puget Sound.

The object of the convention is the connection of both organizations in order to be immediately in a position to successfully combat the efforts of the International 'Longshoremen's Association to prevent the sailors from handling cargoes while their vessels are in port. The trouble between this latter organization and the sailors has been waged more or less fiercely for the past two years, during which time several independent 'longshoremen's unions have been organized, with charters granted them by the federated trades. These unions have sided with the sailors in the dispute with the International 'Longshoremen's Association.

REID DINED BY LOTUS CLUB.

BRILLIANT FAREWELL TO THE NEW AMBASSADOR.

Prominent Americans of the Newspaper and Other Professions Bid Him God-speed to His Post—He Replies, With Thoughts on the Responsibilities of the Press.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 18.—[Exclusive Dispatch.] The Lotos Clug tonight gave Whitelaw Reid, the new Ambassador to Great Britain, his Godspeed to his post, at a dinner party which was of remarkable size and brilliancy. About two hundred and fifty members were present. The menus were large portfolios which included a Japan-proof etching of Reid, which was inscribed with the record of the various diplomatic posts he has filled.

About Reid and President F. R. Lawrence of the Lotos at the center table sat Clark Howell of the Atlanta Constitution, M. H. De Young of the San Francisco Chronicle, Charles R. Miller of the New York Times, Melville E. Stone of the Associated Press, W. H. McElroy, Edmund Stedman, President Butler of Columbia; ex-Mayor Seth Low, Rev. Minot J. Savage, Senator Depew and George H. Daniels. Others who were there were Justice Vernon M. Davis, Jesse M. Seligman and John DeWitt Warner.

In his address, Reid spoke at length of newspaper work, pointed out the power of a free press, but at the same time urged that the press be conservative and considerate of the rights of others.

Stedman, Butler and Depew also spoke. Butler said the greatest compliment that could be paid Reid was that he would be missed in New York, where so few were ever missed.

AMBASSADOR'S REMARKS.

[BY THE ASSOCIATED PRESS—P.M.]

NEW YORK, May 18.—Mr. Reid said, with reference to his appointment as an Ambassador to the court of St. James, that the most gratifying thing about it was the way it had been received.

"We have been living in a strenuous time," said he. "No man in this great metropolis and in my place could well escape an active part in the incessant controversies and turmoil of the last third of a century; and my critics, I believe, have generally agreed that I was apt to assume at any rate my full share of them. After such a life, to have this appointment made by the President of my country, without the filing of a single recommendation, and approved by the Senate without a dissenting voice, and received by the press and the public with such apparently general cordiality, fills me with a soberine sense of responsibility beyond anything I have ever felt before, and with earnest aspirations that all this generous confidence may prove in the end not to have been wholly misplaced."

Referring to the press, he said:

"No man can have spent his life in newspaper work without being led by all his habits and instincts to sympathize with newspaper workers and a readiness to facilitate their efforts. And yet may I hint to the general manager of our wonderful Associated Press service, whose wary eye I see upon me, and to others in less responsible places, who may have chanced to think of the matter hitherto with less scrupulous care than the general manager himself and his representatives in the great capitals always show, that there may come, in fact, there must come a time when it will be my duty to report first and exclusively to the government, instead of reporting to the newspapers.

"It is perfectly true that an open course is best; that a free people wishes to know from day to day what is being done in their name; that their government is not adapted to secrecy, and does not like to make a mystery of its movements and its policy. But the Japanese have been showing, on a great scale, that there is a duty in war which, under any sagacious government, must come before the duty of furnishing bulletins for the daily papers. Diplomacy, if it is to be sagacious or successful, even the diplomacy of a republic, must be somewhat in the same class. Neither can always be advantageously conducted coram publico.

THE "YELLOW PERIL."

"There is another phase of our newspaper activities that merits more serious consideration from us all than we generally give it. The free press largely rules a free people. It may make peace or war; it has done both. But it is quite capable of fomenting very grave difficulties which is never desired, or intended, or even thought of. In our great distances and isolation betweentwo oceans and general feeling of remoteness and elbow-room and independence, it has sometimes been apt, in moments of excitement, to measure its words as little in dealing with the high-spirited and sensitive nature as with a candidate for town constable or the Board of Aldermen. Is it not time for the press, when it exercises the power, to recognize also the obligations of consideration, moderation and a scrupulous regard both for the rights and the susceptibilities of others?"

In conclusion, Mr. Reid said he hoped to maintain "in full force, the good understanding between ourselves and Great Britain, which has grown clearer and stronger at each step in our advance in the paths that have been steadily broadening before us every year and month since our peace with Spain."

CHINA'S AWAKENING.

Great Merchant Guilds of the Empire Are Asked to Join in Boycott of American Goods—Chinese Minister Agitating.

[BY DIRECT WIRE TO THE TIMES.]

PEKING, May 18.—[Exclusive Dispatch.] the proposed terms of the new exclusion treaty are not officially known in Peking at present, but such as they are, the Chinese Minister in Washington has refused to sign them. He has telegraphed to his government and to powerful viceroys, urging the non-acceptance of the proposed treaty. He claims that by its terms, all classes of Chinese, including students, merchants and bankers, are practically barred from America.

There is much indignation among prominent Chinese merchants and bankers, and a week ago a public meeting was held in Shanghai to take action against the injustice of the proposed terms.

The great merchant guilds of China have been notified of this action, and have been asked to join in the boycott. Many have agreed, and are bringing all possible pressure to bear upon the Peking government to prevent the signing of the treaty. American prestige and trade are threatened.

SAYS IT'S NO BLUFF.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 18.—[Exclusive Dispatch.] Sir Chentung Liang Cheng, the Chinese Minister here, said today that the reports that the Chinese are framing some system to secure damages from the United States for the deportation of Chinese and the reports that a system of retaliation against American goods in China on account of Chinese exclusion are true, and he intimated that the United States may soon discover that China is not bluffing in this respect.

WANTS NOTHING SAID.

[BY THE ASSOCIATED PRESS—A.M.]

WASHINGTON, May 18.—The Chinese Minister here called on Acting Secretary of State Loomis today, to talk about the difficulties that had arisen in the effort to negotiate a new Chinese exclusion treaty. The Minister deprecated newspaper agitation of the question at this time, as calculated to render abortive the efforts to compromise the present radical differences of opinion between the Chinese government and the Department of Commerce and Labor.

RAILROADER JUMPS ON THE PRESIDENTS.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 18.—[Exclusive Dispatch.] It is figured out here that the President's western trip cost about $3000. The report about the White House premises is that the President has already paid this sum, and that he does not propose to accept any privilege from railroads during his term of office.

A railroad man recently said that the law against free transportation is daily violated by public men and that the Presidents of the United States have for many years made the law negative by riding on railroads without paying transportation. Trains in the past have been sumptuously fitted up, and large numbers of persons have been the guests of Presidents, including Cabinet officers, newspaper men and personal friends. If the expenses had been paid out of the pockets of the Chief Executives, several Presidents would have been nearly bankrupted.

On the recent trip, there were few cars and few guests. Besides the President and Secretary Loeb, there were one or two stenographers, two messengers, three newspaper men, representing the press associations, one photographer, and some secret service officers. It was noticed that the train that took the President to the hunting grounds did not stay on the side track at the disposal of the party but was sent on, returning only when the President was ready to use it again.

AS THE WORLD SEES IT.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 18.—[Exclusive Dispatch.] The World says:

"Mr. Roosevelt's decision to accept no more transportation favors from railroad companies will end a practice that can be traced largely to the failure of Congress to provide adequate salary for the President of the United States. The railroads have been glad to carry the President free, because it was a good advertisement. The Presidents have accepted such favors because they could not afford to pay for special trains out of their official salary. The situation reflects little credit upon the government of the United States.

"Congress cannot increase President Roosevelt's salary during his present term, but it ought to make an appropriation for paying the President's traveling expenses when he is on public business—and a President of the United States is always on public business when he travels."

RAILROADS ARE UP AGAINST THE LAW.

Indictments Against the Armour and Santa Fe Interests Are Looked for—Owners of Private Cars to Submit Argument.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 18.—[Exclusive Dispatch.] Important action against some of the big trust companies will probably be taken by the government during the next few weeks. An indictment against the Santa Fé Railroad Company is looked for from Albuquerque, N. M., soon, and the Interstate Commerce Commission will shortly call on the Department of Justice to take proper action on certain evidence gathered by it in the West regarding the giving of rebates by the Armour Company and the Santa Fé Refrigerating Company.

Atty.-Gen. Moody preserves a most sphinx-like silence regarding the developments in the Santa Fé rebate case. It is known, however, that Judson and Harmon, special attorneys engaged to examine into the evidence, have made their report to the Department of Justice and that Atty.-Gen. Moody has laid it before the President. The latter long ago made up his mind that the law must be enforced, no matter whom it may hit. Evidence of the violation of the Interstate Commerce Act and of the recent anti-rebate law was so positive that only one recommendation could be made by the two special attorneys in the case.

It is now said that Atty.-Gen. Moody has instructed the United States district attorney at Albuquerque, where the alleged offenses occurred, to take the matter up before the grand jury. Indictments are expected to be reported during the next few days.

The Interstate Commerce Commission has just returned from Chicago, where it heard testimony bearing on the operation of refrigerating cars by the Armour Company. It is declared that evidence was secured of the payment of rebates by this company and also by the Santa Fé Company. It is said that the commission has convinced itself that these rebates were not free to all, but that the company was guilty of discriminations.

Whether or not civil and criminal prosecutions are to result from this inquiry has not yet been determined, but at any rate the commission will probably order the companies to reduce their charges for the use of refrigerating cars.

Representatives of the owners of private cars have arranged to come to Washington and submit an argument on this point June 8.

GREAT FIND OF TURQUOISE.

Wonderful Discovery in New Nevada District.

Houses Magically Springing up in Las Vegas.

"Mobes" to Carry Freight on the Frozen Yukon.

[BY DIRECT WIRE TO THE TIMES.]

LAS VEGAS (Nev.) May 18.—[Exclusive Dispatch.] A wonderful turquoise discovery was made six miles from Pyramid, near the Crescent district, by Messrs. Smith and Morgan, of that place. They had, as they supposed, discovered good surface indications of gold, silver of other some mineral, but they never dreamed of striking turquoise. They found it—and not in small quantities—for the formation, resembling porphery, is thoroughly seamed with the precious stuff. There is no doubt about the discovery having been made, as several fine specimens are on exhibition in Las Vegas.

There have been all kinds of miners and prospectors in this country, but when it comes to this kind of find, they are at sea. But there are others who are taking advantage of the discovery, and have left for that part of the country, with hopes of being able to do a little locating before the good news becomes public property.

William O. Dow of Los Angeles has just returned from a trip through Death Valley and some of the many districts adjacent. He says he never witnessed so many prospectors in the field before, and that a number of very valuable discoveries have been made.

The new town is growing and there are many additions every day. Houses and tents spring up as if by magic. There are a number of buildings on the railroad, already. Some who bought lots are anxious for their removal, so that the town may have an unobstructed view, but this will soon be remedied, for it is learned that everybody who wants of the railroad company will have to get onto their own lots. Lots are being made daily, and there are only a few lots now remaining.

BANKERS IN SESSION.

ANNUAL MEETING, AT OAKLAND.

[BY THE ASSOCIATED PRESS—P.M.]

OAKLAND, May 18.—The California Bankers' Association opened its twelfth annual session today, with President A. B. R. Schmidt in the chair. After Hon. Mott had delivered an address of welcome, President Schmidt read some of the financial conditions of the year and touched on recent legislation at Sacramento. The number of savings banks in 1904, had increased, he said, from 380 to 448.

Hon. Mouton, chairman of the Executive Council, presented a report that dealt largely with protection of bankers against swindlers.

PROF. PLEHN ON TAXATION.

[BY THE ASSOCIATED PRESS—P.M.]

OAKLAND, May 18.—J. D. Radford of the First National Bank of San José, read a report of the delegates to the American Bankers' Association.

George W. Peltier of the California State Bank of Sacramento, delivered an address on "Stability in Banking."

The most important paper of the session was read by Prof. Carl C. Plehn of the University of California on "The Plan for Tax Reform in California." Prof. Plehn is a member of the State Tax Reform Commission, appointed by Gov. Pardee.

In concluding his address, the professor said: "The lessons to be learned from the experience of our sister States are: That the first step in the direction of tax reform lies in the separation of State from local taxation. This clears the way for the second step, which is the adaptation of our taxes to the peculiar characteristics which each subject of taxation has. Then we may aim to secure a greater diversity of taxes, so that taxation shall be more universal and the burden lighter because carried upon more shoulders."

William Mead of the Central Bank of Los Angeles urged, in a paper, the legalizing of clearing-house certificates on a par with national bank notes to meet panics or temporary stringencies in the money markets.

STEAM SKATING ON YUKON.

"MOBE" WILL CARRY FREIGHT.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA, May 18.—[Exclusive Dispatch.] An ice automobile, operated by its own power and expected to carry loads of freight on the frozen surface of the Yukon River and its tributaries, has been invented by David C. Shand of Stewart River. After working on the machine two years, Shand built his model with such crude appliances as were obtainable. Then he transported it to Dawson, to have the machinery improved. Tests made on the Yukon at Dawson were satisfactory.

The machine is propelled by a steam engine of 1½-horse-power. Attached to two wheels are large rotary spiral blades extending a foot on each side of the cylinders. The blades cut into the ice, thus forcing the machine forward. The machine is virtually a steam-skating contrivance.

"OREGON OR BUST."

ORIGINAL SCHOONER AT FAIR.

[BY DIRECT WIRE TO THE TIMES.]

TACOMA, May 18.—[Exclusive Dispatch.] Ezra Meeker of Puyallup, former hop king of Washington and a pioneer, will visit the Portland Exposition driving an ox team hitched to the original prairie schooner of 1852. Meeker has arranged to acquire the wagon, which has been resting for fifty years in an old shed on Cowlitz River.

In order to show visitors at the fair just how the pathfinders lived in the early days of Oregon, he will rehabilitate the old ox cart, and, covering it with snow-white canvas, properly inscribed "Oregon or Bust," will retrace the journey from Tacoma to Portland; and there, pitching a tent, will tell easterners how it happened in ante-bellum days.

Fifteen years ago, Meeker was worth a million, going to London annually to sell his hops. Depression swept away his fortune.

GOOD-ROADS CONVENTION.

OFFICIAL ANNOUNCEMENT OUT.

[BY THE ASSOCIATED PRESS—A.M.]

PORTLAND (Or.) May 18.—The official announcement of the National Good-Roads Convention, which is to meet in this city from June 21 to June 24 has been issued.

According to the announcement, Governors of the several States and Territories, county road officials, Mayors of cities, presidents of all commercial, agricultural, industrial, development, civic improvement, educational improvement transportation and religious organizations are expected to appoint in the East five delegates to represent their respective bodies in the convention. All such officials, together with members of Congress and State Legislatures, are made ex-officio members of the convention.

MUST HAVE WATER SOON.

ARIZONA ORANGES IN DANGER.

[BY THE ASSOCIATED PRESS—P.M.]

PHOENIX (Ariz.) May 18.—With the river full of irrigating water, crops in these parts are beginning to suffer, owing to the fact that the diversion dam of the Arizona Canal Company was washed out by floods some weeks ago, and it has been impossible to repair it.

Some crops can wait, but the orange crop will be ruined without water very soon. The Orange Growers' Association has ordered by wire from San Francisco, a big pumping plant to raise the water from the river into the canal, pending rebuilding of the dam. It will be installed by May 25.

THIRTEENTH CAVALRY HOME.

TWO YEARS IN PHILIPPINES.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, May 18.—The transport Logan arrived from Manila and Nagasaki today, bringing home the Thirteenth Cavalry, after two years' service in the Philippines.

On board, were two brigadier-generals—W. S. McCackey, who has been in charge of the post of Manila and who goes to Denver to take command of the Department of Colorado, Gen. F. V. Robinson, who was lieutenant-colonel of the Thirteenth, recently promoted and retired.

The headquarters and second squadron of the Thirteenth go to Fort Meyer, the first squadron going to Fort Riley.

Just after leaving Nagasaki, Eugene Ward, a member of the Steward's Department, was found dead in his berth. There were indications of chloral poisoning, and it is thought the unfortunate man took an overdose of the drug through mistake or with suicidal intent. He had been under the doctor's care for some time.

In all, there were 900 soldiers, rank and file, on board.

SLOPE BRIEFS.

Two Men Drowned.

ASTORIA (Or.) May 18.—During a squall at the mouth of the river today, a fishing boat belonging to the Sanborn-Cutting Company capsized and the two men in it were drowned. The captain's name was "Russian Jack" Sewell, but the name of his boat-puller is not known.

Shipping Fat Cattle East Again.

SACRAMENTO, May 18.—For the first time in over ten years fat beef cattle are being shipped to eastern markets, owing to the fact that feed conditions are excellent this year. About eighty-five cars of stock have been sent from Merced county to Chicago and 1133 head have been sent to Seattle.

Hop Growers Feel Apprehensive.

SANTA ROSA, May 18.—Growers of hops in Sonoma county are beginning to feel some apprehension for the coming crop because of the ravages of a small snail, and from the long spell of cold, damp weather. The outlook is bad and the indications are that the coming crop will not be nearly so heavy as last year.

Theater Tickets Declared Revokable.

PORTLAND (Or.) May 18.—In a decision handed down today in the State Circuit Court, Judge Fraser ruled that it is within the rights of the proprietor of a place of amusement to expel from the theater negroes or other objectionable persons; the ticket of admission is merely a license, revokable at the pleasure of the proprietors.

Affirms Wickersham's Judgment.

SAN FRANCISCO, May 18.—The United States Circuit Court of Appeals for the Ninth Circuit has handed down a decision affirming the judgment of Judge Wickersham of the Third Judicial District of Alaska, confirming the title of the Bonanza copper mines in the Alaska Copper & Coal Company, over which there has been considerable litigation.

PATH OF NEWS FROM THE MIDDLE WEST.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 18.—[Exclusive Dispatch.] Chicago weather was again of the "melancholy" kind today. The clouds were heavy, and the temperature was unsatisfactory for the season of the year. The range was narrow—only from 47 to 52 degs. No immediate relief is promised, and tomorrow the winds are to continue from the lake and the skies to remain overcast, with probable showers. Sea Swept Over Taumotu Archipelago, Destroying Many Villages and Half the Cocoanut Trees—Ten Lives Lost, Twenty-three Vessels Wrecked.

[BY THE ASSOCIATED PRESS—P.M.]

TAHITI (Society Islands) May 6, via San Francisco, May 18.—[Correspondence of the Associated Press.] The meager details carried by the steamer Mariposa of the destructive hurricane which swept through French Oceanica from March 23 to March 25 gave little indication of the havoc wrought by the storm.

It is now known that the northern half of the Taumotu archipelago suffered the worst. The wind blew 100 miles an hour, the sea swept over the islands, destroying many villages and one-half of the cocoanut trees. Two dozen small sailing craft and three large vessels were wrecked. Six years will be required to replace the cocoanut trees. The financial loss in this group was more than $200,000.

It is estimated that ten lives were lost in the wreck of the Eclaireui, a 40-ton vessel. Samuel Harris, a pearl fisher, formerly of San Francisco, perished. The vessel was carried on a high wave upon a reef and broken to pieces. When Capt. Porutu of the Eclaireui and his crew were swept ashore, they lost consciousness, and upon regaining their senses found themselves far inland, in a bruised and bleeding condition. They later found the body of Harris. Six men were lost in a sailboat near Kaukura and Arutua, and it is probable that other fatalities will be reported.

The village of Tauteru, Tahiti, lost twenty or more houses by the inrush of the sea.

Prof. Wragge's prognostications about hurricanes at this season in this quarter have been fully verified. Only the caution of the people in seeking places of shelter prevented a disaster similar to that of two years ago at Hikuera, when 600 persons perished.

Lavina Chapman, a hotel keeper, has been recommended to the President of France for the distinction of a medal in commemoration of her heroism in rescuing a woman drowning in Papeete Harbor.

The ship Leon Blum has arrived at Papeete, after a perilous voyage of 154 days from St. Navarre, France. She brought a large number of water mains for the extension of the water system of the city of Papeete. At Cape Horn, she was for thirty-two days at the mercy of a terrible storm, which damaged her rigging and rendered her unmanageable.

A British ship of 2500 tons burden was spoken by the Leon Blum, and it is feared that she later foundered.

King Alfonso Intimates Darkly When He Will Get Married—Makes King Edward Spanish Admiral.

[BY THE ASSOCIATED PRESS—A.M.]

MADRID, May 18.—Replying in the Senate to the birthday congratulation speeches, King Alfonso yesterday expressed the hope that his forthcoming tour of Europe would strengthen the ties of friendship, tend to universal peace and thus assist in the reconstruction of the country and the development of its industry and commerce.

"As for that event fraught with happiness for the country and my hearth, which you wait with anxious desire," said the King, "I have confidence in God that it will be realized for the good of the nation; for family love is so closely united in my mind with love of my country that I can have no other idea of marriage than that of two people loving and seeking the happiness of the country and its greatness."

King Alfonso has appointed King Edward a Spanish admiral.

[A dispatch from London, May 16, announced that King Edward had appointed King Alfonso a general in the British army, in honor of the nineteenth anniversary of the latter's birth, May 17.]

Consumptive Cough Cure

ELISHA S. TABORN.

Mrs. E. S. Taborn, Wife of a Department Store Manager, Cured of a Chronic Cough by Duffy's Pure Malt Whiskey.

Young Lady, Who Had Lost 40 Pounds in Six Months, Is Quickly Cured of Distressing Cough.

Manager Taborn, Cured of Chronic Constipation and Bowel Trouble, Tells of His Remarkable Recovery.

"During the fall and winter of 1903-4, my wife had a chronic cough which ran down her system, reduced her weight and sapped her strength to such an extent that we became alarmed and feared she had consumption. Her doctor gave her very little relief, and we tried different remedies in vain, but nothing benefited her until she began to take Duffy's Pure Malt Whiskey, which we heard of through a testimonial of a temperance advocate. Before the first bottle was taken, the cough had almost ceased, and by continued treatment in a very short time she was cured.

"Another wonderful cure was that of a young lady employed by me in a department store in Baltimore, who was troubled with a chronic cough, and who had lost 40 pounds in six months. Medicine did her no good, and she was in despair, when I advised her to take your grand medicine. In a short time she was entirely cured.

"Personally my experience with 'Duffy's' has been little short of marvelous. For years I had chronic constipation, which brought on bowel trouble and bleeding piles. For five years I doctored with pills and other medicine, but received no relief until I commenced to take 'Duffy's.' The first bottle had a magical effect, and in a short time I was restored to complete health."—E. S. TABORN, Baltimore, Md., March 2, 1905.

Duffy's Pure Malt Whiskey

Duffy's Pure Malt Whiskey is the only positive cure and preventive of pneumonia, consumption, grip, bronchitis, coughs, colds, diseases of the throat and lungs, malaria, fevers, stomach and bowel troubles, and all wasting, run-down, diseased conditions of the body. Over 4000 centenarians owe their long life and continued health, strength, activity and usefulness to this grand medicine, which has the matchless record of over 4,000,000 cures in fifty years. It is absolutely pure, contains no fusel oil, and is the only whiskey recognized by the government as a medicine.

CAUTION—When you ask for Duffy's Pure Malt Whiskey be sure you get the genuine. Unscrupulous dealers, mindful of the excellence of this preparation, will try to sell you cheap imitations and so-called Malt Whiskey substitutes which are put on the market for profit only, and which, far from relieving the sick, are positively harmful. Demand "Duffy's," and be sure you get it. Look for the trade-mark, "The Old Chemist," on the label.

The genuine Duffy's Pure Malt Whiskey is sold by all druggists and grocers, or direct, at $1.00 a bottle. Write for free medical booklet containing symptoms and treatment of each disease to the Duffy Malt Whiskey Co., Rochester, N. Y.

SMALL TOWN; GREAT MAN.

Rev. Dr. Moffat Elected by Acclamation.

Presbyterian Assembly Prepares for Work.

Cumberland Church Meeting. Question of Union.

[BY DIRECT WIRE TO THE TIMES.]

WINONA LAKE (Ind.) May 18.—[Exclusive Dispatch.] Rev. Dr. James D. Moffat, president of Washington and Jefferson College, was today elected moderator of the Presbyterian General Assembly by acclamation, the first moderator chosen from a small town for fifty years. The nominating speeches were made by Rev. Dr. Robert McKenzie of New York, Dr. John H. Converse of Philadelphia and Rev. Dr. John F. Henry of St. Joseph, Mo.

After Dr. Moffat's inauguration address, the usual routine business incident to opening the assembly was transacted. The communion service was held tonight. Tomorrow afternoon the corner-stone of the new $40,000 Winona Presbyterian Church will be laid. The new moderator will preach on "John Knox" Sunday morning. Tomorrow evening there will be a popular meeting in the interest of Sunday-school work. The Board of Publication has decided not to censure the Western Pennsylvania Presbyteries for withholding their contributions in order to issue their own foreign literature. At one time trouble was threatened.

Justice John M. Harlan will be appointed vice-moderator of the assembly tomorrow morning.

About seventy-five old soldiers, led by Col. John M. Harlan, held a meeting this afternoon and arranged a camp fire.

The assembly was formally constituted in the presence of a congregation of more than three thousand people, including the full enrollment of 650 commissioners, the largest in the history of the church. Rev. Dr. J. Addison Henry, retiring moderator, preached the opening sermon, a plain discourse on "Go Work Today in My Vineyard," and was assisted in the services by twelve men, the largest number ever on the platform for such an occasion, and including three ex-moderators. The platform was backed by an immense flag, and the front was covered with all kinds of flowers and potted plants. In the list of commissioners are several millionaire laymen, Henry W. Jessup and Col. Alexander of New York, John H. Baldwin of Philadelphia, Louis H. Severance of Cleveland, T. B. C. Burpee of Philadelphia, Charles L. Dubois of Washington City and others.

Preliminary vigorous discussion is in progress on perplexing questions to come before the assembly, upon which there is great difference of opinion. A Presbyterian proposition to adopt the "Short Creed statement," the outcome of the creed revision, movement in place of the old-time Westminster standards, has enough friends to insure a very hot debate, but the demand will be voted down by an immense majority.

The question of overshadowing importance, discussed constantly in the assembly groups, is that of union with the Cumberland Presbyterian Church. The leading men of the assembly, such as Rev. Dr. Henry C. Trinton, ex-moderator; John H. Converse, Judge William U. Lanning, Rev. Dr. Richard Harland, Rev. Dr. Charles A. Dickey and scores of others advocate cautious action. Much will now depend upon the action of the Cumberland Presbyterian Assembly, which meets Monday in Fresno, Cal., and which is expected to notify this assembly at once of its desires. In this Presbyterian assembly there are many opposed to the proposed union, while the great majority agree that there must be a better understanding among the Cumberland Presbyterians in order to hold the church property for the united church. It is generally conceded that the union will be practically postponed for at least two years. The majority of the elders and communicants of the Cumberland Presbyterian Church are entirely opposed to the union, while the mapority of ministers favor it.

A very warm debate is scheduled over the report of the commission on "forms and ceremonies." The committee will report a ritual for all the services of the church, and recommend its adoption. Several addresses will be made in opposition.

Next Sunday, the four hundredth anniversary of the birth of John Knox will be celebrated, when the preachers will talk against ritualistic service. The hope of the advocates of the ritual is largely in the popularity of the Rev. Dr. Henry van Dyke, chairman of the committee.

There are twenty-five negro commissioners, who are most earnestly opposed to the overture for separate presbyteries, which they think was a weak concession to the demands of the Cumberland Presbyterians and intended to set them off in presbyteries by themselves. Rev. Isaiah Elijah Hardy of Fountain Inn, S. C., says: "We are solid in saying we are opposed to the separate presbytery overture, but that is all the good it does, as it has been adopted." The colored men are to address the assembly next Monday night.

Nearly all the boards of the church are out of debt. The Board for Church Erection has just received $30,000 from bequests.

It has been agreed to hold the Presbyterian General Assembly of 1906, in the Broad-Street Church of Columbus, O., in response to a cordial invitation from Gov. Herrick, a member of the church, who promises to do something handsome for the assembly, should it come. As the Governor recently gave the Salvation Army of Cleveland, O., $4000, and is a very wealthy gentleman, the assembly has a curiosity to know what he proposes to do for the Presbyterian church. Rev. Dr. S. C. Palmer, pastor of the Broad-street church, and his sessions pressed the invitation.

The invitation to meet in Philadelphia will be declined. Columbus withdrew last year in favor of Winona, and now Winona backs up Columbus.

CUMBERLAND PRESBYTERIANS.

GENERAL ASSEMBLY AT FRESNO.

[BY THE ASSOCIATED PRESS—A.M.]

FRESNO, May 18.—The general assembly of the Cumberland Presbyterian Church opened in this city at 10:30 o'clock this morning, the retiring moderator, Judge Warner E. Settle of the Supreme Court of Kentucky being in the chair. An unusually large number of delegates are in attendance. After musical selections, a scripture lesson was read by Rev. M. M. Smith of Bowling Green, Ky. Dr. W. H. Black, president of Missouri Valley College, Marshall, Mo., offered the opening prayer. The annual sermon was then preached by Rev. Dr. John V. Stephens, professor of church history in the theological seminary, his theme being "Revivals considered as a force in our national life." The formal constitutional prayer was led by F. H. Earle, D.D., of Arkansas. Dr. S. M. Templeton of Clarksville, Tex., closed the service with the benediction.

NO MODERATOR ELECTED.

[BY THE ASSOCIATED PRESS—P.M.]

FRESNO, May 18.—The Cumberland Presbyterians failed to elect a moderator at the afternoon session, as is the custom, because of a contest over seating a number of delegates. After addresses of welcome by Mayor Lyons, A. L. Hobbs, president of the Chamber of Commerce and Rev. A. P. Brown, on behalf of the churches of Fresno, to which response was made by Moderator Settle, the organization of the body was begun by calling the roll. Of the 114 presbyteries, six had no commissioners present. Sixty-four had full delegations.

During the roll call it developed that several seats would be contested. Two sets of credentials had been sent by Illinois presbytery and two elders were present claiming seats. New Hope, Platte and Madison presbyteries had each sent four delegates. In these cases, the two commissioners first elected were seated but the other two were kept in waiting. None of the representatives of the Illinois presbytery were seated. Elder Modrall of West Plains presbytery was allowed to take his seat, but the minister, Rev. J. M. Glick, was challenged.

J. J. McClelland moved to appoint a Committee on Credentials, of which Judge Young and Judge Prendergast, two prominent opponents of union, should be members, with three others. This was done, Drs. Templeton and Earle and Elder T. H. Cobbs being appointed. McClelland wanted the assembly to agree to not proceed to the election of a moderator until the credentials report had been adopted. This motion failed, but it was agreed to give the committee ample time to do its work.

It is currently reported that those against union are seeking to prevent the election of a moderator until they can get more men on the ground and that the unionists also expect an increase in their forces. The roll today showed an attendance of 238 commissioners, 127 being ministers and 111 ruling elders. It is estimated that the unionists have a majority of about thirty.

At the night session Rev. W. J. King of Mississippi, Rev. R. L. Phelps of Oklahoma, Rev. W. J. Fisher of San Francisco and T. H. Perrin of St. Louis made addresses on home mission work. Dr. Fullerton, president of the board of missions, presided.

The Committee on Credentials reported, recommending that all of the challenged commissioners be seated. An effort was made to adjourn, but late the assembly determined to elect a moderator. Dr. Fullerton nominated Dr. J. B. Hail, the senior missionary to Japan, now in this country, on furlough. Rev. R. W. Binkley nominated Rev. W. M. Crawford of Alabama. Dr. Hail was elected by a majority of 29.

PRESBYTERIANS SOUTH.

MEETING AT FORT WORTH.

[BY THE ASSOCIATED PRESS—A.M.]

FORT WORTH (Tex.) May 18.—The forty-fifth assembly of the Presbyterian church in the United States (South) convened here today. Dr. J. T. Plunkett of Augusta, Ga., was elected moderator.

The report of the Executive Committee on Foreign Missions showed that twenty-six missionaries were sent out during the year, the number now on the roll including those under appointment being 198. The total receipts were $226,284, a decrease of $10,244. The total disbursements were $212,423. It was noted as a matter of encouragement that the receipts for March, 1905, were $45,652, the largest amount ever received in one month.

JOHN D. WITHHOLDS.

NO GIFT OF $10,000,000 MADE.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, May 18.—The Associated Press has investigated the statement that John D. Rockefeller was about to give $10,000,000 to establish a pension fund for retired clergymen, and is authorized to say that Rockefeller has no such intention at this time.

EMPIRE CONGREGATIONALISTS.

DISCUSS CHURCH AND WEALTH.

[BY THE ASSOCIATED PRESS—A.M.]

BINGHAMTON (N. Y.) May 18.—At the seventy-second annual meeting of the New York State Association of Congregational Churches here, the Committee on Applied Christianity has made a report, of which a portion is devoted to a discussion of the "Church and Wealth." The report on this point says:

"We believe the supreme question before the church today is to teach brotherhood as the only true basis of business. With natural wealth open to the use of all men, we believe industrial combination in the interest of economy would develop naturally and with injury to none. We believe the church should guard against all such alliances with institutions of individuals of great wealth as can give color to the charge that the church is under the denomination of the rich, or the ministry is silenced regarding business methods, menacing to personal independence. It is our conviction that no gifts to charitable or religious enterprises can atone for the wrong done against society by financial or industrial methods, which ignore the natural law that only the creators of wealth are worthy to enjoy or distribute."

BAPTISTS AT ST. LOUIS.

MEET AT PORTLAND NEXT.

[BY THE ASSOCIATED PRESS—P.M.]

ST. LOUIS, May 18.—Contrary to the usual custom of Baptist conventions, the place of next meeting being selected by a committee, the delegates today practically unanimously voted Portland as the place for the Baptist anniversaries in 1906. This action followed an invitation to meet in the Pacific Coast city, extended by Rev. Dr. J. W. Bowers.

HOME MISSION SOCIETY.

[BY THE ASSOCIATED PRESS—A.M.]

ST. LOUIS, May 18.—The Woman's American Baptist Home Mission Society, which constitutes a part of the general Baptist convention now in session in this city, was addressed today by Rev. C. P. Coe of Alaska. The annual reports of Secretary H. L. Morehouse and Treasurer F. T. Moulton showed that during the past year the society raised a total of $684,052, leaving an indebtedness of $58,095. In its seventy-two years of existence, the society has commissioned 31,036 missionaries, who have baptized 192,202 converts and organized 5957 new churches. Rev. S. I. Thayer of Buckeye, Ariz., made an address detailing the work of evangelization in that part of the country.

UNITED BRETHREN.

QUESTION OF MERGER RAISED.

[BY THE ASSOCIATED PRESS—A.M.]

TOPEKA (Kan.) May 18.—The big fight of the day in the United Brethren's conference was over the closing of the Book Publishing Company at Dayton, O. Noon adjournment closed the discussion, but the majority of delegates seem to favor the closing, as it is a losing proposition.

The question of the merger of the United Brethren church with the Congregational and Methodist churches will be acted upon, and will undoubtedly be carried. The Young People's Union will also be merged into the Young People's Christian Endeavor.

CLEVELAND, May 18.—At today's session of the annual meeting of the Western Unitarian Conference, Moston D. Hull of Chicago was elected president.

LEFT OUT THE SENATE.

[BY THE ASSOCIATED PRESS—A.M.]

SIOUX CITY (Iowa) May 18.—The President and the National House of Representatives were heartily commended for their efforts to curb the trusts and corporations by the sixth annual session of Iowa Congregational churches and ministers today, but the United States Senate was intentionally omitted from the resolution. There was no dissenting voice when the vote was taken. John D. Rockefeller and his gift of $100,000 to the American Board of Foreign Missions will not be discussed at this session of the ministers.

CALIFORNIA GERMANS.

[BY THE ASSOCIATED PRESS—P.M.]

NAPA, May 18.—The State conference of the German Evangelical Church of California began its session here this afternoon. Delegates were present from Los Angeles, San Francisco, Santa Ana, Fresno and Sacramento. The afternoon was devoted to the work of the State Board of Missions, and the meeting was presided over by Rev. A. H. Cordes of Los Angeles. Bishop Breyfogel of Reading, Pa., is presiding over the general sessions of the convention.

PARRY CHOSEN TO LEAD THEM.

ELECTED BY ACCLAMATION IN SPITE OF WARM FIGHT.

National Association of Manufacturers Chooses New York as the Place of the Next Convention. Secretary Metcalf on Wonderful Growth of South.

[BY THE ASSOCIATED PRESS—A.M.]

ATLANTA (Ga.) May 18.—The National Association of Manufacturers today reelected David M. Parry president by acclamation; chose New York as the place for the next annual convention, and decided that the association shall be incorpoated under the laws of New York State. For the honor of having the next convention, San Francisco was the principal competitor.

The opening address at today's session was by George J. Seabury of New York, who made a lengthy discussion of tariff revision and the remedy.

HAD A WARM FIGHT.

[BY THE ASSOCIATED PRESS—P.M.]

ATLANTA, May 18.—After reelecting F. P. Stillman of New York treasurer, the roll call of States for vice-presidents followed. Among those chosen is H. D. Norton of California.

The choice of president was the occasion for a warm fight. The position taken by Parry on the labor question and on the matter of governmental control of railroads developed much opposition among those who held views differing from his. Resolutions were adopted opposing anti-injunction legislation, denouncing the eight-hour law and favoring gold exchange with silver-using countries and the usual vote of thanks to the entertainers.

Secretary Metcalf of the Department of Commerce and Labor, addressed the members of the association tonight. He was greeted by a large audience of representatives from every part of the land. Mr. Metcalf began his discussion by declaring, and establishing his statement by figures, that the South, within the last decade and at the present time, has grown and is growing in commercial importance and manufactures more rapidly than any other section of the country. Her population and every product of the soil and her iron and coal production show a higher percentage of increase than the United States as a whole.

Turning his attention to the importance of the United States as a manufacturing country, he said that the United States leads the world as a manufacturing country, the value of her products being equal to that of Germany, France and Great Britain combined. The total value of her manufactures in 1900 was approximately thirteen billion dollars. In spite of this fact, the United States, the greatest manufacturing country, exports but five hundred millions of the four billions of dollars of manufactured goods which enter into the world's international trade. Since 1898, they United States has led the world in the export of domestic products. Of our manufactured products only about 8 per cent. finds its way to foreign markets. The remaining 92 per cent. is consumed by our own people. The production of our manufactures is increasing more rapidly than our population.

DR. OSLER SPRINGS ANOTHER.

Says New York Sets Pace in Legislation, Institutions and Treatment of Tuberculosis.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, May 18.—"In spite of its frivolty, in spite of its size, in spite of its—other things which I hesitate to allude to—New York has set the pace in legislation, institutions and treatment of tuberculosis."

Dr. Wm. Osler made this statement today in an address following that of President Dr. Edward L. Truedeau, in opening the first annual meeting of the National Association for the Study and Prevention of Tuberculosis.

Dr. Osler said that education regarding tuberculosis was the thing to strive for. He discussed this feature under three heads: Education of the public, of the physician and the patient. The public, he said, was awake, but sitting on the edge of the bed and not yet dressed. In this awakening, however, he asserted much had been accomplished over past conditions. When the public got dressed he predicted that much activity would follow and much would be accomplished toward stamping out tuberculosis.

Many physicians from all sections of the country are in attendance and a number of members of State boards of health, who have just concluded their annual conference, are present. The subject of tuberculosis will be discussed in all of its phases for two days.

HERBERT CROKER'S FUNERAL.

NEW YORK, May 18.—Funeral services over Herbert Croker, son of Richard Croker, who died suddenly on a train near Newton, Kan., Thursday last, were held today in the Church of St. Agnes. Mrs. Richard Croker, his mother, was too ill to attend, and the Croker family was represented by Richard Croker, Jr., Misses Ethel and Florence Croker, Edward Croker, chief of the Fire Department, and Capt. James Collins, brother of Mrs. Croker.

Tom Thompson and John Hunt, colored deckhands on the steamer Mary Garrett, while playfully scuffling yesterday morning, on the steamer, fell into the channel, at Stockton. Thompson, who hails from San Francisco, could not swim and was drowned. He was about 40 years of age.

WASHINGTON.

SQUARE DEAL FOR OIL MEN.

Small Producers Need Fair Railroad Rates.

Important Opinion of Garfield on the Matter.

Metcalf Could be Secretary of the Navy.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 18.—[Exclusive Dispatch.] The report of Commissioner Garfield on the investigation of the Standard Oil trust will contain matter calculated to give the President's programme for proper Federal regulation of railroad rates another impetus. It is known in Washington that the Commissioner of Corporations has reached the conclusion that fair transportation charges and an open market to oil producers are essentials to small producers in the oil business.

The report, which, according to present plans, will be sent in shortly before Congress convenes, will emphasize and amplify these facts. Those who have talked with the commissioner expect that his report will put the case up to Congress as another instance pointing to the necessity of railroad legislation.

OUTSPOKEN METCALF.

COULD SUCCEED PAUL MORTON.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 18.—[Exclusive Dispatch.] Secretary Metcalf of the Department of Commerce and Labor, who is being talked about in Washington today as the successor to Paul Morton, Secretary of the Navy, is in Atlanta, and no statement can be made from him on the subject until he returns. It is not very probable, however, that Mr. Metcalf would care to make the change. The understanding is that, when he came into the Cabinet, less than a year ago, he could have had the naval portfolio had he desired it.

Since that time he has become extremely interested in his work where he is, and as his health is not altogether robust, it is considered doubtful by his friends if he would care to make the change.

MORTON TO WALL STREET.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 18.—[Exclusive Dispatch.] The positive statement was made yesterday, and not denied, that Paul Morton, Secretary of the Navy, who has announced an intention to resign from the Cabinet in October, at that time will become a member of the banking house of Redmond & Co., of No. 41 Wall street. There have been reports that Morton would enter active railroad work upon retirement.

GOING INTO BUSINESS.

[BY DIRECT WIRE TO THE TIMES.]

WASHINGTON, May 18.—[Exclusive Dispatch.] It is said here that Secretary Metcalf is to retire and engage in business in California. He has not yet determined upon the time. Metcalf has not found his position congenial. When he took the Secretaryship, he determined not to return to Congress, hence his resolve to reenter business life is not surprising. Secretary Morton will retire September 1, and Metcalf, it is believed, will leave about the same time.

WASHINGTON NOTES.

Volume of Appropriations.

WASHINGTON, May 18.—The volume of appropriations, new offices, etc., required to be compiled after each session of Congress has been completed for the third session of the Fifty-eighth Congress and the summary of the appropriations shows a grand total of $820,284,635. The total appropriations for the last session of the Fifty-eighth Congress for 1906 were an increase of $39,012,259 over the previous session of that Congress for 1905.

Forest Reserve Lands.

WASHINGTON, May 18.—The Commissioner of the General Land Office has issued instructions for the enforcement of the act of Congress of March 3 last, prohibiting the further exchange of patented lands in forest reservations for public lands outside of such reservations. He says that under the law protecting contracts already entered into, an exception will be made in the interest of certain lands in the San Francisco Mountains and Grand Cañon reserves in Arizona and the Santa Barbara reserve in California.

"RAGGING" ON CRUISER KENT.

LONDON, May 18.—A recent case of "ragging" on board the British cruiser Kent has been promptly followed by compulsory retirement, on half pay, of Capt. Douglas A. Gamble, her commander, for allowing such an occurrence on his ship, and by the punishment of others concerned in the affair. The "ragging" took place in the gun room, where the midshipmen attempted to strip and flog an unpopular comrade. The latter drew a revolver and shot one of the midshipmen in the mouth.

OLDEST SON OF VETERAN.

Death of Alexander Stubbs of Wakefield, Mass., Who Also Was a Veteran.

[BY DIRECT WIRE TO THE TIMES.]

WAKEFIELD (Mass.) May 18.—[Exclusive Dispatch.] Alexander Stubbs, said to be the oldest son of a Civil War veteran in the United States, died at his home here today, aged 78.

Stubbs himself was a veteran of the Civil War, as well as the son of a veteran. He enlisted in 1862, in Boston, as a private in Company A, Third Heavy Artillery. He was transferred to the navy, and served on the Princeton and Carolina. He was discharged at Philadelphia in 1865. In 1881, he joined H. M. Warren Post 12, G.A.R., of Wakefield, and ten years ago joined the order of Sons of Veterans, U.S.A.

GREAT EXPLOSION OVER GAS WORKS.

[BY DIRECT WIRE TO THE TIMES.]

PHILADELPHIA (Pa.) May 18.—[Exclusive Dispatch.] Under the lash of the leader of the most perfect political organization in any city in the United States, the city councils, which consist of two bodies patterned after the upper and lower houses of the national Legislature, tonight, amid excitement and uproar without precedent in the history of rotten politics in this ring-ridden city, turned over the gas works of the city to the United Gas Improvement Company for a term of seventy-five years for $25,000,000, which is to be paid in installments between the date of passage of the act and the year 1907. It is estimated that the ultimate profit of the gas combination will run close to a billion dollars.

The city is in an uproar, and there is no telling what may follow tomorrow, when popular indignation begins to manifest itself, because, slow as the Quaker City people are to resist imposition, they go to the extreme in demonstration and in action when goaded to the limit of endurance.

The disorder in the Council Chamber tonight, when the final vote was taken, was absolutely without precedent. Thousands of citizens surged around the City Hall. Every available inch in the part set aside for spectators was packed and jammed beyond description. As the vote was announced, there went up a roar of rage that made even the most subservient tools of Israel S. Durham, the leader, quail and turn livid with fear.

MORGAN HELPING THE CITY.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 18.—[Exclusive Dispatch.] "This city can have both Union Traction and City Railway properties and take them together, all free of debt and ready for municipal operation. But we want time to perfect necessary details for further negotiations."

This, in effect, is the first official proposition made to the city today in the most important traction conference ever held in Chicago. It was attended by J. Pierpont Morgan's personal representatives, John J. Mitchell, John A. Spoor and other millionaire stockholders and attorneys and the city's traction experts and lawyers.

The traction men announced they wanted to put no obstruction in the way of municipal ownership, but were anxious to do all they could to further it. It was made clear to Mayor Dunne that there would be no haggling over trifles in prices. Further, it was proposed that the Union Traction and City Railway Companies would either turn over their properties as they are, or would rehabilitate them for the city and then surrender all their rights of ownership.

Mayor Dunne was given to understand that the Morgan syndicate had no desire to hide behind the legal fence of a receivership, and was ready, as soon as negotiations warranted, to throw off the receivership, which is costing not less than $100,000 a year.

EIGHT TRAINMEN KILLED.

WAR ON JAPS NEAR ONTARIO.

Pale Brown Men Threatened With Violence.

Whites Say They Must Quit Picking Oranges.

Governor Asks the Sheriff to Take Precautions.

[BY DIRECT WIRE TO THE TIMES.]

ONTARIO, May 18.—[Exclusive Dispatch.] War has been declared upon the Japs in Ontario colony and the word has gone forth that the little brown man must leave.

Last Saturday night a mob of about forty-five men from Upland, north of here, made a raid on a camp of Japanese orange pickers employed by Mr. Dundas on Tenth street near Euclid avenue.

The Japs were threatened with violence unless they departed immediately. Mr. Dundas was shamefully treated by the mob, but no great violence was done. The Japs did not offer any defense, but promised to leave the next morning.

The Americans seemed to have secured a jiu-jitsu hold, as it were, and the Japs fellows were powerless. The after some considerable verbose throwing of rocks at the quarters occupied by the Japanese, went to another camp where twenty-eight more Asiatics were staying.

They were also threatened awful penalties they would promise to leave the locality immediately. This was determined to do, and the armed teams and drove them with all baggage to Pomona.

The laborers first called upon by the mob are still holding Port Arthur on Euclid street, and vow they will not budge.

Threats are made that if there is a single orange picker in sight by Saturday night there will be something do-

The entire affair has been kept very quiet. The first known of the embroglio came to the Sheriff's office at San Bernardino in the form of a telegram from Mr. Pardee, which was as follows:

"John C. Ralphs, Sheriff of San Bernardino county:

"Pending telegram has been received from Japanese Consulate, San Francisco. I respectfully ask that your offices be used in securing protection to Japanese residents at Ontario, at present said to be threatened with mob violence. Please advise me in the situation. If there is danger of serious disorder, I trust you will take all necessary precautions."

Sheriff Ralphs telegraphed the Governor that no battle of importance was pending and assured the State's executive that he was capable of successfully coping with the belligerents.

"I think the employer of the Japanese here will discover the identity of the members of the mob and that wholesale arrests will follow."

Officers of both this city and Upland, communicating with the Sheriff's office, said that interesting developments will soon be made.

It is claimed the Japs are pick-

ELECTIONS ARE HELD AT SAN LUIS OBISPO.

Hon. E. C. Clark of Santa Cruz Elected Grand Chancellor of the Order, and Mrs. Clara E. Martin of Stockton is Named as Grand Keeper of Rathbones.

[BY DIRECT WIRE TO THE TIMES.]

SAN LUIS OBISPO, May 18.—[Exclusive Dispatch.] The parade in honor of the Grand Lodge of the Knights of Pythias and the Grand Temple of the Pythian Sisters this afternoon was a stirring affair.

There were over three thousand people in line, one thousand of whom were children of the public schools, carrying American flags. All the fraternal orders in town turned out with representative units as an escort to the visitors to the grand lodge. After the parade, the delegates were given a fine-air banquet on the public square.

The Grand Lodge of Knights of Pythias elected the following officers: Grand Chancellor, Mayor D. C. Reed, Santa Cruz; Vice-Chancellor, Robert Hanford; Keeper of Seal and Records, Herman Schaffner, San Jose; Grand Prelate, W. D. Waggoner, San Bernardino; Master-at-Arms, Thomas E. Williams, Santa Monica; Inner Guard, C. Vermason, Eureka; Outer Guard, J. H. Johnston, Sacramento; Supreme Representative, E. E. Samuels, Oakland; Trustees, Thomas Armond, Ventura; J. R. Sloan, Fresno; C. E. Brown, Jackson.

Grand Prelate Judge E. C. Hart withdrew in favor of Mayor Waggoner of San Bernardino, thus saving the latter from voting what promised to be the most interesting contest of the session.

The Grand Temple of the Rathbone Sisters elected the following officers: Grand Chief, Mrs. Clara E. Martin, Stockton; Senior Chief, Mrs. Mary J. Moss, Pomona; Junior Chief, Mrs. Mary E. Moss, Bakersfield; Grand Recorder, Mrs. Julia Day, San Francisco; Keeper of Records and Correspondence, Mrs. Louise Holmes, Oakland; Mistress of Finance, Miss Mae Brown, Salinas; Grand Protector, Mrs. E. Fry, San Luis Obispo; Grand Chaplain, Mrs. Margaret Hamilton, Arcadia.

Among the guests of the session was the wife of Mrs. Maud Sheehan of Sacramento, for Supreme Representative, and Mrs. Lillian Samuels of Oakland, for Supreme Pringle of Santa Cruz was elected alternate.

SAN JOSE, May 18.—[Exclusive Dispatch.] Mrs. Elizabeth Ellis, wife of Judge A. Ellis, died of pneumonia at their home in Richmond Hill, in this city, aged 61 years of age, and a native of Denmark, the daughter of a military lawyer, who died when she was 3 years old. Ellis was a native of the same city, and they grew up together. Their marriage took place in 1876, after Ellis had been in this country several years. Mrs. Ellis possessed much literary ability, but collaborated with her husband, only on one occasion. Writing the chapter, largely autobiographical, of "The Making of An American." Much of the charm of that book is due to Ellis's narrative of his love for this woman. She is survived by three sons, Edward V., of the San Francisco Chronicle; John, of Denver, Colo., and William R. of Richmond Hill, and by two daughters, Mrs. William C. Fiske and Miss Kate Ellis, both of Richmond Hill. President Roosevelt sent a telegram to Ellis expressing sympathy. Mrs. Ellis had on several occasions been a guest at the White House with her husband.

Side Talks By The Office Boy

Did you go to the dog show last night? There's certainly a great bunch of dogs out there, and talk about "dogs barking at strangers," one old chap got sore because a few otherwise well-behaved dogs barked at him. He said, "He always wanted to shoot a dog that growled or barked at him. He said he always the Chutes instead, and the boatman threw a little cold water on the proposition. Pa always says a dog with a cold nose is a good dog.' Every man with a cold knows he ought to wear linen underwear or some kind of underwear that don't stay damp all day and as soon as he gets in a draught give him a mean cold. We have some lines of Mesh underwear made on the same plan as linen at about one-third the cost, which lots and lots of our customers have been wearing for years, and claim they are very satisfactory. We sell Mesh garments as low as 50c and 75c, but we especially recommend the $1.00, $1.25 and $1.50 grades. When it comes to pure linen, we recommend the "Belfast," as we consider the Irish linen better than the German. They cost $2.00 and $3.50 per garment.

GREAT CHANGE

From Change in Food

The brain depends much more on the stomach than we are apt to suppose until we take thought in the matter. Feed the stomach on proper food easy to digest and containing the proper amount of phosphates and the healthy brain will respond to all demands. A notable housewife in Buffalo writes:

"The doctor diagnosed my trouble as a 'nervous affection of the stomach.' I was actually so nervous that I could not sit still for five minutes to read the newspaper, and to attend to my household duties was simply impossible. I doctored all the time with remedies, but medicine did no good.

"My physician put me on all sorts of diet, and I tried many kinds of cereal foods, but none of them agreed with me. I was almost discouraged, and when I tried Grape-Nuts I did so with many misgivings—I had no faith that it would succeed where everything else had failed.

"But it did succeed, and you don't know how glad I am that I tried it. I feel like a new person, I have gained in weight and I don't have that terrible burning sensation in my stomach any more. I feel so strong again that I am surprised at myself. The street noises that used to irritate me so, I never notice now, and my mind is so clear that my household duties are a real pleasure."

Name given by Postum Co., Battle Creek, Mich.

There's a reason.

Now why was this great change made in this woman?

The stomach and the brain had not been supplied with the right kind of food to rebuild and strengthen the nerve centers in these organs. It is absolute folly to try to do this with medicine. There is but one sure way and that is to quit the old food that has failed and take on Grape-Nuts food which is more than half digested in the process of manufacture and is rich in the phosphate of potash contained in the natural grain, which unites with albumen and water—the only three substances that will make up the soft gray filling in the thousands of delicate nerve centers in the brain and body. Grape-Nuts food is a sure road back to health in all such cases.

CHILD TAKEN FROM HOME.

Warrant Issued for Woman for Abduction.

Detectives Trying to Locate Mrs. Sophia Adler.

Search Also Being Made for Girl of Sixteen.

If the half told of Mrs. Sophia Adler by her husband and Adolph I. Broches be true, the woman, who is described as a stunning brunette, is far from being what she should be.

Mrs. Adler is supposed to be on an overland train en route to Chicago with her two small children, and her accusers say she also has with her pretty Lena Broches, the sixteen-year-old daughter of Adolph Broches of No. 940 Court Circle, whom she is said to have induced to leave her parents' home. They also assert that it is the woman's purpose to secure pecuniary returns from what she may be able to do with the child.

A warrant was issued yesterday in Justice Austin's Court for the arrest of the Adler woman on a charge of kidnaping. The police have searched the city for the woman and her charge but they are convinced that she is on her way to the Windy City. Telegrams have been sent out in an effort to apprehend her and if possible she will be arrested before she reaches her destination and prevented from accomplishing any designs she may have upon her innocent young companion.

Mrs. Adler and her youthful charge disappeared simultaneously from No. 940 Court Circle Wednesday afternoon about 3 o'clock. Their departure was effected secretly and through a ruse they succeeded in getting away with their effects before the woman's husband or the girl's parents suspected that anything was wrong.

The Broches and the Adlers, who came here from Chicago five months ago, occupied a double house on Court Circle. Weeks ago the parents of Lena Broches realized that Mrs. Adler possessed wonderful influence over their daughter and the child was forbidden to associate with the woman. Lena appeared madly infatuated with her, however, and she continued to seek her society surreptitiously and to accompany her on trips to the country and downtown visits during the evenings. Threats did not deter the child.

Wednesday afternoon when Lena and her mother were alone, Mrs. Broches received a telephone message asking her to come to the house of a neighbor to see an old friend. Suspecting nothing wrong the mother left her home, and when she returned a short time later, after having found that the telephone message was a fake, she noticed the absence of her daughter. Later it was found that Mrs. Adler and her two children had disappeared also and a neighbor was found who saw the Adler woman and Lena Broches depart together and an express wagon take their trunks shortly after the mother left the house.

When Broches, who conducts a tailor shop at No. 329½ West Second street, returned to his home in the evening he was informed of his daughter's departure, and shortly afterward Adler learned of his wife's flight. A search was immediately instituted, but no trace of the fugitives could be found.

Adler cares nothing for the loss of his wife, but he is greatly interested in the recovery of his children and the saving of Lena Broches. He says he has not the slightest desire to ever see his wife again. In discussing the case Adler made some startling allegations in regard to his wife and her methods. He mentioned an insurance policy which his wife had taken out upon his life, and in her favor, and stated that it is his belief that he was induced to come to California, not for his health, but the opposite. He has been ill since he came here, and is still far from well.

"I firmly believe she took the young girl for improper purposes," said the husband. "She will stop at nothing. I know she has been corresponding with at least two men in Chicago while I have been ill here in Los Angeles, and I believe she has gone back to them."

Broches and his wife are broken-hearted over the loss of their daughter, who is described as a beautiful child. They cannot account for her mad infatuation and the wonderful power of the Adler woman seems to wield over her.

ENDS DISGRACE WITH DRUG.

FLORIDA MAN DIES IN GOTHAM.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, May 18.—Herbert Leon Kepler, a bookkeeper, whose home was at Deland, Fla., today died in a room in Sussen's Hotel, Forty-sixth street and Sixth avenue, from morphine poisoning. With him at the time was a woman who told the police that her name was Mrs. Dona Miller, and that she fled from Deland with Kepler two weeks ago. Mrs. Miller said Kepler was the son of a Deland physician and that he left Florida suddenly because of some trouble which he got into there. He left a wife and several children behind when he fled, and she left her husband to come with him. She has been detained by the police, pending further investigation. Kepler was about 35 years of age.

In the room which Kepler and the woman occupied the police found two small bottles. One was filled with morphine and the other, nearly empty, contained a trace of the drug. Mrs. Miller told the police that Kepler had been despondent for several days and had told her that unless his father did something at once to fix up the trouble at Deland he feared something dreadful would happen.

Later, Mrs. Miller told the Coroner that a portion of her story as she gave it to the police was untrue. She had not lived with her husband in several years, she said, and did not flee from Deland with Kepler. She had been in New York or vicinity for several years. She also told the Coroner that she had been a witness in the William Hopper Young murder case in this city, two years ago. She lived in the house with the murdered woman and had first introduced her to Young. Mrs. Miller also said that Kepler left a letter addressed to his father and mother, begging that he and Mrs. Miller be not separated in death and his parents and daughter forgive him for his act.

In view of this letter, the police believe that Kepler intended to kill both himself and the woman.

MORE TRICKS AT HOCH TRIAL.

"LEAD, KINDLY LIGHT" FOR JURY

[BY THE ASSOCIATED PRESS—A.M.]

CHICAGO, May 18.—With a final plea in behalf of Johann Hoch, charged with the murder of Mrs. Walcker-Hoch, counsel for Hoch, Attorney Isador Piotke, today finished his address to the jury. Assistant State's Attorney Harry Olsen then followed with an attack on the contentions of the defense and concluded with the demand that Hoch be adjudged guilty and the death penalty be inflicted.

Attorney Piotke directed his efforts more to the saving of Hoch's life than to a plea for a direct acquittal. In concluding his address, he said:

"I ask you to take with you to the jury room a few lines of poetry and consider them well, and before you weigh the evidence on which you are to acquit or condemn this man. They are the words that brought solace to a dying President as he lay on a bed of pain. With these verses in your mind, I believe you will give this man the liberty he should have and which is so dear to him."

The attorney then recited two verses of "Lead, Kindly Light."

After handing each of the jurymen a copy of the entire poem, he thanked them and closed his argument.

OREGON SHERIFFS TO APPLY LASH.

"WHIPPING-POST LAW" GOES INTO EFFECT IN THE NORTH.

Lieutenant Murdered at Maneuvers in Texas by Shot in the Back—Iowa Man Confesses to Robbing Bank to Save Life of Invalid Son—Mrs. Chadwick Issues a Statement.

[BY THE ASSOCIATED PRESS—A.M.]

PORTLAND, May 18.—The "whipping-post law" passed by the Legislature January last for the punishment of wife-beaters goes into effect today in this State. The new law provides that a man convicted of wife-beating may be punished with whipping, not exceeding twenty lashes, but this is only an additional punishment, and not the exclusive punishment for the crime. The old punishment by fine or imprisonment is still in effect, under the new law.

According to the new law, the whipping is conducted within the walls of the county or city jail, and by the Sheriff of the county or by a regularly appointed policeman, as the case may be.

CONFESSES TO FIVE MURDERS.

HIS CONSCIENCE TROUBLED HIM.

[BY THE ASSOCIATED PRESS—A.M.]

CHESTER (W. Va.) May 17.—In a letter to the police authorities of this city, a man signing himself "A. Johnson," and claiming to be a partner of Henry Williams, who was recently hung in Roanoke, Va., has confessed to five murders and numerous robberies. His reasons for writing are that other men have suffered for his crimes and his conscience troubles him.

The dates and manner in which the different crimes were committed, as furnished in Johnson's letter, are more complete than the police records, and the authorities believe its authenticity. According to Johnson, he killed a woman at Chester, W. Va., two Italians at Uniontown, Pa., a man at Hyndman, Pa., and a woman at Martin's Ferry, Ohio. He also claims to have assaulted a woman at Staunton, W. Va., for which crime, he says, another man was lynched.

MURDERED AT MANEUVERS.

LIEUTENANT SHOT IN BACK.

[BY THE ASSOCIATED PRESS—A.M.]

OKLAHOMA CITY (Okla.) May 18.—A special to the Times-Journal from El Reno, Oklahoma, says:

"Lieut. Granville Chapman, stationed at Fort Reno, was shot in the back today while assisting in the maneuvers of six companies in a running fight, and instantly killed.

"Early this morning, six companies of infantry were called out for field maneuvers in the presence of Brig. Gen. F. M. Lee, whose headquarters are at San Antonio. While engaged in a running fight across the prairie northwest of town, Lieut. Chapman, who was acting as the battalion adjutant, received a shot from a ball cartridge fired from the company opposing him. He died where he fell.

"Foul play is suspected and a rigid examination is being instituted to determine, if possible, the person who fired the shot. At present, no one in the six companies engaged can throw any light on the subject.

There appears to be a general impression at the post that the cartridge was used purposely and that it was intended for another regimental officer in the party instead of for Lieut. Chapman. It is reported here that Col. Bailey, of the Twenty-fifth Infantry, inspector general, is supposed to be the officer referred to, but no evidence on this point, if any, has been found, is given out nor can the presumed motive be ascertained. There is complete reticence among the officers.

Chapman received his commission in 1901. He was 30 years of age.

IN LEE LOOK'S BEHALF.

ATTORNEY SEEKS GOV. PARDEE.

[BY THE ASSOCIATED PRESS—P.M.]

SACRAMENTO, May 18.—Attorney A. H. Jarman, representing Lee Look, the Chinaman who was convicted of murder in Santa Clara county nearly five years ago and sentenced to hang, appeared in Gov. Pardee's office this afternoon, seeking a reprieve of one week. The Governor is at present in San Francisco. As Lee Look is scheduled to hang tomorrow at Folsom, Attorney Jarman did not tarry long in the Governor's office, but rushed off to San Francisco.

The lawyer for Lee Look stated that he wanted a reprieve of one week only, in order to prepare papers asking for a commutation of sentence. He exhibited a large scrap book showing newspaper clippings of five years past relating to the trial of Lee Look and asserted that the conviction of his client had been made a political issue in Santa Clara county. The newspapers of Santa Clara county, he said, were responsible for much bias against his client and had made a fair trial almost impossible.

CASSIE MAKES STATEMENT.

HER LOANS AND HER LOSSES.

[BY THE ASSOCIATED PRESS—A.M.]

CLEVELAND (O.) May 18.—Mrs. Cassie L. Chadwick has made a statement to the representative of the Associated Press concerning her affairs, in which she said:

"Since January 1, 1901, I have had $3,216,000. Of this amount I borrowed not over $1900, the balance coming from a trust fund and some sales.

"In April or May, 1901, I owed only $53,000. I paid that debt. I was then induced to make an investment which called for almost $400,000. I took no security for this investment and the transaction, as far as I was concerned, never materialized. The investment was made upon the advice of a friend. In February, 1902, after my return from Europe, I was informed that my investment was a loss and that I was in debt $400,000. Besides that sum, there was an additional loss which I had incurred of $200,000.

"In order to meet these losses, I made large loans, for which I had paid heavy commissions. I have borrowed, in all, $900,000. I obtained $175,000 on my own notes. A loan of $240,000 was secured by me on the indorsement of a prominent New Yorker. The other $400,000 I have mentioned before."

STABS WOMAN WITH BOWIE.

GUTIERREZ TRIES TO KILL MRS. FRANCISCA AYALA.

Invites Her Into Friend's House and Makes Attempt to Murder Her. "Examiner" Man Amuck With a Gun and His Pockets Found Full of "Dope."

This epidemic of slaughtering unresponsive lady friends advanced two numbers yesterday.

F. de P. Gutierrez, formerly editor of the Spanish paper, La Guzeta, tried to kill the woman who had formerly lived with him as his wife.

One of the men employed by the Examiner staff ran amuck with a gun, trying to kill some of his feminine relatives, he didn't seem to have a very definite idea as to whom, according to complaints.

Gutierrez nearly succeeded in his ambition.

For fourteen years he has been living with a Mrs. Francisca Ayala. She left him because of his booze proclivities and because she says he tried to kill her last November by turning on the gas in a room where she was sleeping.

Yesterday morning he met her as she was about to take a car at Macy and Howard streets. With many protestations of friendship he invited her into the house of a mutual friend named Sopena on Howard street, saying that he wished to give her some papers before his departure for San Francisco.

Once inside the house he drew an enormous new bowie knife, announcing that he would now kill her. She rushed screaming into the yard. Gutierrez, following, attempted to cut her throat, but she grabbed the knife in her naked hands, receiving terrible cuts in the fingers.

The infuriated man wrenched the knife free and plunged it into the fleshy part of her arm. He then was seized by neighbors, who sent for the police.

The other man, who works on the Examiner, gave his name as M. Levison.

Late in the afternoon, a telephone call reached the Police Station, stating that a man was trying to kill his family at Hill and Tenth streets. Officer Rice found Levison walking up and down the room of a house on the corner, much excited. Women in the house stated that he had drawn a pistol and threatened to make a general killing.

Levison told the hack driver who took him to the place that his sister-in-law didn't like him, which fact seemed to worry him considerably. He told the hack driver that he wanted to take his wife and child out for a drive, saying that they all lived in the same house, sister-in-law and all.

When he was searched at the station a number of opium pills such as are commonly used by "hop heads" were taken from him.

Levison was employed in the circulation department of the paper. The various pipe dreams about circulation that come from the Examiner office are more easily understood now.

STOLE TO SAVE SON'S LIFE.

EMPLOYE'S CONFESSION.

[BY THE ASSOCIATED PRESS—A.M.]

DES MOINES (Iowa) May 18.—Carl M. Spencer, a former trusted employe of the Des Moines National Bank, was indicted by the Federal grand jury today on a charge of embezzlement and for alleged fraudulent entries in the bank's books. The amount of Spencer's alleged fraudulent entries and shortage, and for which he is being prosecuted, will not exceed $5000.

Spencer, in a confession made prior to the indictment, said for many years annually he had been taking an invalid son East for medical treatment. He claims to have been unable to meet the expenses incurred by the medical attention, and to save the boy's life he took money from his employer.

CRIMINAL BRIEFS.

UNUSUAL COURT SCENE.

[BY THE ASSOCIATED PRESS—A.M.]

SAN JOSE, May 18.—The unusual spectacle of a father testifying against his son on a charge, which, if proven, will send him to prison, was witnessed in court here this morning, when Dr. Barth, an old resident, swore that his signature to a check passed by his son Walter was a forgery. Young Barth was held to answer.

RUNAWAY BOY IN BOXCAR.

[BY THE ASSOCIATED PRESS—A.M.]

SALINAS, May 18.—Lester Elkins, aged 14, who says his mother, Mrs. L. V. Elkins, resides at 236 Rusk street, San Antonio, Texas, was today arrested by the Sheriff in a box car with Lee Ewing, a tramp. The boy confesses that he had run away from home April 11 owing to promises made by Ewing to take him to the Portland fair. He wants to go home, and will be held for further investigation.

DEAD IN SEALED ROOM.

[BY THE ASSOCIATED PRESS—A.M.]

SAN FRANCISCO, May 18.—The police are making an investigation into the death of Mrs. Elizabeth Newell, a housewife who was found dead at her home today. She had been asphyxiated by illuminating gas. Her husband, who reported the case, said he went to the beach yesterday afternoon, fell asleep on the sands and did not awaken until the last street car had returned to the city. He then concluded to remain on the bach until morning. He could not furnish a motive for his wife's taking her own life. The room in which the body was found was sealed to prevent the escape of the illuminating gas.

RAILROAD RECORD.

NEW BOARD IS ELECTED.

Northern Pacific Shareholders Choose Directors.

Union Pacific Interests Vote for the Selections.

"Poker and Booze Car" for Missouri Parties.

[BY THE ASSOCIATED PRESS—A.M.]

NEW YORK, May 18.—After more than two years' delay, resulting from the Northern Securities litigation, a stockholders' meeting of the Northern Pacific Railway Company was held today and resulted in the election of new directors to succeed E. H. Harriman, William Rockefeller, James Stillman, Norman Ives, Sam Rea, Eben J. Thomas and H. McK. Twombly.

The stock held in the names of the Union Pacific interests voted for the new board. Most of the shares represented at the meeting were voted by a proxy committee, consisting of J. P. Morgan, Dan Lamont, J. N. Hill and John S. Kennedy. The new board is as follows:

For three years from the first Tuesday in October, 1904: John S. Kennedy, William James, George F. Baker, John D. Rockefeller, Robert Bacon.

For two years: Dan S. Lamont, Lewis Cass Ledyard, Howard Elliott, Charles Steele, George W. Perkins.

For one year: William P. Clough, James H. Hill, Amos Tuck French, Alexander Smith Cochran, Payne Whitney.

WALL STREET PUZZLED.

[BY DIRECT WIRE TO THE TIMES.]

NEW YORK, May 18.—[Exclusive Dispatch.] Wall street is at a loss in figuring the elimination of the Harriman interests from the Northern Pacific Railway Company, at the annual meeting of the company this afternoon. No effort was made by Harriman and the Standard Oil interests to obtain proxies for the meeting, and practically allowed the Hill-Morgan party to assume control without contest.

Since the first rumors of the election of Morgan-Hill directors, six months ago, the stocks of all the Northern Securities group have been continually supplied in the market, and have declined ten to twenty points immediately following the election, the speculative situation on the Stock Exchange changed. Heavy liquidation of stock came in from different sources and prices dropped in a short time two or three points, St. Paul and Union Pacific being prominent on the downward movement. The selling was stimulated to fears that the tariff bill would be reopened, but it was believed that there was some other reason for the pressure. Houses that are well-informed in regard to the situation, believed that it was the result of the renewal of the contest between Harriman and Hill, but that the contest would be waged on the Stock Exchange.

The reports of a settlement between the roads have not been confirmed by any one, and the stories of deals between the St. Paul and the Northern Pacific and the Union Pacific and the Burlington are now thought to have been largely created for the purpose of stimulating speculative movements of the stocks.

DEPARTMENT OF RAILWAYS.

PROUTY WOULD MAKE ONE.

[BY THE ASSOCIATED PRESS—P.M.]

WASHINGTON, May 18.—Commissioner Prouty of the Interstate Commerce Commission today gave testimony before the Senate Committee on Interstate Commerce on the subject of regulation of freight rates. He said that neither the commission nor any court has power to determine a reasonable rate for the future. He would create a department of Railways, before which informal complaints could be heard. In his opinion the railway rates would be lower now than if they had been under a commission. Competition between railways, he declared, had ceased, or almost ceased, in a very short time. Disintegration, he predicted, would be a worse evil than rebates in the future. Under present conditions the Standard Oil Company had an absolute control of the oil business on the Atlantic seaboard.

Mr. Adams, representing the Spokane (Wash.) Chamber of Commerce, said that injustices were practiced against Spokane. On six staple articles the discrimination was 80 per cent. Where a rate was $1.80 to Spokane from Chicago, the rate was $1 to Puget Sound points. This was afforded by suspension of the long and short clauses of the law because of water competition. Railroad classification, in some cases, he charged, had been made by manufacturing establishments themselves.

THAT RATON TUNNEL.

IN A FEW IMPORTANT WORK.

[BY DIRECT WIRE TO THE TIMES.]

PUEBLO (Colo.) May 18.—[Exclusive Dispatch.] The Santa Fé Railway Company has let a contract to Corrigan Brothers of Pueblo to build a tunnel through the Raton Mountains, near Raton, N. M., which will give the road a new line from Trinidad, Colo., to Albuquerque, N. M., and probably will place Santa Fé, the old historic city, on the main line of the Santa Fé.

The construction of the tunnel will cost $1,000,000, and will give the Santa Fé an opportunity to make quicker time with eastern points to Pacific tidewater. It will lessen the trouble from snow also. The tunnel will be 5000 feet long and 16 feet lower than the present one.

"POKER AND BOOZE CAR."

SERVICE FOR MISSOURI.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, May 18.—[Exclusive Dispatch.] A novelty in the way of all-night dining or cafe club car service has been installed by the Illinois Central on its Diamond Special train between Chicago and St. Louis. Hereafter on this train, which departs from Chicago at 10:15 p. m., there will be a new buffet club car, dubbed by the train crew the "poker and booze car," which will be served all night between Chicago and St. Louis. This is the first time that anything of the kind has ever been attempted. It is designed to meet the wants of those who may desire food and refreshments during the night.

The cars are brand new, as are the dining and chair cars that constitute the rest of this train. They are all full-vestibuled, and the entire equipment is an expenditure of something like $150,000. Similar service will be maintained northbound between St. Louis and Chicago, and it goes without saying that the service will be popular.

GEN. SHERMAN TALKS OF TRIP.

VACATION IN UTAH WITH HIS SON AND FRIENDS.

Wisdom of Laying the Straight Rail from Northeast Gateway to Southwest Capital—"Salt Lake's Trains as Fine as Any to be Found in the United States."

Gen. M. H. Sherman, of the Los Angeles-Pacific Railroad Company, his son Robert P. Sherman of Phoenix, Ariz., F. O. Johnson of the Westminster Hotel, and a party of friends, have returned from an eight days' pleasure trip and vacation in the State of Utah. They traveled both ways over the new Salt Lake route, and stopped off going and coming at Las Vegas, the Salt Lake Railroad Company's chief intermedial point. At Salt Lake the party was handsomely entertained.

At his hotel last evening Gen. Sherman talked about the trip. "It was a delightful journey," he said, "full of interest and diversions. We were well pleased with all we saw. Particularly fine is the management of the new line, fully up with the best standards of modern railroading. The Salt Lake route is designed to be immensely popular as the most direct line of travel between Los Angeles, the commercial sapital of the Southwest, and Salt Lake, the northeast gateway to the Southwest and a city facing a splendid future.

"We visited several of the larger mining camps and smelting plants round about the Utah capital, inspected their equipments and viewed their prosperity. What we saw helped us to form some estimate of the part this new and direct highway connecting two powerful cities and traversing an intervening country of unbounded, undeveloped wealth, is destined to play in the upbuilding and unfolding of the West; and one cannot help glimpsing the stream of added population to pour southwestward from Utah, Idaho and Montana, through this new channel of transportation into the fields and marts of our own incomparable State. Looking at the tourist side of the matter, it is a great thing for us and for others to have a straight rail from the hot plains of the interior to the breezy sea-beaches of Southern California."

Gen. Sherman had, also, words of praise for the Oregon Short Line and General-Manager W. H. Bancroft and his official staff; the sections of country traversed by that road are being rapidly built up by it, he said; "we believe the future of Utah, Idaho and Montana is very bright, and already reflects the glitter of big achievements upon Los Angeles and the territory that must always pay tribute to her.

"The Salt Lake route," continued Gen. Sherman, "is running as fine trains between this city and the Utah capital as can be found in the United States. The travel is already large, and will constantly increase—facts pointing the wisdom of Senator Clark and his associates in building the road."

Innes and His Band.

LOS ANGELES, May 18.—[To the Editor of The Times:] Public appreciation of good band music is rapidly gaining ground in America. Innes, with his band and soloists, is giving the music-loving people of Los Angeles a delightful May Festival week. The fifty men who comprise the Innes band organization include several who are artists as well as musicians. The instruments are well balanced, the brasses perfectly adjusted and sufficient, the reeds in exquisite evidence and over all is Innes, the American bandmaster, who directs with forceful leadership, and who neither rants nor poses, and upon whom all extravagant epithets, sometimes used to express the vagaries of genius, are entirely lost. "Wizard," "unique study," "erratic son," "volcanic gymnast," "temperamental mystery," are words never used in connection with Innes. Rather refreshing and soothing, is it not? The band produces orchestral effects amazingly well. This was particularly noticeable in the "Parsifal" music.

I wonder whether the Innes form of band musical expression, or the fiery Italian methods will prevail in the future position of American band music? More than ever am I impressed with the importance of good critical newspaper reviews of things musical; I have heard a hundred times during the past few days the question, "What do the critics say?" The dear public usually has opinions, but how about artistic standards? Intelligent persons like to know things for themselves, consequently they are willing to be helped to correct critical ideas by the authorities. Someone has said that the eternal problem of criticism is the problem of how to get rid of the personal element and the contemporary equation. Advanced thought is always subject to discredit, as in the work of Richard Wagner, the great master of all the chords of human passion, whose creations for many of us sums up all the anguish, the pathos, the charm of life. Conundrums from an Umbrageous Quarter. See?

The Times is not responsible for the statements or views here expressed. Its own attitude on High License and Prohibition, respectively, is well known and unmistakable, and is voiced in the editorial columns proper whenever occasion requires.]

LOS ANGELES, May 17.—[To the Editor of The Times:] I am not now, nor have I ever been, interested in the liquor traffic, in this or any other city in these United States. For that reason I am not subject to criticism as an interested party in asking the following questions:

By what course of reasoning can the Evening Express square its conscience (if its manager has one) by espousing the anti-saloon crusade in one column and in every other column advertising liquor houses and special brands of whiskies, wines and beers?

To a man at an umbrageous height it would seem that this enveling evening daily is out for the coin in its advertising space, and hopes to reach heaven in its news and editorial columns! ["Huh!"]

Will someone explain how Dr. Chapman can tolerate such a condition?

Respectfully, J. W. MARSHALL.

NOT ABANDONING.

SEATTLE, May 18.—According to statements made to the Post Intelligencer by a photographer who gained admittance to the fort, Great Britain is not abandoning her fortifications at Esquimalt, which has been inferred from the dismantling of the outer works, but, instead, is building stronger and more modern defenses.

"A magazine of the world's best fiction," is what "Tales" is to be. It will contain nothing but stories—stories humorous, pathetic, descriptive, tragic, comic—stories from every language that possesses a literature—stories from France, Germany, Italy, Scandinavia—stories from Spain, Hungary, Arabia and Japan—all translated into English. And the stories will be the best that those countries produce—nothing but the best. In "Tales" every kind of reader will find the kind of story he likes best. Each number will contain a complete novel, one or two serials, and from fifteen to twenty short stories. It will give 160 pages of reading matter—the largest quantity of good fiction ever included in one magazine.

Hadn't you better order it from your newsdealer?

TALKS WITH TRAVELERS.

Another foreign admirer of American educational systems is Herr Prof. Darmstaedter of the University of Berlin, Germany. He is a guest at the Angelus and expects to make a short visit in Los Angeles. Prof. Darmstaedter is known as one of the distinguished savants of Germany. He holds the chair of political economy in the University of Berlin, although a man not much over thirty. In appearance he lives up to his title and is just what a German professor is expected to look like. His trip is largely for pleasure; but being interested in American schools, of which he has heard a great deal, he is also investigating.

"You have a great educational system," said the professor in discussing what he had seen in the United States. "Of course, we in Germany are more thorough. But I am not sure that your system does not give a young man a more practical preparation for life. We do not believe in having young women and men at the same college—you call it co-education, don't you? In fact, we don't have very much education past the gymnasium standards for girls. The German girl is supposed to learn all she will find necessary in the gymnasium, corresponding to your high schools.

"Your California appeals to me as a beautiful country. It is especially refreshing after some of the land one passes through before reaching it. Here everything is green and beautiful. Still I should think it would become monotonous to have it last all the year round. Does it not? No? Anyone brought up in Germany, like myself, would find the need of some cold winter weather."

Gen. John T. Richards, inspector-general of military homes throughout the United States, arrived in Los Angeles yesterday, on his semi-annual tour of inspection. He is at the Angelus. Gen. Richards was formerly Adjutant-General of the State of Maine. He was appointed to his present position about a year ago.

"I have found everything running smoothly in all the homes I have inspected so far," said he last night. "The old soldiers are all contented, as well they may be, for they get excellent treatment. Compared with those of other countries, I think our military homes show up most favorably.

"One thing has impressed me above all others in Los Angeles. That is the stolid, matter-of-fact expression of the Santa Fé baggage men when you tell them you've lost your luggage. They want you to understand that is one of the features of a visit to Los Angeles."

STOP MOVE FOR NEW PLANT.

SAN DIEGO LIKELY TO GET A READY MADE ONE.

Board of Public Works Refers Matter of Establishing Outfit in Mission Valley Back to the City Council—Efforts Unsuccessful to Connect Robinson With Dunham.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

SAN DIEGO, May 18.—The Board of Public Works decided today to refer back to the City Council the matter of establishing a pumping plant in the Dungan tract in Mission Valley. This action is taken in view of the fact that the Southern California Mountain Water Company is about to enter into a contract with the city to supply water for 4 cents per thousand gallons for ten years, and will be able to commence the delivery within four months. The plans called for a pumping plant costing $40,000, the idea being to pump water direct into the University Heights reservoir.

NOT DUNHAM, THEY SAY.

The efforts made by peace officers and special correspondents to establish an identity between Robinson, who killed four people, shot another and committed suicide here last Monday, and Dunham, the notorious Santa Clara murderer, has failed completely. Several people who had known Dunham called at the undertaking room and positively declared that Robinson was not the man. They had known Dunham before he went to San José and knew things about him that could make them positive in their assertions.

BAY TOWN BREEZES.

C. S. Alverson, formerly superintendent of the city water department, has filed an application for the position of superintendent, which position is now held by J. A. Flint. Mr. Alverson is the engineer who submitted estimates for the Cajon water plant.

The funerals of three of the victims of Monday's tragedy, Mrs. Stewart and son, Willie Stewart, and Harry P. Doddridge, were held yesterday afternoon. The latter was at Masonic Temple, the deceased having been a member of San Diego Lodge of the Masonic order.

Rev. W. E. Crabtree, pastor of the Central Christian Church has been granted a two-months' leave of absence, and with his wife, will make a trip to Honolulu, leaving here the middle of next month.

By the falling of a partially torn down building at the corner of Fifth and E streets, yesterday afternoon, Mrs. Charles L. Judd and C. Twambly were seriously injured yesterday afternoon. Both were caught under the broadside of the building which fell over the sidewalk. Three of the woman's ribs were broken and she sustained other internal injuries. Twambley's leg was broken.

George McIntire of Los Angeles and Miss Anna Oesting of this city were married here yesterday, at the home of the bride's parents, Mr. and Mrs. H. F. Oesting.

In yesterday's trial in the case of M. T. Ward, on the charge of defrauding an inn keeper, the jury disagreed. Two other small cases are pending against Ward.

CORONADO BEACH.

PLAYGROUND FOR CHILDREN.

[SPECIAL CORRESPONDENCE OF THE TIMES.]

CORONADO, May 18.—A children's playground is among the new features of Tent City, which is being made ready for the opening. A large plot will be set aside for the use of the children, furnished with swings, seesaws, whirligigs, horizontal bars, etc. The playground will be adjoining the children's swimming pool.

Yesterday's arrivals included: Mr. and Mrs. Herbert S. Houston, New York; Mrs. Arthur Orr, Miss Orr, Tracey C. Drake, Chicago; John Leggatt, Hamilton, Ontario; Mr. and Mrs. A. J. Belden, Syracuse, N. Y.; Ed Block, Prescott, Ariz.; Mrs. E. M. Detrick, San Francisco; A. M. Chase, New York.

Mr. and Mrs. Austin Goodman of Cincinnati have written for summer reservations at the hotel. They will be accompanied by Mr. and Mrs. Swift.

EARNED THEIR DIPLOMAS.

Five Young Women Graduated by the Pacific Training Hospital Last Evening.

Five white-capped maids received diplomas last evening at Cumnock Hall from the Pacific Training Hospital. Framed in a golden mass of California mustard and with vari-colored bouquets of flowers, lining the stage, these five listened to the tributes showered upon them by the speakers of the evening and accepted gracefully the parchment so hardly earned. The entire hall was abloom with mustard in fluffy masses and great "Brown-eyed Susans," the class colors being gold and green. Nurses with great bunches of class ribbons ushered the guests to their seats.

The programme was opened with a trio, "The Golden Wedding" (Emil Iseman,) given by three pretty girls on piano, violin and flute. Invocation by Rev. William Horace Day was followed by Tosti's "Goodbye," given by Miss Isabelle Robson. Dr. J. Lee Hagadorn spoke briefly, but humourously comparing the nurse of today with those of fifty years ago. He also told of the many obstacles, which a nurse must overcome before she can finally receive her diploma, and of how the frivolous ones drop out. He closed by pointing to the class and denoting them as "the survival of the fittest."

The Lotus trio rendered "Sunbeams and Shadows" (Mathews,) and Dr. Robert McIntyre was introduced. He said in part:

"The hospital is the church of the body. My edifice is the church of the soul. The sacrifices we ministers make to save souls, these brave women nurses are making every day to save the bodies; the temple of the souls. These nurses are the missionaries of the body." Miss Margaret Gage rendered "My Dreams" (Tosti,) and the diplomas were awarded with a graceful speech from M. N. Eskey, the head of the Pacific Hospital Training School. The programme closed with "The Voice of the Flowers" (Lee Orgain Smith,) by the Lotus trio, during which the flowers were distributed.

Best of all was the banquet, which served as a climax for the happy evening, given by Mr. Eskey at the Hospital Hall. Here the table was ablaze with flowers. The graduating class and alumnae of the school were guests. Mrs. Amy Maly, read the class prophecy brimming with good cheer, and Miss Florence Case, a graduate of the class of 1903, related her experiences.

Members of the graduating class are: Margaret L. Chapman, San Francisco, Cal.; Gail Hewitt of Los Angeles, Amy Maly, Los Angeles; Carrie M. Rich, Fullbrook, M. Gertrude Wood and Malcolm G. Fenn of Los Angeles.

Industrial Nurseries.

[Manufacturers' Record, Baltimore:] The recent editorial in the Manufacturers' Record commenting upon the idea of a nursery of industries as developed at Worcester, Mass., under the Merrifield plan has attracted wide attention. The comment was made primarily as a suggestion to progressive Southern communities, but it has gone already as far as the Pacific Coast, and The Times of Los Angeles, Cal., referring to it, urges the business men of the community to consider it. It says:

"A good return on the money invested in such a building would be assured. Southern California has many men awaiting just such a chance of starting for themselves in lines of manufacture with which they were familiar in their old homes, but which have not yet been established here. It is from such small beginnings that thriving new industries may be built up in our midst. And in the Southwest, where the field is far from being yet occupied, the rate of growth is very rapid. The tiny workshop of today is a big factory within a few years' time, as many cases can be cited to prove."

And true, too, for many Southern cities.

Careful investigation of these residences will convince you that it is to your best in- terest to invest your money in one of them. Located as they are, in the best residence district in the city, their income value is steadily and rapidly increasing. Come to Alt- house Bros. if you want to secure a sure bar- gain.

$400 cash, balance good payments to suit; fine, large, handsome cottage of 6 rooms, 2 halls; verandas; all walks, lawn and many flowers, but a few months old, near University of Southern California; lot is 50x140 feet, with shed in rear and many fruit trees. This is very large cottage, exceptionally well built, every room more than ordinary size; splendid value throughout. It is completely modern; best plumbing, large bath, separate toilet; large pantry, pretty mantel and buffet, and even the halls are larger than usual. Kitchen range and new matting in the 2 bedrooms go with house.

$3900

Terms. Fine, large attractive 7-room 1½- story home, occupied but a few months, lo- cated near Figueroa st. in pretty southwest neighborhood; it lies on generous lot, with lawn and flowers; the plan of the lower floor is especially convenient, with all modern requisites, and kitchen and pantries are co- zily complete; there is a handsome mantel, built-in bookcase, buffet, and the finish is Flemish oak above stairs are 3 very large bedrooms with large bath, ample closets and trunkroom. Nothing so good for the money anywhere.

$5500

Handsome and roomy home near Westlake Park, lying south and eqtitle west, but four blocks distant; the house is new, strictly mod- ern and the interior arrangement is beau- tifully original; all rooms are very large, the living-room 14x28 feet; reception hall wide and deep; dining-room 12x18 and fitted with ele- gant appointments; above stairs are four fine large bedrooms and the bath; every room commands splendid mountain view. It is one of the most modern and attractive homes for sale today. Terms may be had.

$3750

We believe this the most beautiful and har- moniously planned home for the money to be found in Los Angeles. It contains 8 rooms and very large reception hall; every detail from hardware to the cemented cellar, and furnace, has been carried out with elegant care; the rooms are parlor, library dining-room, and 3 extraordinarily large bedrooms, one a charming boudoir; nothing is lacking to make this home ideal; its appointments include all those little things quite to be completed an expensive home, and yet the price is ridicu- lously low. The lot is wide and deep and lies in an exclusive district one block from Ad- ams st.

FOR RARE ARCHITECTURAL BEAUTY OUR FLATS AND APARTMENT HOUSES HAVE NO EQUAL IN THE CITY. THEIR OWNERS ARE OUR MOST ENTHUSIASTIC ADMIRERS, AND THEY KNOW,

For they have watched every detail of their respective building as it progressed, and with surprise and satisfaction noted that only the finest material and workmanship were allowed on our buildings.

IF YOU ARE PROSPECTIVE BUILDER —OF A— FLAT, APARTMENT HOUSE OR PUBLIC BUILDING OF ANY KIND, ALL WE ASK is the privilege of taking you out to see our buildings, both completed and in course of construction. We quote from a prominent cap- italist in the city, for whom we are now get- ting out plans for an apartment house which will have no equal in the city: "Your buildings are a pride to Los Angeles. Property owners seeing them will never be satisfied to have their buildings constructed by others."

FOR SALE— Houses.

FOR SALE—HOUSES.

We offer for sale as a special bargain a new, strictly modern eight-room residence, situated at No. 422 West Kensington Road. This house was built by contract, but the owner, on account of an indebtedness which he could not meet, was forced to sell. We took the property off his hands and will give you the benefit of the bargain.

The downstairs has oak floors, highly pol- ished; coved ceilings, electric fixtures, the very best of plumbing and sidewalks. These and other conveniences are to be found in this home.

We have been holding this property at $4500, but in order to make a quick sale we will sacrifice for $3500, part cash.

On June 1st all cottage lots on 40th, 42st and 42nd streets, from Main st. to Figueroa st., in

BOWEN & CHAMBERLIN'S MAIN AND FIGUEROA ST. TRACT No. 2

will be advanced in price. We give all fair warning. Until June 1st any lot or lots se- lected and a deposit received will be delivered at the old price. June 1st each and every lot be advanced; so now is the accepted time to buy a lot at a reduced price. Think of the location, between Main and Figueroa streets, two of the most popular streets in the city, and only 15 minutes' ride to Second and Main streets. Our street work is all completed and paid for, and we do not hesitate to say that we have the best proposition on the market today for future advancement at the price we are now offering the public in general.

GO OUT TODAY

FOR SALE— BARGAIN! BARGAIN!

We have for sale the cheapest high-grade ranch property on the Los Angeles market. It consists of 40 acres of first-class soil; located 2½ miles north of Hollywood, and within 9½ miles of the Courthouse, Los Angeles. The soil is a sandy loam, and cannot be surpassed in Southern California for growing alfalfa, berries, walnuts, potatoes and all other vegetables. This soil will average 3 tons per acre in alfalfa, and will run $150 per acre in potatoes. It will easily pay for itself in less than 24 months. Adjoining properties run from $150 to over $300 per acre. You have the advantage of being close to the Los Angeles market, have the best of soil and plenty of water. Do not fail to investigate this property if you are in the market for a bargain. Price only $125 per acre.

FOR SALE—
I have for sale several well-located tracts of choice land at and near Las Vegas, Nev. The Salt Lake road has brought this country out of obscurity, and is rapidly making of it a land of homes. Agricultural and mining industries are now free for extensive development. Las Vegas is growing at a rapid rate, and will soon be numbered among the inland cities of the West. Before many months it will be connected with the great mining camps, Bullfrog, Goldfield and Tonopah. It cannot escape marvelous growth during the coming few years, and will, in all probability, be the county seat of a new county.
The several parcels of land I offer for sale are in the artesian water belt, and are admirably adapted for general agricultural purposes, and especially the raising of alfalfa and vegetable products. One tract is quite close to the town of Las Vegas, and is suitable for subdivision into small tracts, or town lots.
For particulars as to prices, terms, etc., call or write.

FOR SALE—
We have a client who owns a first-class 10-acre orange grove, comprising 5 acres of navels, 9 years old, and 5 acres of Valencias, 5 to 6 years old. The soil and location are first-class, and there is an abundance of water at a very low rate. Circumstances over which he has no control have so placed him that he is in danger of losing the property under foreclosure. A very small sum will take it and the crop returns will easily pay for the balance due on mortgage. We will be glad to give particulars to anyone who has a few hundred dollars with which to get this snap.

We've been getting a touch of real Los Angeles summer weather and it is making everybody feel good.
Speaking of real things, tides opportunities and such, calls
SUNNYSIDE.
to mind. There is a great deal in being able to grasp an opportunity at its right time—to seize upon the psychological moment, so to speak, and turn it to advantage. Now
SUNNYSIDE.
is a proved property, a little community of established homes away from the heat and noise, but still so near as to secure the conveniences and comforts that pertain to city life.
SUNNYSIDE.
was planned for men and women who want pure air to breathe, room to turn round in; who would rather live by the acre instead of by the front foot; who wish to raise fruits and flowers and vegetables; who would rather raise chickens than live always with an increasing roar of the city in their ears, by day and by night.
SUNNYSIDE.
is ACREAGE, NOT town lots. It is a beautiful tract on Vermont avenue and Figueroa street, only 2 miles from the city's southern limits, 20 minutes' ride from the business center, with two fine car lines. Streets graded, water piped to each lot, shade and fruit trees; handsome stone pillars at entrances.
SUNNYSIDE.
is laid out in quarter-acre lots, as low as $200; half-acre at $350; 3½-acre lots at $1050. Some selections a little higher; easy terms. Go down and see Sunnyside. It will cost you nothing. We furnish tickets. Go down any day. Come back an hour later. City office open Sundays to accommodate those wishing tickets.

ORDINANCE NO. 11,055.

(New Series)

An ordinance calling a special election to be held in the City of Los Angeles on the 2nd day of June, 1905, and submitting to a vote of the people of said city, a certain ordinance submitted to the Council by a petition signed by registered electors of the city equal in number to more than fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, which petition was filed with the City Clerk on April 13th, 1905, and thereafter, to-wit, on April 21st, 1905, certified by him to be sufficient, and on April 24th, 1905, submitted by him to the Council; subdividing the city into election precincts; designating the ballot places and appointing the election officers for said election.

The Mayor and Council of the City of Los Angeles do ordain as follows:

Section 1. That a special municipal election shall be held in the City of Los Angeles on Friday, the 2nd day of June, 1905, for the purpose of submitting to a vote of the people of said city a certain ordinance submitted to the Council by a petition signed by registered electors of the city equal in number to more than fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, which petition was filed with the City Clerk on April 13th, 1905, and thereafter, to-wit, on April 21st, 1905, certified by him to be sufficient, and on April 24th, 1905, submitted by him to the Council, said ordinance being in words and figures as follows:

ORDINANCE NO. ——

"New Series"

An ordinance of the City of Los Angeles prohibiting the sale of intoxicating liquors therein, except as in said ordinance provided, and repealing all conflicting ordinances and conflicting parts of conflicting ordinances.

The City of Los Angeles does ordain as follows:

Section 1. It shall be unlawful for any person, firm, corporation or association to establish, keep, maintain, conduct or carry on within the City of Los Angeles any saloon, bar-room, tippling-house, dramshop or other place where spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks are sold, kept for sale, offered for sale, furnished, divided, delivered or given away.

Sec. 2. It shall be unlawful for any person, firm, corporation or association to sell, keep for sale, offer for sale, furnish, divide, deliver or give away within the City of Los Angeles any spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks.

Sec. 3. Nothing in this ordinance shall be construed to prohibit or interfere with the serving of liquors by any person to himself, his family, or his guests at his own private table in his own home and without consideration.

Sec. 4. The prohibitions of this ordinance shall not be deemed to apply to the serving of vinous or malt liquors in the main public dining-room of a bona-fide restaurant, or of a bona-fide hotel, or in the main dining-room of a bona-fide club, with or as a part of bona-fide meals. For the purposes of this ordinance in order to be included within either of the above terms, restaurant, hotel or club, such place must be fully equipped with modern appliances for cooking and preparing warm meals, and must be a place where bona-fide hot meals are served at least three times a day and six days in the week to the general public, and in the case of a bona-fide club, to members of such club and their guests. A bona-fide meal for the purposes of this ordinance is defined to be a meal consisting of such quantity and kind of food as is ordinarily served for a meal in hotels and restaurants, and the serving of such liquors must be incident to such meal. Merely sandwiches or lunches, or cheese, or crackers, or other subterfuges shall not be deemed a bona-fide meal within the provisions of this section.

Sec. 5. The prohibitions of this ordinance shall not apply to the sale of intoxicating liquors for medicinal purposes by any registered pharmacist under the laws of the State of California, upon the written prescription of a practicing physician entitled to practice medicine under the laws of the State of California, provided such sale is made in the manner prescribed in Section 1 of Ordinance Number 5046, New Series of the City of Los Angeles. Nor shall the prohibitions of this ordinance apply to the carrying on the business of selling intoxicating liquors in quantities of not less than one-fifth of a gallon where such liquors are not drank on the premises where sold.

Sec. 6. Nothing in this ordinance shall be construed as giving to any person, firm, corporation or association the right to sell, serve or give away or distribute any spirituous, vinous, malt or mixed liquors or any alcoholic drinks in the City of Los Angeles. Nor shall any of the provisions of this ordinance be construed so as to prevent the people of the City of Los Angeles, or the properly constituted legislative body of said city from prohibiting or otherwise regulating the business of selling, or the sale or distribution of spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks in said city not prohibited by this ordinance; provided, however, that such regulation shall in no wise conflict with any of the provisions of this ordinance.

Sec. 7. Every breach of this ordinance and every violation of any of its terms, and each day of the continuation of such breach or violation shall be deemed to be a separate offense.

Sec. 8. Any person who either as principal, employer, agent, clerk, servant or employee, or otherwise, violates any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars, ($500.00) or by imprisonment in the city jail of said city for a period not exceeding six months, or by both such fine and imprisonment.

Sec. 9. All ordinances and parts of ordinances of the City of Los Angeles in conflict with this ordinance are hereby repealed.

Sec. 10. This ordinance shall take effect and be in force 30 days from and after its adoption.

Sec. 11. The city clerk is hereby directed to publish this ordinance in some daily newspaper printed and published in the City of Los Angeles in at least one publication prior to the taking effect of the said ordinance.

Sec. 2. That the ballots used at said election shall have printed thereon in addition to the other matters required by law the following propositions, to-wit:

"For the ordinance prohibiting the sale of intoxicating liquors in the City of Los Angeles, except as in said ordinance provided."

"Against the ordinance prohibiting the sale of intoxicating liquors in the City of Los Angeles, except as in said ordinance provided."

Sec. 3. That for the holding of said election the said city is hereby districted and subdivided into municipal election precincts, each of which precincts is wholly within one of the nine wards of said city. That the following are the boundaries and balloting places of said municipal precincts, and the following persons are hereby appointed officers of election for such precincts respectively:

ORDINANCE NO. 11,055.

(New Series.)

An ordinance calling a special election to be held in the City of Los Angeles on the 2nd day of June, 1905, and submitting to a vote of the people of said city, a certain ordinance submitted to the Council by a petition signed by registered electors of the city equal in number to more than fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, which petition was filed with the City Clerk on April 21st, 1905, certified by him to be sufficient, and on April 24th, 1905, submitted by him to the Council; subdividing the city into election precincts; designating the ballot places and appointing the election officers for said election.

The Mayor and Council of the City of Los Angeles do ordain as follows:

Section 1. That a special municipal election shall be held in the City of Los Angeles on Friday, the 2nd day of June, 1905, for the purpose of submitting to a vote of the people of said city a certain ordinance submitted to the Council by a petition signed by registered electors of the city equal in number to more than fifteen per cent. of the entire vote cast for all candidates for Mayor at the last preceding general election at which a Mayor was elected, which petition was filed with the City Clerk on April 15th, 1905, and thereafter, to-wit, on April 21st, 1905, certified by him to be sufficient, and on April 24th, 1905, submitted by him to the Council, said ordinance being in words and figures as follows, to-wit:

ORDINANCE NO. ——

"New Series"

An ordinance of the City of Los Angeles prohibiting the sale of intoxicating liquors therein, except as in said ordinance provided, and repealing all conflicting ordinances and conflicting parts of conflicting ordinances.

The City of Los Angeles does ordain as follows:

Section 1. It shall be unlawful for any person, firm, corporation or association to establish, keep, maintain, conduct or carry on within the City of Los Angeles any saloon, bar-room, tippling-house, drug-shop or other place where spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks are sold, kept for sale, offered for sale, furnished, divided, delivered or given away.

Sec. 2. It shall be unlawful for any person, firm, corporation, or association to sell, keep for sale, offer for sale, furnish, divide, deliver or give away within the City of Los Angeles any spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks.

Sec. 3. Nothing in this ordinance shall be construed to prohibit or interfere with the serving of liquors by any person to himself, his family, or his guests at his own private table in his own home and without consideration.

Sec. 4. The prohibitions of this ordinance shall not be deemed to apply to the serving of vinous or malt liquors in the main public dining-room of a bona-fide restaurant, or of a bona-fide hotel, or in the main dining-room of a bona-fide club, with or as a part of bona-fide meals. For the purposes of this ordinance in order to be included within either of the above terms, restaurant, hotel or club, such place must be fully equipped with cooking appliances for cooking and preparing warm meals and must be a place where bona-fide hot meals are served at least three times a day and six days in the week to the general public, and in the case of a bona-fide club, to members of such club and their guests. A bona-fide hot meal for the purposes of this ordinance is defined to be a meal consisting of such quantity and kind of food as is ordinarily served for a meal in hotels and restaurants, and the serving of such liquors must be merely an incident to such meal. Merely sandwiches, lunches or cheese, crackers, or other subterfuges shall not be deemed a bona-fide meal within the provisions of this section.

Sec. 5. The prohibitions of this ordinance shall not apply to the sale of intoxicating liquors for medicinal purposes by a registered pharmacist under the laws of the State of California, upon the written prescription of a practicing physician entitled to practice medicine under the laws of the State of California; provided such sale is made in the manner prescribed in Section 1 of Ordinance Number 2966, New Series of the City of Los Angeles. Nor shall the prohibitions of this ordinance apply to the carrying on the business of selling intoxicating liquors in quantities of not less than one-fifth of a gallon where such liquors are not drunk on the premises where sold.

Sec. 6. Nothing in this ordinance shall be construed as giving to any person, firm, corporation or association the right to sell, serve or give away or distribute any spirituous, vinous, malt or mixed liquors or any alcoholic drinks in the City of Los Angeles. Nor shall any of the provisions of this ordinance be construed so as to prevent the people of the City of Los Angeles, or the properly constituted legislative body of said city from prohibiting or otherwise regulating the business of selling, or the sale or distribution of spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks in said city not prohibited by this ordinance; provided, however, that such regulation shall in no wise conflict with any of the provisions of this ordinance.

Sec. 7. Every breach of this ordinance and every violation of any of its terms, and each day of the continuation of such breach or violation shall be deemed to be a separate offense.

Sec. 8. Any person who either as principal, employer, agent, clerk, servant or employee, or otherwise, violates any of the provisions of this ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars ($500.00) or by imprisonment in the city jail of said city for a period not exceeding six months, or by both such fine and imprisonment.

Sec. 9. All ordinances and parts of ordinances of the City of Los Angeles in conflict with this ordinance are hereby repealed.

Sec. 10. This ordinance shall take effect and be in force 90 days from and after its adoption.

Sec. 11. The city clerk is hereby directed to publish this ordinance in some daily newspaper printed and published in the City of Los Angeles in at least one publication prior to the taking effect of the said ordinance.

Sec. 12. That the ballots used at said election shall have printed thereon in addition to the other matters required by law the following propositions, to-wit:

"For the ordinance prohibiting the sale of intoxicating liquors in the City of Los Angeles, except as in said ordinance provided."

"Against the ordinance prohibiting the sale of intoxicating liquors in the City of Los Angeles, except as in said ordinance provided."

Sec. 13. That for the holding of said election the said city is hereby districted and subdivided into municipal election precincts, each of which precincts is wholly within one of the nine wards of said city. That the following are the boundaries and balloting places of said municipal precincts, and the following persons are hereby appointed officers of election for such precincts respectively:

ORDINANCE NO. 11,025.

[New Series]

An Ordinance of the Mayor and Council of the City of Los Angeles ordering certain work to be done on Gates street.

The Mayor and Council of the City of Los Angeles do ordain as follows:

Section 1. That the Council of the City of Los Angeles deems it to be required by the public interest and convenience, and hereby orders that the following street work be done, to wit:

1st. That said

GATES STREET

in said city from the north curb line of Main street to the south curb line of Baldwin street, including all intersections of streets (excepting such portions of said street and intersections as are required by law to be kept in order or repair by any person or company having railroad tracks thereon, and also excepting such portions as have already been graded and graveled and accepted,) be graded and graveled to the official grade in accordance with the plans and profile on file in the office of the City Engineer and specifications for the construction of graveled streets in the City of Los Angeles on file in the office of the City Clerk of said city, said specifications being No. 18 (New Series) and adopted by Ordinance No. 8571 (New Series.)

2nd. That a cement curb be constructed along each line of the roadway of said Gates street, from the north curb line of Main street to the south curb line of Baldwin street (excepting along such portions of the line of said roadway upon which a cement or granite curb has already been constructed to the official line and grade,) in accordance with specifications for constructing cement curbs, on file in the office of the City Clerk, said specifications being No. 1 (New Series) and adopted by Ordinance No. 8572 (New Series.)

3rd. That a cement sidewalk six (6) feet in width be constructed along each side of said Gates street from the north curb line of Main street to the south curb line of Baldwin street (excepting such portions of said street between said points along which a cement or asphalt sidewalk six (6) feet in width at the official line and grade,) and sidewalk to be constructed in accordance with specifications for constructing cement sidewalks on file in the office of the City Clerk of said city, said specifications being No. 2 (New Series) and adopted by Ordinance No. 8571 (New Series.)

4th. That a cobble-paved gutter be constructed along each line of the roadway of Gates street from the south curb line of Darwin avenue to the north curb line of Baldwin street; also across Gates street along each side of Darwin avenue; Barbee street and the south side of Baldwin street; the center line of said gutters last mentioned to be the prolongation of Darwin avenue, Barbee street and Baldwin street, respectively (excepting along such portions of the line of said roadway along which a cement or granite gutter has already been constructed to the official line and grade,) in accordance with specifications for the construction of cobble-paved gutters on file in the office of the City Clerk, said specifications being No. 7 (New Series,) and adopted by Ordinance No. 8572 (New Series.)

Sec. 2. The Council of said city finds upon estimate of the City Engineer, that the total cost of said improvement will be greater than fifty cents per front foot along each line of said street, including the cost of intersections, and it is determined, in pursuance of an Act of the Legislature of the State of California, approved February 27th, 1889, as amended by an Act of the Legislature amending said last-named act, which amending act became a law March 2nd, 1889, that bonds shall be issued to represent the cost of said improvement, said bonds shall be serial, extending over a period of ten years, an even proportion of the principal sum of which shall be payable annually, on the second day of January of each year, after their date until the whole are paid, and to bear interest at the rate of seven (7) per cent. per annum, payable semi-annually on the second days of January and July of every year.

Sec. 3. The City Clerk is hereby directed to publish a notice of said work, inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file for two days in the Los Angeles Daily Times, a daily newspaper published and circulated in said city, hereby designated for that purpose. Said notice shall require a certified check or a bond, either, as prescribed by law, and for an amount not less than 10 per cent. of the aggregate of the proposal. He is also directed to post said notice with specifications conspicuously for five days on or near the Council chamber door.

Sec. 4. The City Clerk shall certify to the passage of this Ordinance, and shall cause the same to be published for two days in the Los Angeles Daily Times, and thereupon and thereafter it shall take effect and be in force.

I hereby certify that the foregoing Ordinance was adopted by the Council of the City of Los Angeles at its meeting of May 8, 1905, by the following vote:

Ayes—Messrs. Blanchard, Ford, Hammon, Healy, Hiller, Houghton, Smith and Summerland (8.)

Noes—None.

Sec. 2. The Council of said city hereby finds upon estimate of the City Engineer, that the total cost of said improvement will be greater than fifty cents per front foot along each line of said street, including the cost of intersections, and it is hereby determined, in pursuance of an Act of the Legislature of the State of California, approved February 27, 1889, as amended by an Act of the Legislature amending said last-named act, which amending act became a law March 2, 1889, that bonds shall be issued to represent the cost of said improvement, said bonds shall be serial, extending over a period of ten years, an even proportion of the principal sum of which shall be payable annually, on the second day of January of each year, after their date until the whole are paid, and to bear interest at the rate of seven (7) per cent. per annum, payable semi-annually on the second days of January and July of every year.

Sec. 3. The City Clerk is hereby directed to publish a notice of said work, inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file for two days in the Los Angeles Daily Times, a daily newspaper published and circulated in said city, hereby designated for that purpose. Said notice shall require a certified check or a bond, either, as prescribed by law, and for an amount not less than 10 per cent. of the aggregate of the proposal. He is also directed to post said notice with specifications conspicuously for five days on or near the Council chamber door.

Sec. 4. The City Clerk shall certify to the passage of this Ordinance, and shall cause the same to be published for two days in the Los Angeles Daily Times, and thereupon and thereafter it shall take effect and be in force.

I hereby certify that the foregoing Ordinance was adopted by the Council of the City of Los Angeles at its meeting of May 8, 1905, by the following vote:

Ayes—Messrs. Blanchard, Ford, Hammon, Healy, Hiller, Houghton, Smith and Summerland (8.)

Noes—None.

An Ordinance Prohibiting the Sale of Intoxicating Liquors Within the City of Los Angeles, Except as in Said Ordinance Provided, to be Submitted to the Qualified Electors at a Special Municipal Election to be Held Friday, June 2nd, 1905.

Notice is hereby given that a proposed Ordinance has been submitted to the City Council of the City of Los Angeles by petition of registered electors of said city equal in number to more than fifteen per cent. of the entire vote cast for all candidates for Mayor at the last general municipal election at which a Mayor was elected; and that, under the provisions of Section 196a of the City Charter, said Ordinance will be submitted to a vote of the people of said city at a special municipal election, to be held June 2nd, 1905. Said Ordinance is as follows:

ORDINANCE NO. ——

[New Series.]

An Ordinance of the City of Los Angeles prohibiting the sale of intoxicating liquors therein, except as in said Ordinance provided, and repealing all conflicting Ordinances and conflicting parts of conflicting Ordinances.

The City of Los Angeles does ordain as follows:

Section 1. It shall be unlawful for any person, firm, corporation or association to establish, keep, maintain, conduct or carry on within the City of Los Angeles any saloon, bar, bar-room, tippling-house, dramshop or other place where spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks are sold or offered for sale, offered for sale, furnished, divided, delivered or given away.

Sec. 2. It shall be unlawful for any person, firm, corporation, or association, to sell, keep for sale, offer for sale, furnish, divide, deliver or give away within the City of Los Angeles any spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks.

Sec. 3. Nothing in this Ordinance shall be construed to prohibit or interfere with the serving of liquors by any person to himself, his family, or his guests at his own private table in his own home and without consideration.

Sec. 4. The prohibitions of this Ordinance shall not be deemed to apply to the serving of vinous or malt liquors in the main public dining-room of a bona fide restaurant, or of a bona fide hotel, or in the main dining-room of a bona fide club, with or as a part of bona fide meals. For the purposes of this Ordinance in order to be included within either of the above terms, restaurant, hotel or club, such place must be fully equipped with modern appliances for cooking and preparing warm meals, and must be a place where bona fide hot meals are served at least three times a day and six days in the week to the general public, and to the exclusion of a bona fide club, to the members of such club and their guests. A bona fide meal for the purposes of this Ordinance is defined to be a meal consisting of such quantity and kind of food as is ordinarily served for a meal in hotels and restaurants, and the use of liquors therewith must be merely an incident to such meal. Merely sandwiches or lunches, or cheese, or crackers, or other subterfuges shall not be considered a meal within the provisions of this section.

Sec. 5. The prohibitions of this Ordinance shall not apply to the sale of intoxicating liquors for medicinal purposes by any registered pharmacist under the laws of the State of California upon the written prescription of a practicing physician entitled to practice medicine under the laws of the State of California; provided such sale is made in the manner prescribed in Section 1 of Ordinance No. 10,583 (New Series,) adopted by the City of Los Angeles. Nor shall the prohibitions of this Ordinance apply to the carrying on the business of selling intoxicating liquors in quantities of not less than one-fifth of a gallon to be sold, such liquors are not drank on the premises where sold.

Sec. 6. Nothing in this Ordinance shall be construed as giving to any person, firm, corporation or association the right to sell, keep or give away or distribute any spirituous, vinous, malt or mixed liquors or any alcoholic drinks in the City of Los Angeles. Nor shall any of the provisions of this Ordinance be construed as to prevent the proper City, County, State or other duly-constituted legislative body of said city from prohibiting or otherwise regulating the business of selling, or the sale or distribution of spirituous, vinous, malt or mixed liquors, or any alcoholic or intoxicating drinks in said city and by this Ordinance; provided, however, that such regulation shall in no wise conflict with any of the provisions of this Ordinance.

Sec. 7. Every breach of this Ordinance and every violation of any of its terms, and each day of the continuation of such breach or violations shall be deemed to be a separate offense.

Sec. 8. Any person who, either as principal, employer, agent, clerk, servant or employee, or otherwise, violates any of the provisions of this Ordinance shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine of not more than Five Hundred Dollars ($500.00) or by imprisonment in the City Jail of said city for a period not exceeding six months, or by both such fine and imprisonment.

Sec. 9. All Ordinances and parts of Ordinances of the City of Los Angeles in conflict with this Ordinance are hereby repealed.

Sec. 10. This Ordinance shall take effect and be in force 30 days from and after its adoption.

Sec. 11. The City Clerk is hereby directed to publish this Ordinance in some daily newspaper printed and published in the City of Los Angeles in at least one publication prior to the taking effect of the said Ordinance.

By order of the Council of the City of Los Angeles.

H. J. LELANDE,
City Clerk.

All of said work is to be done in accordance with the plans and profiles and cross-sections on file in the office of the City Engineer of the City of Los Angeles, and in accordance with specifications for street paving with hydraulic cement and broken stone concrete base and asphalt wearing surface, on file in the office of the City Clerk of the City of Los Angeles; said specifications being No. 10 (New Series,) adopted by Ordinance No. 8572 (New Series.)

2nd. That a cement curb be constructed along each line of the roadway of said Sixth street, from the west curb line of Figueroa street to the produced west line of Fremont avenue, (excepting such portions of said street between said points along which a cement or asphalt sidewalk five (5) feet in width has been constructed to the official line and grade,) said sidewalk to be constructed in accordance with specifications for constructing cement sidewalks on file in the office of the City Clerk of said city, said specifications being No. 2 (New Series,) and adopted by Ordinance No. 8572 (New Series.)

Sec. 2. The City Clerk is hereby directed to publish a notice of said work, inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file for two days, in the Los Angeles Daily Times, a daily newspaper published and circulated in said city, hereby designated for that purpose. Said notice shall require a certified check or a bond, either, as prescribed by law, and for an amount not less than 10 per cent. of the aggregate of the proposal. He is also directed to post said notice with specifications conspicuously for five days on or near the Council chamber door.

Sec. 3. The City Clerk shall certify to the passage of this Ordinance, and shall cause the same to be published for two days in the Los Angeles Daily Times, and thereupon and thereafter it shall take effect and be in force.

I hereby certify that the foregoing Ordinance was adopted by the Council of the City of Los Angeles at its meeting of May 8, 1905, by the following vote:

Ayes—Messrs. Blanchard, Ford, Hammon, Healy, Hiller, Houghton, Smith and Summerland (8.)

Noes—None.

Notice is hereby given that the Board of Education of the City of Los Angeles will receive sealed proposals for the removal of the Sixth Street school building from its present location on Sixth street, between Maple avenue and Los Angeles street, to the new location on Fourteenth street, between Ivy and Hawthorne streets, in Los Angeles City, said all work to be done in accordance with the specifications herein made; to begin as soon as July 3rd, and to be completed and turned over to the Board of Education by September 5th, 1905. Bids must be sealed and addressed to the Secretary of the Board, and filed in his office, 415 Chamber of Commerce, by Saturday, May 27th, 1905, at 11 o'clock a.m., at which time they will be opened in public by the Secretary or Building Committee. All bids must be accompanied by a certified check for $500, payable to the order of the Board of Education, as a guarantee that the party bidding will, if his bid is accepted, execute to the said board the required contract in accordance with his bid, and will give a bond with sufficient sureties to fulfill such contract in such an amount as may be fixed by the board. The board reserves the right to reject any and all bids.

SPECIFICATIONS.

There is one large, two-story, fourteen-room school building, 81x174 feet; one one-story building, 28x46 feet; one one-story building, 18x42; one one-story toilet building, 29 feet 6 inches by 30 feet 6 inches, with cement floor.

It is the intention of the Board of Education to have these buildings moved and placed on the new location; and before acceptance the several buildings must be in as good condition as they were before moving.

Bidders are expected to visit the school sites and take their own measurements, and find out the exact conditions.

The same kind of excavated basement will be put in the new site as there is on the present site.

The contractor must furnish all labor, materials, power, tools, utensils and apparatus that my be required in the moving and repairing of said buildings, and shall procure all necessary permits for the cutting and repairing of wires and the use of the streets; and in all cases he must be guided by the requirements of the City Ordinances.

The contractor shall be responsible for any damage that may occur to the buildings or to any person or persons in or about the buildings or adjoining streets, occurring during the progress of the work under this contract, caused by any act of the contractor or his employees, and shall be responsible for each and every violation of public ordinances by obstructing streets, sidewalks, etc., and shall hold the Board of Education exempt from any damage or expense arising therefrom.

The contractor shall remove all obstructions and do all the excavating for the new foundation, and use the excavated material to grade up around the building, the grade lines to be given by the Foreman of School Buildings.

All rubbish and surplus dirt to be removed from the premises, cement floor in basement and toilet to be put in according to specifications for city sidewalks.

All work will be done under the supervision of the Building Committee of the Board of Education, the Superintendent of Schools and the Foreman of School Buildings.

The Building Committee shall have the power to cause the work to be forwarded when delayed or stopped. They may give notice to the contractor or his representative on the job to proceed with the work within twenty-four hours. And in case of failure to comply with said notice, the Foreman may immediately enter upon the premises and cause any part of the work to proceed under his own supervision, and charge all expenses to the contractor, and deduct the same from any balance due on the contract.

Trenches for new foundation to be excavated 18 inches below top of ground, for basement walls, 12 inches below top of cement floors and 6 inches wider than buildings. Excavated part of basement to be 3 feet below bottom of joists. Exterior and interior walls to be 12 inches thick with 24-inch double footings, reducing to size of wall by 2-inch offsets. Piers and dwarf walls to have 16-inch double footings with 2-inch offsets, reducing to 8-inch wall. Put in concrete footings to all chimneys and furnace stacks, 12 inches projection all around. All chimneys and stacks above roof to be laid in cement mortar and to be plastered inside. All brick shall be hard, well-burnt brick, laid in good mortar. Contractor can use the brick that is now in the old foundations.

All plumbing in the buildings, including outside toilets, sinks, to be properly connected with sewer and to be put in good working order according to the plumbing ordinances. Contractor must put in 1¼-inch water service and 50 feet of 1¼-inch galvanized pipe from curb, then reduce to 1-inch pipe to connections. Put in the same number of faucets in yard as there is at old site.

All furnaces to be carefully moved and reset in good condition at new location.

Any loose or cracked plaster must be removed and the wall plastered to correspond with the other plaster.

The work of moving the buildings to commence July 3rd and to be put on the new location and all repairs finished and left broom clean by September 5th, 1905, when will give the Board of Education about two weeks to fit up the buildings for the opening of schools September 25th.

Contractors must furnish a good bond for the faithful performance of the work.

Los Angeles, Cal., May 15th, 1905.

EVENTS IN LOCAL SOCIETY.

MRS. FRED LAMBOURNE.

MRS. FRED LAMBOURNE, who was recently married in San Francisco, were guests of honor at a reception given by Mrs. Jewett of No. 2672 Figueroa street. The home was filled with the perfume of many spring flowers, American Beauty roses to advantage in the drawing-room, and the gold of brown-eyed Susans in the library. Stewart of Los Angeles. Harry Patty of Redlands presided at the piano.

After the ceremony the whole company repaired to the home of Mr. and Mrs. W. H. Kelso, where the newly wedded couple received congratulations from many friends. The lawn was enclosed with a hedge of wild mustard, and by the light of many Japanese lanterns a collation was served. Decorations of sweet peas were massed on the tables.

The bride's gown was of white silk crepe, trimmed with Duchess point lace. She wore a white tulle veil and carried a bouquet of Bride roses. The maid of honor was gowned in flowered pink and white silk organdie and the bridesmaids were in pure white, carrying bouquets of white carnations.

Both bride and groom are graduates of the class of 1901 of Pomona College. Since graduating at Pomona, Mr. McFadden completed the course at Harvard Law School and is now practicing law in Santa Ana, where the newly married couple will make their home after a wedding journey. Their destination was not made known to their friends.

Sweet Pea Luncheon.

Miss Phila Johnson entertained yesterday with a luncheon at the Woman's Club House in honor of Miss Bird Burck, who will marry Chester Loomis of Detroit, Mich., early in June. Following the luncheon, bearts were played. The dining-room was beautifully arranged for the affair, the entire room being canopied with asparagus ferns of tender green, and in the long sprays were chiffon ribbons of all the pastel shades matching the colors on the different tables. Falling in a shower over the central table were these same rainbow-hued ribbons, among which a basket of feathery ferns was suspended. From the chandelier to each of the six tables surrounding the central one, pastel ribbons were festooned, ending in fluffy bows of tulle. The central table was a mass of ferns and green chiffon ribbons and each of the other tables contained a different color scheme. One table bore in its center a heart of white sweet peas, another a yellow star of the same fragrant blooms, yet another was decked with a rustic basket filled with pink sweet peas and tied with tulle. A lavender basket adorned another table. Pink and white blossoms filled one basket, while the other contained green sweet peas tied with tulle. The place cards, which were the brush work of Miss Waite, who decorated the rooms, were of sweet peas to match each table. The fancy almond cases were also adorned with sweet peas.

Guests for whom covers were laid were: Mmes. Millbank Johnson, Robert Marsh, John B. Miller of Pasadena, L. M. Selby, Edgar Smith and the Misses Huston Bishop, Gwendolen Laughlin, Alice Gwynne, Cecil and Clara Badgeley, Gertrude King, Bess Hinton, Germaine Fusenot, Olive and Alice Harpham, Lucille Walton, Winifred Llewellya, Marie Gavagan, Edith Campbell, Mary and Lucy Clark, Florence Avery, Nan Vickers, Grace Rowley, Edith Maurice, Helen North, Florence Field, Mabel Bowler, Cris McLemore, Emma Bates, Ella Daughaday of Chicago, Florence Clute and Ray and Virginia Johnson.

Miss Phila Johnson wore a handsome imported gown of white hand-embroidered chiffon and her sister was attired in pale blue taffeta embroidered in white. Miss Virginia was in pink chiffon.

Brilliant Garden Fete.

Last evening at the beautiful residence of Mr. and Mrs. W. F. McCann of No. 1123 Dewey avenue, Pico Heights, a garden fete was given, more than 200 guests thronging the grounds, which were lit with shining Japanese lanterns. Over the lawn were scattered small tables beneath huge Jap umbrellas and a large number of pretty girls in dainty frocks served refreshments there. Over the trees and roses the lanterns were hung and made a veritable fairyland of the pretty home. Within the house was a bower of rare flowers. In the parlors pink and white roses and sweet peas mingled and asparagus fern twined over the lace curtains. In the music room and dining-room pink carnations and ferns decked the clinker-brick fire-place and long window boxes. Here a musical programme was rendered, Mrs. J. M. Jones, harpist, accompanied by Miss Hazel Wilson, giving a number of selections. Then there was a quartette composed of Mrs. E. K. Wuerker, soprano; Mrs. M. Le Sage, contralto; Winfield Scott, tenor, and W. Bayard Willis. T. Feeney delighted the guests with a number of humorous readings and Father Clifford sang a number of selections. Little Miss Hazel Wilson, the talented child-pianist of Pico Heights, was a source of delight, contributing a number of piano solos. Mrs. McCann was assisted in receiving the guests and entertaining them by Miss Catherine Deleval, Miss Alice Stevens, Mrs. Le Sage and Mrs. Wuerker. Music was discoursed in the garden through the evening and ladies of the parish of the Church of St. Thomas the Apostle are congratulating themselves upon the increase in funds gained by this affair for the beautifying of the church grounds.

Visits Mrs. Bussenius.

Mrs. R. G. Bussenius of East Avenue Forty-one has as her guest Mrs. Ella E. Caminetti, the grand president of the Daughters of the Golden West. A few days ago Mrs. Bussenius, who is the grand marshall of Esperanza Chapter of this city, went to Ventura to meet Mrs. Caminetti, and together they made the trip to Los Angeles, where Mrs. Caminetti comes on her official visit to the two lodges. On Wednesday evening a meeting was held by the two parlors, La Esperanza and Los Angeles, at No. 207½ West Second street, in honor of their State chief, and business was transacted. Mrs. Caminetti being presented with handsome silver berry spoons by each parlor. The rituals were exemplified and much valuable advice given by the visitor. Last evening a theater party was given at Belasco's in honor of Mrs. Caminetti, the party occupying a number of boxes and after the performance supper was served at the Angelus. The ladies intend entertaining Mrs. Caminetti with a trip to San Gabriel Mission and other points of interest before she leaves.

Luncheon for Miss Sands.

Miss Sands and Miss Edith Sands of New York were the guests yesterday at a luncheon given by Mrs. E. G. Howard, of Santee street, at the Los Angeles Country Club. Plates were laid for the Misses Sands and Mmes. Lewis Clark Carlisle, Frederick Fisher, P. Gengembre Hubert, Stedman, Chester C. Ashley, William Niles, A. L. Danskin, Edward Winslow, and Miss Louise Nixon Hill.

Dinner for Guests.

Mrs. George A. Fitch entertained at dinner on Sunday evening in honor of her guests Mrs. E. de Goncer of El Paso, and Mrs. E. C. Houghton of Corralitos, Mexico. Covers were laid for six and the table was trimmed with roses and delicate ferns. During their visit here these ladies have been the objects of much pleasant social attention.

COFFEE AN ANTISEPTIC

Tea and coffee taken with milk and sugar are enemies to the meal; they dilute the materials in the stomach, and sugar is prone to fermentation. A cup of black coffee after meals acts mechanically, preventing unnatural fermentation, allowing digestion to proceed. Strong coffee is an antiseptic, weak coffee is a ferment, causing "sour stomach" and frequently upsets the digestion of the entire meal.—[By Mrs. Rorer in Ladies' Home Journal.

Atterbury System

ATTERBURY CLOTHES are not designed for those men who are indifferent in their dress. They are intended for gentlemen who have due regard for the distinctiveness borne only by clothes that are hand tailored throughout. By our process we cannot make cheap clothing. We are nothing more or less than a tailoring shop on an elaborate scale, and so far as quantity is concerned we do not pretend to compete with those establishments which turn out at the rate of many tons per day the machine-made clothing which stocks the average retail clothing store. When the question of quality is considered—we stand absolutely alone. The ATTERBURY SYSTEM produces the only ready-to-wear clothing that is hand tailored throughout, and it is the only system therefore that can and does produce a gentleman's wardrobe at a popular price.

Bidding on the Los Angeles Stock Exchange yesterday was keen and widely distributed, but transactions were confined to Associated Oil, a block of Reed Crude and a Home Telephone bond. It seemed impossible to get any of the other securities at the prices offered.

Associated Oil stock went to a lower level, closing at 25½@25¾, but the wide gap created by the movement as a healthy reaction rather than as a recession to a level of value. Fullerton Consolidated gained 3½ points; closing strong, without offerings. But Fullerton 1905, and Globe advanced a point. Reed Crude gained 50; Union made another gain, but United Petroleum lost ½.

Bisbee West C., in the mining list, declined 1½ points, and Butte Lode went off, closing at 15@25.

American National Bank made another decline, of other bank securities remaining stationary.

Associated Oil bonds lost ½ point, closing at 98@99. Corona Power and Water declined 2 points, and Home Telephone lost ½. Union Transportations also went to a lower level, losing at 65.

Home Telephone stock declined fractionally, but Home Trust remained stationary.

The sales were as follows: Three thousand Associated Oil, 25½; 1250 Reed Crude, 19¾; 1 Home Telephone bond, 94¾.

The Los Angeles Western Mining Stock Exchange reported sales as follows: One hundred Bingham Consolidated, 30.25; 300 Consolidated Mercur, 55 to 58; 11,500 Carisa, 13¼ to 15½; 25 Daly West, 14 to 14½; 200 Mammoth, 1.35; 15,000 Silvershield, 25 to 31; 8000 Tetro, 13½ to 20; 5 United States, 30.00; 3000 Yellow Jacket, 25 to 25½; 1500 Belmont, 1.33; one Golden Anchor, 80; 50 to 92; 2500 Great Western, 4½; 100 Jim Butler, 25½; 500 Jim Butler Extension, 23; 2500 McNamara, 14; 2500 Montana, 2.00; 200 Tonopah Extension, 5.25 to 5.60; 15 Tonopah Nevada, 14.50; 24,500 Black Butte, 15½ to 16; 1000 Diamond Field, 55; 2500 Dixie, 30½; 500 Goldfield Mining, 60½ to 61½; 200 Jumbo, 21; 6500 Red Top, 25 to 45½; 2500 Sandstorm, 52; 6000 Silver Pick, 14 to 14½; 10,000 Nevada Southern, 9½ to 10½; 1000 Bullfrog Mining, 1.01½; 6500 Eclipse, 28 to 29½; 2500 Gold Bar, 31½ to 34; 2000 Lige Harris, 4½; 58,500 Original Bullfrog, 31½ to 34½.

The Los Angeles Miners' Stock Exchange reported sales as follows: Six thousand Goldfield Bullfrog, 12½ to 17½; 1000 Goldfield Herald, 2½; 1500 Blue Ridge, 11½; 4000 Arizona Copper Hill, 6; 3000 Esperanza, 2; 1000 Big Six, 1; 500 Sandstorm, 47; 500 Jim Butler, 25½; 1000 New Mexico, 7; 500 Midway, 1.35; 1000 Montana, 1.90; 1000 MacNamara, 13 to 45; 1000 Golden Anchor, 90 to 91; 100 Bullfrog National Bank, 25 to 26; 1000 Silver Pick, 15½; 2000 Lige Harris, 4; 1000 Black Butte, 15 to 29½; 1000 Kendall, 22; 4000 Indiana, 2½ to 3; 1000 Cash Boy, 22; 1000 Mayne, 14; 500 West End, 75; 1000 Red Top, 41; 1000 Gold Dollar, 15; 1000 Sandstorm, 50; 1000 Gold Dust, 9; 2000 Home, 9; 1000 Kawich of Nevada, 26; 500 North Star, 67.

THE MONEY MARKET. Money is abundant and in active demand, with no change in rates. Time money, 60 to 90 days, 6 per cent.; from 4 to 6 months, 6 per cent., as to security. Commercial paper, 60 to 90 days, indorsed bills, 6 per cent.; from 4 to 6 months, single names, 7 per cent.

COMMERCIAL.

NEW BUTTER LAW. The new butter law providing for an honest pound goes into effect tomorrow.

LOCAL PRODUCE MARKET.

Receipts of cherries were on the light order yesterday and the market hardened on fancy stocks, with a tendency to go higher. Black Tartarians jobbed at 1.00 to 1.25 bulk, 90 to 95 in crates; 75 cents; bulk, 4 to 7 cents. The arrivals of strawberries were anything but heavy, and the market tended upward under a firm demand. The receipts were 200 boxes of Mondas, and 600 trays of Tropicos, both jobbing at the same figures, 7 to 8 cents. Raspberries and blackberries were steady under a moderate demand, and scoberries that came in hand moved off at 1.75 in 20-lb. box lots; the English variety selling at 15 cents a pound. A shipment of cherry plums from Visalia went off quickly at 1.75 in 10-lb. box lots.

A shipment of bananas from Honolulu, reported to be the first received in this market from there, came to hand, and jobbed at 2¼ to 4 cents.

THE CITY IN BRIEF.

NEWS AND BUSINESS.

Federal Grand Jury.

The United States grand jury will meet again this morning.

Ballot on Liquor Question.

A secret ballot was polled last evening by the Vernon Avenue and South Side Improvement Association on the liquor question. The result was: "Wet," 16; "dry," 9.

Veterans and Memorial Day.

The California Society, Army of the Philippines, will meet tonight at No. 434½ South Spring street. Final arrangements will be made to observe Memorial Day and to attend Memorial services at Temple Auditorium.

Pine Tree Staters.

The Pine Tree State Association of Los Angeles will hold its annual picnic Saturday at Verdugo Park. A train will leave Salt Lake depot on First street, at 9 o'clock. A general invitation has been extended to all Maine people.

Grocers Sue.

The Western Grocer Company of Kansas City, Mo., has filed suit in the United States Circuit Court for the recovery of $2215 damages from the Fresno Cooperative Packing Association, Fresno, alleging failure to carry out agreements to ship several thousand cases of canned goods to the

Councilman Ford Ill.

Councilman Fred Ford of the First Ward has been ordered to Murietta Springs by his physician, Dr. S. J. Quint. Mr. Ford was severely injured by falling from a car two months ago, when he sustained fractures of two ribs. Yesterday he suffered a hemorrhage and his condition is considered serious.

Drug Clerks Organize.

A meeting of drug clerks was held last night at Emerson Hall, No. 434 South Hill street, to take steps toward forming a drug clerks' association. The organization will be completed at the next meeting. The object is to develop the members along scientific lines, and to be of mutual aid to one another. It is said the new society has no affiliations with the union-labor organizations.

Expressman Drops Dead.

John Lewis, a pioneer expressman, 79 years old, dropped dead yesterday morning while tying the rope round a trunk at No. 562 South Hope street. He had carried the trunk downstairs, and the exertion had proved too much for his enfeebled heart. Lewis lived with his aged wife at No. 830 West Fourth street. He was well known, and possessed a jovial and lovable disposition.

Will Raise Two Flags.

This afternoon at 1:30 o'clock a double flag-raising will take place at the McKinley-avenue school, corner of McKinley and Vernon avenues. One thousand school children will participate, and flags will be raised for both the old and new buildings. Addresses will be given by Prof. J. A. Foshay and the principal of the school, Arthur Brown, and members of the Board of Education will be present. An orchestra, the schools, and Prof. Foshay will give musical selections.

Kneisel Quartette.

Tonight at Simpson Auditorium the famous Kneisel Quartette will be heard in a farewell programme; in fact the closing programme of their season, as they go direct from this city to their homes in Boston. The programme has been carefully selected and is considered one of the best in the Kneisel's repertoire. A new number has been added, Schubert's "Death and the Maiden," this by request. The Kneisels are one of the best musical organizations ever brought to this city.

Wants Cash from Price.

T. R. Shaw, who in 1902 became receiver of the First National Bank of Pembina, N. D., is plaintiff in a suit filed in the United States Circuit Court yesterday against Thomas L. Price of Porterville, Cal., for the recovery of $600 and interest at 7 per cent., alleged to be due by Price as his assessment on ten shares of stock of the bank. One assessment of $60 per share was paid by Price as a shareholder of the bank, but, it is alleged, he failed to pay a second assessment of $60 a share.

Will Bless New Statue.

The beautiful new statue of St. Anthony of Padua, at the Church of the Blessed Sacrament, Hollywood, will be solemnly blessed by Rev. Raphael Fuhr, O.F.M., rector of St. Joseph's Church, next Sunday afternoon at 4 o'clock. This statue was donated by Mrs. Wilcox, who has come from Chicago and built her home in Hollywood. Father Raphael will preach a sermon on "The Life of St. Anthony," and will receive the members of the parish into the Society of St. Anthony and the Third Order of St. Francis. A large number of priests will assist Rev. D. W. J. Murphy, the rector, in the vesper service.

Vetter to the Old World.

Louis Vetter, who for ten years has regularly reelected himself treasurer of the Sunset Club, will start tomorrow for New York, Havre, Jerusalem, and way stations. He will be accompanied by Dr. Bert Ellis and George G. McKay, so there will likely be something doing on the continent of Europe during the next three or four months. It is also probable that there will be something doing over here, as it is rumored that a committee of the Sunset Club has been appointed to expert the books of the organization and ascertain what has become of the enormous surplus income of the club that should have accumulated during the past ten years.

St. Vincent's Alumni.

The annual banquet of St. Vincent's College Alumni Association was held last evening at the Café Bristol, the banquet room of which was decorated in the college colors, white and gold. Bishop Conaty, Mgr. Harnett, Very Rev. Dr. Glass, C. M., and members of the faculty were guests, the three named responding in happy vein to calls for speeches. P. J. McGarry, president of the association, was toastmaster, and responses to toasts were made as follows: "The College Man in Professional Life," William S. White; "A Clerical Opinion," Rev. James A. Reardon; "Some Phases of Education in California," Isidore B. Dockweiler.

Bankruptcy Petitions.

Zenus C. Angevine of the Angevine Woolen Company has filed a voluntary petition of bankruptcy in the United States District Court, praying that he and his partnership with H. G. Angevine of San José, who refuses to join in the petition, be adjudged bankrupt. H. G. Angevine made a general assignment on April 4 to Myer L. Kahn of San Francisco. The liabilities of the firm are $11,300.34, with assets of $24,964.50. Other petitions were filed by John F. Byrne, a Redlands contractor, liabilities, $13,788.93, assets, $2000.00; John Clark Keyes, Corona horticulturist, liabilities $1732, assets $1750, and Mary Esther Keyes, his wife, same amounts.

Street Names Indorsed.

The South Side Improvement Association met last night at No. 2339 South Main street in conjunction with a committee from the Vernon Improvement Association and it was decided unanimously that the two bodies would with a few changes, recommend the map of the City Engineer changing the names of the streets south of Jefferson. In furtherance of this a joint committee of the two organizations will appear before the Board of Public Works today to urge the changes. It was also decided to lend the City Engineer all the moral support to prevent any jogs in the city streets in additions or maps made hereafter. About forty members of the two associations were present.

plaintiff.

Funds for New Church.

For the purpose of increasing the fund which is to be devoted to the erection of a new house of worship, the Ladies' Aid Society of the Boyle Heights Baptist Church will give a musical and literary entertainment at Blanchard Hall next Friday evening. Some of the best-known musicians in the city have contributed their services.

HOLLYWOOD.

FAVOR SPECIAL SCHOOL TAX.

HOLLYWOOD, May 18.—A meeting of the electors of the Hollywood City School District was held tonight at the Fremont school, pursuant to a call of the trustees. E. C. Hampton was elected chairman and J. O. Churchill, secretary. Mr. Hampton gave a detailed statement of the financial needs of the district, due to the increase in the school population, and recommended that an election be called to vote $3000 bonds to pay teachers until Jan. 1, 1906, and $7000 to buy furniture, improve the grounds at each building and to purchase 100 feet more ground at the Fremont school. The recommendations were unanimously adopted.

The Union High School will go to Playa del Rey Friday afternoon for its annual picnic. Special cars will leave Highland avenue at 12:45. The grammar schools will picnic at Santa Monica Saturday.

A workman in the employ of A. F. Gilmore, fell dead while driving a team yesterday afternoon.

T. J. Hallsbach left today for Greenwood, Ind., after several months' visit here with his son.

E. W. Twist left yesterday for an extended trip East and North.

PERSONAL.

J. Ross Clark has so far recovered from his recent illness that he is able to be up and about his home. He hopes to return to business early next week.

SENATOR LODGE IN ROME.

ROME, May 18.—King Victor Emmanuel today received in private and most cordial audience, Senator Henry Cabot Lodge of Massachusetts, showing great interest in and knowledge of American affairs. The conversation, which was in English, lasted half an hour.

BREVITIES.

The volume of "Liners" in the Sunday Times has become so great that it is found necessary to ask patrons to get their Sunday advertisements in earlier; especially Sunday real estate anouncements, which in order to be printed must be in the office not later than 10 o'clock Saturday nights. The printing of all real estate matter, including advertisements, in a part by itself on Sundays involves somewhat slower press work, making it essential, in order to get the paper out on time, to stop receiving real estate ads at 10 o'clock Saturday nights. Dealers will confer a favor on The Times office if they will turn in Sunday copy on Fridays, when possible; or at least a part of it, and the balance early on Saturdays. Sunday "Want" ads will still be received by phone and over the counter until 11 o'clock Saturday nights.

BLOOD TINGLE, TEAR FLOW.

Inner's Baton Brings Back the Days of Battle.

Thrilling Allegory is Given Here First Time.

Thirteen Hundred Persons Crowded Out.

Thirteen hundred persons were turned away, disappointed, unable to get even standing room, at Inner's "Military Night" in Temple Auditorium. Police had to stop the sale of tickets.

Such a roar went up that Director Inner was obliged to cease out during an intermission and announce that he will repeat the performance next Wednesday evening, having bought his freedom from a concert engagement at Riverside, for the purpose.

It may not avail him much because every one who went last night will want to go again Wednesday; the waiting problem may be just as bad as before.

What he got out of that band last night, the fine-looking lanky gentleman with the quicksilver rendition of the

MISS GRACE JEANETTE SMITH,
Los Angeles violinist. This afternoon she will play "Hungarian Fantasie" by Sarasate.

...former man with the thin sliver of a baton, sent the blood tingling through one's veins in march time.

The audience that gathered in the big old shack-like pavilion was not the kind that raves a whoop about the artistic delusion of musical temperament, but the old marches heard by many of them in other and warmer days, brought them to their feet with eyes that were welling with tears.

Out of a mere and this man with the baton brought pictures that glowed; pictures a blind man couldn't help seeing, and even feeling.

Before a cheering front at a dead run, dust-choked drivers lashing maddened gun horses, cannoneers clinging desperately to the limber and caisson boxes, the roar and rumble that goes with the most thrilling spectacle in the world—a battery taking its full gait.

Cavalry, tearing at the charge, with the flutter of guidons, the clank of sabre, scabbards and the thunder of horses' hoofs.

"Doughboys," vicious spits of flame and the thin, white clouds of powder smoke from half-hidden skirmish lines, the keen blare of the infantry bugles, the quick, sharp crackle of khaki-shirted men in khaki, with bayonets, bare arms, and thin, strong faces.

It was the first time this allegory has ever been given; it was composed by Mr. Inner for this great May Music Festival.

The start was a pastoral scene, with an parrit chorus of blacksmiths in southern agrcus, and an operatic scene suggestive of commencement of a nation in time of peace.

A note of discord is heard; the shot fired on Fort Sumter.

"Star Spangled Banner" is followed by the rippling quick notes of "Assembly."

Two or three companies of National Guardsmen in campaign uniform, with their clip cartridge belts and Krags, came marching through to the front.

Then follow the characteristic songs of the war, supposedly sung by the two armies as they lie in opposite camps.

"Just Before the Battle Mother," is dotted by the battle, with the shock of musketry and the discord of a fight.

The end of it "When Johnnie Comes Marching Home" was great business, the veterans of '61 trumping through one side, while down another moved the train of soldiers with their nervous bustle and their modern high-power guns—Kilers, but the same old swing in their step.

The following soloists took part: 21st Portolios, soprano; Mr. Fritz H. Hoffman, tenor; Mr. F. Archambault, baritone; Mr. Sebastian Kryl, cornet.

Those who assisted in the military pageant were:

Seventh Regiment, M. G. C., Co. A, Capt. Andrew J. Copp Jr., commanding; First Lieut. Orrin C. Hudson, Second Lieut. Bert T. Dunmitt; Gen. Asst. Wankowski, Major S. M. Baltzarat, Major Terrance Cole, Capt. Don G. Fisher, Capt. J. T. Mathews. Fife and Drum Corps, etc.

G. A. R. Posts commanded by Wallace Sloane, officer of the day: Bartlett-Logan Post, No. 4, Commander W. W. Derwardt; Stanton Post, No. 31, Commander H. C. White; Kenesaw Post, Commander Stevens.

WAGNER TONIGHT.

As the week of the May Festival draws to a close the wisdom of Director Inner is apparent. He has built his musical structure in such a way that each night is constantly better than the previous—from one height he steps with higher.

For tonight the heaviest programme of the week, a feast indeed for the lovers of Wagner, and cleverly entitled the "Wagnerfest Programme," introducing a great quartette of soloists, Mrs. Partridge, F. Hastman, F. Archambault and Cornelius Kryl, supported by the Los Angeles May Festival Chorus. The selections are taken from the "Meistersinger," "Lohengrin," "Parsifal" "Tannhauser," etc.

For tomorrow afternoon there will be a feast, 2000 children of the public schools all singing, under the direction of Miss Kathryn H. Stone, Schubert's "Serenade," "Ave Maria," "Robin Adair," "Tortland," and others full of interest to those who love the singing of children.

For the closing night of this great festival of music the grand opera and farewell programme has been reserved, introducing in the order from "overture" and other selections from the operatic soloists in the hand-kerchief solos, "Aprel Chorus" by a consonant brigade of musical blacksmiths and festival chorus.

RAWHIDER MAY GO TO PRISON.

Brother of Zobiema Gervais Charged With Felony.

Girl's Wounds Photographed for Prosecution.

"Humane" Officer Webb Still Wears His Star.

William Gervais, the twenty-two-year-old lean muscles, may, after all, be adequately punished for his monstrous brutality in having ravished his nine-year-old sister, Zobiema, for losing 15 cents change—beating her with innumerable blows until the tender flesh of her legs, thighs and back was covered with welts and bleeding gashes.

Seldom in Los Angeles has a case of child-cruelty aroused such intense and widespread indignation. The photograph of the little girl showing some of her piteous wounds, and the details of the brutish affair and the miserable part played in it by Officer John C. Webb of the Los Angeles Humane Society, as published in The Times, have made the name of Webb a synonym for cowardice and cruelty, and the name of Gervais for brutality.

As stated in The Times, "Humane Officer" Webb, instead of protecting the injured child, has taken part and nothing for condition in the Judge, actually took the stand in defense of the man he had arrested—William Gervais—and pleaded in his behalf "extenuating circumstances." The trivial extenuating circumstance was that Webb, a private citizen with a fine for his shoulder, had upon subsequently attempted to minimize the savageness as to the enormousness of the case. What motive prompted his conduct remains to be investigated.

The warranting of Gervais followed the filing of a complaint signed by Miss Helen Matheson, a former member and officer of the Humane Society. This complaint charges the brutal soldier with committing an "assault with a deadly weapon, with intent to do great bodily injury"—a penitentiary offense. It was drawn by Mal. J. of Deputy District Attorney, to whom Miss Matheson applied for help in her desire—shared by the whole public—to bring about a rectification of the miscarriage of justice in Police Court. Mal. Donnell drew the complaint promptly and with keen relish, as Miss Matheson expressed it, "It is one of the most abominable cases of brutality on most record," declared the Deputy District Attorney.

NIGHT IN JAIL.

A warrant having been issued by Township Justice Pierce, Gervais was arrested late Wednesday night at the home on East First street. Unable to furnish $500 bail, he spent the night in a cell. Yesterday he was arraigned before Justice Pierce, who set the hearing for next Thursday. Jesse Arrington (his lawyer) and Walter Parker (Justice Pierce's nephew) were bondsmen for Gervais, and he was released.

Yesterday afternoon Mal. Donnell took with him to the Children's Hospital a photographer, and caused four photographs of Zobiema Gervais to be made, showing her condition. These are to be used as exhibits in the District Attorney's office in the prosecution of the child's brother. After his visit Mal. Donnell made the following statement:

BANDAGES STUCK.

"The task of preparing Zobiema for the camera was a trying one. The child was, of course, unclad to bandages from her hips to her ankles. These bandages had to be removed before the photographer could begin his work. Though the limbs had been plentifully moistened with antiseptic fluid, they sometimes stuck to the epidermis, so that the removing of them was very painful. The child did not cry out, but the contortions of her face showed how she suffered. The photographs made by the ravishe have not healed over—for it must be remembered that the child received her beating on Friday, a Saturday night, and it was not until the following Monday evening when she was brought to the hospital by the Times that she received

JUSTICE AND CUPID WIN A FAIR BRIDE.

THAT capricious little youngster with the mighty moment, Cupid, has been busily engaged in the freakiest manner in the past few days, prior to the advent of the new marriage-license law. Justice Hiner A. Pierce, anxious of handsome, is himself to become a bridegroom, and the bridesmaid is Miss Stella May Allen, sometime a belle of Cleveland, O., matter, but for the past four years a resident of Los Angeles, where she has been of friends and admirers.

The wedding will take place within a few days, probably next week, and will be a private affair, only relatives and close personal friends being witnesses.

After the wedding Gen. and Mrs. Pierce will depart for a ten days' visit to Santa Cruz, the Big Trees and San Francisco. This is just a little hint, as it were, in the way of a wedding gift, for the real wedding journey is to be made next fall, when the couple will go to visit the bride's relations, and thence on to some of the larger eastern cities, returning in time to visit the Lewis & Clark Exposition.

Their home will be at No. 324 Francisco street, the present home of the bridegroom.

Miss Allen is an accomplished musician, both instrumentalist and vocalist, and is active in the work of Immanuel Presbyterian Church, especially in the Christian Endeavor Society. She is a member of a well-known Cleveland family.

The prospective bridegroom is probably as well known as any man in Los Angeles county. His long record

SHOW OF KISSING.

Whether ashamed by yesterday's published statement that no member of the Gervais family had come near the Children's Hospital to visit little Zobiema, or whether moved by humanity curiosity to inquire after one of their own blood, whose shocking abuse had brought the family into notoriety, the child's father and one of her sisters—Louis Gervaise and Nova, his daughter—called at the Castellar-street institution in the afternoon. The parents made a show of kissing the child, while attitude of seeming indifference was in line with the report of neighbors that he has taken the part of William, the hasty iron mother, as against Zobiema, the wounded child. As for Nova Gervaise, the coming bride, mystified by so-called affection, she made a show of briefly kissing her sick sister, then hurried away. Nova is the one who sent Zobiema to buy the ribbons, and, upon the child's report that she had lost the 15 cents change, promised her a whipping at the hands of William as soon as he should come home from work.

WEBB ON THE CARPET.

Will the Los Angeles Humane Society absolve Chief of Officer Webb misconduct in the Gervais case by taking away his star and dismissing him? is the question the public has been asking more or less openly. And the society itself (by the way, it must not be confounded with the Society for the Prevention of Cruelty to Animals, which is a totally different and distinct organization) is more or less stormily discussing this question, too.

An executive meeting was held yesterday afternoon behind closed doors at the society's offices in the Times building, the following officers and directors being present: Mrs. J. B. Millard, president; Mrs. J. A. Edwards, Mrs. Don E. Dickinson, Mrs. Fred Winsor, Mrs. J. Gardner, Mrs. W. J. Lamb, J. D. Bicknell, C. F. A. Seymour, Hartley Shaw and Hugh Harrison. The Gervais case was strenuously debated, and "Humane" Officer Webb was brought on the carpet. He stated "his side" of the case, and sought to shift to the shoulders of Police Judge Austin some of the blame for the Gervais affair. He would be willing to resign, he said, if the child in court and whether her testimony, but that Judge Austin had called the case too quick and given him no chance to bring Zobiema in.

FACTS NOT STATED.

Asked why he had taken the stand and pleaded "extenuating circumstance" in behalf of the iron monster, Webb replied that, in his opinion, the facts that William Gervais helped to support the family and that Zobiema had been an unruly child, were extenuating circumstances.

Now the truth is that Zobiema, Gervais, with the dried blood of gouges on her little limbs and the purple welts over her broken flesh was within easy distance of Webb when the case went to trial; for Mrs. F. A. Knox, her temporary guardian, had arranged with Webb to bring the child into the courtroom the minute she should be called. Webb was to call her, but avoided doing so. It is also true that after Webb had gotten Gervais off with a $10 fine by making light of the case to the court, he endeavored to suppress the newspaper item as to the postponement of the child's injuries and tried to prevent the exhibition of a photograph showing her wounds. These are facts not stated by him at yesterday's inquisition.

MILD RESOLUTION.

At the conclusion of the debate referred to, the directors of the Los Angeles Humane Society drafted and adopted the following cautious resolution, the contents of which were subsequently made known by a hatless young woman who stated herself to be the society's secretary:

Resolved, That the board of directors of the Los Angeles Humane Society, after investigation of the case of William Gervais, convicted in Police Court of cruelty to his child, practically the extent of the Humane Officer's part in the case, and that we will continue the investigation of the Humane Officer in the case, and that we will not take any action in the matter of the conduct of the Humane Officer in the case, and that we will not take any action in the matter of the conduct of the Humane Officer in the case, and that we will not take any action in the matter of the conduct

PUBLIC SERVICE—OFFICIAL DOINGS.

SUMMARY OF THE DAY.

The Finance Committee of the Council yesterday indorsed the recommendation of the fire board for the purchase of three engines, six chemical hose wagons, and 20,000 feet of hose for the department.

Members of the Council are preparing an official rejoinder to the charges of the Health Board about the failure to enforce collection of garbage.

Claude E. Hill was yesterday sent to jail for threatening the lives of his wife and mother-in-law. At the same moment his wife was filing her suit for divorce.

The new marriage license law is seemingly not without its terrors to those who contemplate matrimony. Yesterday only three licenses were issued. The daily average for a week before that was thirty.

Nat Dewey, a notorious colored prize fighter, was sent to the chain-gang by Justice Austin yesterday to serve a ninety-day sentence for vagrancy.

Blind-pig proprietors were sentenced to pay fines of $100 each yesterday.

FIRST AID FOR FIRE FIGHTERS.

COMMITTEE WOULD PURCHASE NEW EQUIPMENT.

Councilmen Approve Recommendation of Chief that Force Be Divided Into Battalions—Will Make Big Purchase of Fire Hose—Talk Back at Health Commissioners.

The Finance Committee yesterday afternoon approved the recommendations of the fire board for the purchase of new engines and apparatus for the fire department, also the division of the fire force into two battalions.

Three third size fire engines, six chemical hose wagons and 20,000 feet of fire hose are to be added to the department equipment after the first of the fiscal year.

There is a lack of harmony between the Councilmen and the Fire Commissioners over the purchase of this equipment, but all agree that it must be bought. In former administrations all bids for fire apparatus were referred to the Fire Commission for consideration and recommendation; the present Council refers the bids to the supply committee and the fire board is out of it.

The estimated cost of the equipment about to be purchased is $35,000. This sum will come out of the appropriation for the fire department for the next fiscal year. The fire board says that the apparatus must be secured in order to replace equipment that is now little better than scrap iron and burned rubber, and to equip two new engine houses.

The committee passed favorably on the fire board's recommendation for the creation of two positions of battalion chief at a salary of $150 a month. This is a preliminary step to the reorganization of the fire department into battalions and the division of the city into fire districts.

Each battalion chief will exert a supervision over his district, similar to that now exercised by the chief over the entire department. Quarters for the battalion chiefs will be secured in the center of each district. Each of the sub-chiefs will have a private horse and rig and will respond to all alarms in his district.

Chief Lips will have a general supervision of the entire department. This disposition of the fire forces is along lines adopted by the large cities of the east.

MAY TALK BACK.

COUNCILMEN WRATHY.

An indignant bunch of Councilmen gathered in the committee rooms at the City Hall yesterday morning and proceeded to "talk back" at the Health Board regarding the collection of garbage.

Wednesday night the Health Commissioners roasted the members of the Council to a turn because most of the garbage set out by householders is never taken up by the collectors, and because what little is collected finds its way to the dump and to the hog pens rather than to the furnace of the garbage crematory.

The city legislators declined to talk for publication for the reason that they are formulating an official rejoinder to the charges of the Health Commissioners. But if the rejoinder is as warm as the verbal drafts that were proposed yesterday it might form a pretty good substitute for Alexander's old incinerator.

The tenor of the objections taken by the Councilmen to the statements made by members of the Health Board is that the Council by ordinance has placed the collection of garbage directly under the supervision of the Health Board; that the Council can act only on recommendations from the Health Board, and that it has never failed to exact every penalty for non-collection and non-combustion recommended by the Health Commission.

The Councilmen say they have allowed the Health Board as many inspectors as have been asked for and that if the garbage is not collected and burned it is up to the Health Commissioners and not to the Council.

Inasmuch as the present contract has but three months to run, it is probable that it will expire before the Council and the Health Board get ready to enforce its provisions.

Want More Sprinklers.

Complaints are pouring into the City Hall from irate property owners on the fringe of the business district that something is wrong with the municipal street sprinkling. They allege that present conditions are worse than they were at the time when the sprinkling was done by contract.

Street Superintendent Hanley says that he is doing the best he can with the meager means at his command; that the number of improved streets have doubled within the last few years and that the fund for street sprinkling has not made a corresponding increase. He promises better service after the first of the fiscal year, which means July 1.

PROBABLY WILL STAY IN JAIL.

COWARDLY HUSBAND THREATENED TO KILL HIS WIFE.

Put Under Heavy Bond Which Will Hold Him While Divorce Proceedings Are Prosecuted Against Him. Erratic Attorney Causes Arrest of Former Partner on Six Charges.

Claude E. Hill has run the length of his tether for the time being, and is now in jail for six months failing to furnish a $1000 bond to keep the peace toward his wife and mother-in-law.

Hill has been skimming on the ragged edge of the law for years. About seven years ago he contrived to persuade a pretty girl named Lena Wooley to marry him, and since then he made things so uncomfortable for her that several times she ran away. The last time was about three months ago when she fled, taking her baby with her.

Not knowing where his wife had gone Hill kept the telephone wire to the home of his mother-in-law at Highland Park hot. He would ring up every day or so to tell Mrs. Cucullis that he was going to kill her and her daughter the first chance he got.

A week ago Mrs. Hill returned to her mother's home and the husband soon heard of it. He 'phoned to the house that he would "kill the whole outfit," but was warned that his father-in-law was ready for him and that he had better keep quiet. But his threats against his wife and child were so persistent and alarming that a complaint was sworn to before Justice Pierce and Hill was arrested. Yesterday he was brought to trial.

The young wife apparently stood in no fear of her husband for she stared at him straight in the eye as he conducted his own cross-examination.

"Were'nt you always treated as a lady by me?" he inquired, referring to the time they lived together.

"Treated like a lady!" she exclaimed, "I was choked and knocked down, and that was the style of treatment I received."

The mother-in-law was extremely nervous on the witness stand. She was so afraid of her unruly son-in-law that she could scarcely look at him. She told in detail of the outrageous behavior of Hill.

On the stand he merely denied all the charges made and then proceeded to assail the character of his wife, who yesterday began her proceeding in divorce. This action of Hill in going upon the stand merely to blacken his wife's character angered the court and he scored him for his brutal and cowardly actions throughout. He said that in Delaware they had a humanitarian plan of inflicting 100 lashes on the bare back of a man such as the defendant, and he then held him in the heavy bond stated and which Hill was unable to furnish.

LOST HER PRACTICE.

DOCTOR CLAIMS DAMAGES.

Dr. Mary E. Stark was in Judge Gibbs's court yesterday trying to show that she was fairly entitled to $20,300 as damages from William Gregory, for having suffered injuries through his negligence.

The plaintiff resides at No. 1945 Estrella avenue. On June 27, 1903, while riding on her bicycle near to her home, the defendant, Gregory, is alleged to have approached from the rear in an automobile and to have struck her. Mrs. Stark was thrown to the ground and seriously injured. Mrs. Stark claimed $15,000 as damages to her business, on the ground that she is incapacitated from practicing any more; $5000 as damages for the personal injuries, and $300 for physician's and nurse's care. The hearing will be continued today.

HEARD EN CAMERA.

M'CRACKEN LINEN EXPOSED.

The sensational but unpleasant divorce suit of Mrs. M. McCracken against W. C. McCracken went to trial yesterday before Judge Conrey behind closed doors, and will occupy the court again today. Recently Judge Conrey openly stated that he would not close the doors of his court merely because the charge happened to be adultery, and thereby aid in covering over the wrongdoing of any party to a suit. Only when nasty and unclean details had to be brought out would he consent to the closing of the doors.

The McCracken case is one preeminently falling underneath the ban. The wife charges her husband with having committed adultery. The husband retorts by charging his wife with adultery. These are only the surface allegations, and underneath are vile charges and counter-charges that will be exploited during the trial.

ON SIX CHARGES.

ERRATIC ATTORNEYS WARRANTS.

Attorney A. G. Hinckley is having more trouble in the wilds, but it is not known whether he is again held in a bandit's cave for ransom. That was the story he told when last he disappeared from view. Yesterday Sheriff hite received six warrants from Palo Verde for the arrest of one S. L. Morse.

Palo Verde is about sixty miles north of Yuma and there Hinckley has for same years been carrying on mining and irrigation plans. He and Morse were interested in these land deals, and held about 1200 acres through which the United States government plans to run an immense ditch. There was recently a dispute between the two partners, and the six warrants for the arrest of Morse were all sworn to by Hinckley. Each warrant was for a different offense. Morse is called upon to answer charges of embezzlement, larceny by bailee, making threats, assault with a deadly weapon, assault and battery, and malicious mischief.

The warrants were placed in the hands of Deputy Sheriff Bert Franklin and within an hour he found Morse on Broadway. He derided the action of Hinckley to prove his bunch of charges, and claims that the erratic attorney is merely attempting to secure control of the property at Palo Verde.

MARRIAGE AT EBB.

FEW LICENSE APPLICANTS.

Marriage was a failure yesterday at the Courthouse, and "Cupid" Watson had little to do but pray for a change of heart on the part of the community at large.

Only three marriage licenses were issued during the day. And for days previously the average had been about thirty. The new marriage law was in effect.

The three couples who obtained their licenses did not appear to think that the new law was so bad. Instead of one party to the marriage applying, both had to be in evidence, and so from the first jump-off, responsibility was shared and the recipients of the precious bits of paper did not show any distaste for the new order of things.

During the day two men ventured inside the office to ask "Cupid" if they couldn't get a license, but each one met with the same reply—that the law could neither be modified nor changed. Then they looked sheepish and strange to say, though each one came in separately, they both had the same excuse why an exception should be made in their case. They said that their fiancé lived in the country and that, being unaware of the new law, every preparation had been made for the marriage, and if they returned without a license the delay might be disastrous to them.

Just before 5 o'clock a dignified young fellow marched in and asked for a copy of the new marriage law. There wasn't one in sight. He then pompously inquired if it was impossible for him to learn the provisions of this new law. "Cupid" pointed to the book of marriages, and told him that in the new form prepared he would find all the essentials of the new law.

Glancing over the provisions, the wanted-to-be-a-Benedict-but-didn't know-how young man hummed a little as if he was dubious about the matter, and then said that he would call again. He had discovered that all he had to do was to come hand in hand with his fiancé, while both would take the required oath.

COURTHOUSE NOTES.

BREVITIES MISCELLANEOUS.

BOLSTER KNOCKED OUT. Henry Bolster is an ex-prize-fighter who, when he began to run to flesh, took to an easier mode of making his living than training to weight and figuring in the ring. He got into trouble by selling liquor without a license on the government reservation at the Soldier's Home. Yesterday Justice Young fined him $25 and sentenced him to serve thirty days in the county jail. Passing down the street in charge of the constable, Bolster wanted one last drink before being boxed up in jail for a month, but the liquor appeared to choke him. He put the glass down and began to bawl.

DEAN GOES UP. Ray Dean was yesterday ordered committed to the insane hospital at Patton by Judge York. Dean drove Tom Savage's horse to death, and after his arrest for that offense he showed unmistakable signs of insanity.

STRUCK WIFE. Rosine Saulque was granted a divorce by Judge Smith from G. Saulque, on the ground of extreme cruelty. They were married in 1877 and have three children the eldest 17. The husband became cruel and abusive and some months ago the wife began suit for divorce. The husband promised to reform and she withdrew her application. Then Saulque became worse than ever and perforce the wife had again to begin a proceeding in divorce. Repeatedly, it was testified, he struck his wife. The Saulques lived on a twenty-five-acre ranch on the Centinella.

IN COLLISON. The suit of O. J. Dalton against the Pacific Electric Railway Company to recover $10,000 as damages for personal injuries went to trial yesterday in Judge Monroe's court with the result that the jury awarded the plaintiff $1500 damages. On November 5 Dalton was a passenger on a car going to Long Beach, which was in a collision near Compton.

BATH ESTATE. The will of the late A. L. Bath, who died on April 21, was yesterday admitted to probate. The estate is valued at $100,000. The wife, Hannah G. Bath (since deceased) and Florence E. Dodge, of Santa Monica, are names as devisees. In the estate of Hannah G. Bath, who died April 27, letters of administration were granted to Mary Frances Gephard, No. 615 South Figueroa street, a sister. The estate consists of jewelry and personal effects valued at $400, and the $50,000 community interest in the husband's estate.

ATTEMPTED SUICIDE. Archie Jeffrey was yesterday ordered committed to the State hospital at Patton by Judge York. He arrived from San Francisco a week ago and has suicidal mania. About three years ago he cut his throat, and after being in this city a day or two jumped out of the window of the house where he was rooming. He said that he felt impelled to do those things and could not control himself.

NEW BOULEVARD. The Rampart Boulevard Company has incorporated with a capital stock of $210,000, of which $500 has been subscribed. The directors are: A. H. Beach, W. D. Dickinson, Clyde M. Welsh, R. M. Watson and S. T. Butler, all of Los Angeles.

THE OTHER SIDE. D. M. Baldwin, who represents the Foos Gas Engine Company, has replied to the allegations made in the complaint filed by John Cole, a Whittier brickmaker, in his suit against the Luitweiler Pumping Engine Company, in which he avers that an effort has been made to make him accept an engine of lower horse power than he ordered. Baldwin declares that Cole really wanted to buy a steam engine, but was bound by his contract. When he explained the matter, the company offered to defray the expenses of installing the engine he had ordered. Baldwin asserts that at no time did the question of horse power enter into the controversy, but Cole sought release from his contract. Baldwin claims the case is an attempt at legal hold-up.

ABOUT "THEM RECORDS."

San Franciscan Tells How Firm Gets Such Quick Action on Auto License Numbers.

J. W. Cushing, representing a San Francisco firm that is hustling for orders for automobile license hangers, says the reason his employers get the license numbers from ten days to two weeks in advance of the applicant therefor is that they employ a man to copy the names and numbers from the public records at the office of the Secretary of State.

"Any maker of auto numbers in Los Angeles," to quote literally from a communication signed by Mr. Cushing, "has the opportunity to see and copy them records as well as the northern firm mentioned, if they had (as is mentioned) the necessary enterprise, and was willing to incur the expense of hiring a man to copy and send in such numbers.

"It seems that the parties that are making such a kick at the Hon. Mr. Curry, must be financially interested in these fine $1 tags and are trying to corner the business, but as there is no compulsion regarding where one may purchase their numbers, and as the northern firm is selling their numbers at $2, as against the handsome $1 number of local manufacture, it seems like no one would be worried about it, undoubtedly if the one Dollar Tag is so superior, in style and so much better, there is no need for anyone to Censure Mr. Curry."

Long Trip on Wheel.

Emil Leuly of Hoboken, N. J., the deputy centurian of the New Jersey division, Century Road Club of America, will start awheel for San Francisco June 1. He is now mapping out the route he will follow across the continent. Leuly is a hardy rider and has been fired with ambition to attempt the transcontinental journey ever since he made the trip from Hoboken to St. Louis last summer.

THE INFERIOR COURTS.

HYPNOTIC EYE SCARES HER.

COLORED WOMAN OBJECTS TO DEPUTY'S STARE.

Most Notorious Dive on Jackson Street Broken up by Justice Austin When He Hands Out Stiff Sentences—Negro Prize Fighter is Sent to the Chain Gang.

The penetrating, searching glare with which Deputy District-Attorney Keyes is accustomed to look a witness through and through, almost scared a nervous colored damsel into fits yesterday.

Mr. Keyes was trying to get the truth of a matter involving the ownership of some fancy tidies. A woman known as "Big Minnie" was called to the witness stand.

Before he began the cross-examination, Keyes turned on a few volts of his official stare.

Miss Minnie backed off in alarm.

"Well," she said, nervously, her eyes opening like saucers.

Keyes only looked sterner.

Miss Minnie squirmed in her seat and said in agitation: "Say, does you all want to ask me some question?"

No word from young Mr. Keyes; only the wires began to buzz and hum along the line of his stare.

Miss Minnie suddenly jumped out of her chair and flung her arms into the air with a yowl.

"Don't you try for to work no charm on me Mistah Lawyer," she whooped. "Mistah Jedge, Yo Honah, you mek dis hyah lawyer stop cha'ming me."

Mr. Keyes blushed and turned off his transfixing stare. But during the examination that followed, Miss Minnie was apparently filled with misgivings. Every time the lawyer went too near, she got ready to jump over the rail.

BLACK DIVE.

PRIZE FIGHTER JAILED.

The toughest negro dive on Jackson street was put out of business yesterday by Justice Austin.

He sent the negro prize fighter, Nat Dewey, to the chain gang for ninety days; Mattie Phillips and Cecilia Phillips for sixty days each.

Dewey tried to get out of the charge of vagrancy on the ground that his ring record constitutes a regular profession.

Dewey also produced papers to show that he is a regularly accredited detective of the "American Detective Agency."

"Yes," said the court, dryly, "I think I understood those detective agencies pretty well."

The judge wanted to know if Dewey is the colored man's real name.

"Well I was married under the name of Johnson."

"Is that your name, then?"

"Well, I fight under the name of Dewey."

One of the former waiters of the Union League was also charged with vagrancy, but was discharged as not guilty.

One of the girls, both of whom are notorious, is only a child, possibly 18. When she was taken up to be sentenced, Justice Austin asked her if she had ever been arrested before. She said she had.

"What was the charge?"

"Drunk," she said, piously.

Out of this same dive a young white woman was taken yesterday to the same court. She pleaded guilty to vagrancy and admitted shocking immorality.

Policelets.

Billie Angelo was fined $25 yesterday for carrying concealed weapons. He was found drunk with a gun in his pocket.

D. Cervina and Antonio Rodriguez were each fined $100 in Justice Austin's court for running "blind pigs" in Sonoratown.

J. P. Johnson, a sleeping car porter, was fined $15 in Justice Austin's court for raising a "rough house" at a dive on New High street, where they drew the color line.

John Walker, employed at the Palace market, was fined $25 yesterday for putting a preservative in meat for sale.

When a "Hercules" boy is out on pleasure bent and the clouds commence to gather black and drizzle rain, does his mother worry about his getting wet to the skin? Never; she has no occasion to; she knows that he will stay out in the rain, that's boy nature, but she knows, too, that he is wearing a "Hercules" showex-proof suit.

Our claim that a "Hercules" boys' suit is shower-proof is not an advertising dodge; it is a fact.

If a manufacturer can waterproof cloth and cut it up into rain-coats that usage proves shower-proof, why can't we do the same thing and make up the cloth in Boys' Suits? That's just what we do. The cloth we use in Boys' "Hercules" suits is put through the rain-coat shower-proof process before we make it up; then why isn't a "Hercules" Boys' Suit a rain coat too?

In fact a "Hercules" suit is more thoroughly shower-proof than most rain-coats, especially the cheaper kind; the cloth is better quality, closer woven and ALL WOOL.

"Hercules" are made in two-piece knee-pants suits for Boys from 3 to 10; and your boy will get more wear out of a "Hercules" than any suit for which you pay [illegible] *as much again for.*

LONDON, May 18.—[By Atlantic Cable.] Interest in the trans-Atlantic yacht race, started from Sandy Hook Light by the Lizard, for the cup offered by Emperor Wilhelm, is as intensely confined to yachting circles in London, but reports of its progress from passing vessels are certain to arouse popular enthusiasm in a short time. Experts here are inclined to favor the chances of the Atlantic from a sporting expert viewpoint, while the public naturally is the favorite of Englishmen, who are wishing for good winds. Betting on the race has not yet commenced.

The committee of judges, composed of the German naval attaché in London, Edward Birkbeck, chairman of the Royal National Lifeboat Institution, and Rear-Commodore C. L. F. ALFRED DE ORO IN LEAD.

(BY SPECIAL WIRE TO THE TIMES.)

NEW HAVEN (Conn. Y.) May 18.—[Exclusive Dispatch.] Alfred De Oro finished in the first of the three days of the pool championship of the United States with Jerome Weogh, here today. The score 313 to 189. This lead, however, does not give De Oro the match, as the Buffalo boy has a masterful pool, and ran into a long break, which gave his opponent a slight advantage.

The features of the evening's play were a high run of twenty-seven by Keogh, the latter's wonderful playing, and De Oro's long breaks. The Cuban showed form in this department of the game, and invariably broke into a run of his choice was his. De Oro's nervousness caused frequent outbursts of applause, while Keogh's ability to run a ball was simply marvelous.

Tonight, the second block of 500 points will be played, and Saturday the last. A large crowd is in attendance, and there is plenty of betting on the game.

GARVIN IS PUT OUT.

(BY SPECIAL WIRE TO THE TIMES.)

SAN FRANCISCO, May 18.—In the first game today, during a critical stage of the game, Whalen questioned the decision of the umpire; was fined and put out of the game. Wheeler was sent to the box, and at this point Garvin had two men on bases and two men out. Household hit safely, scoring two runs in the second inning. Frisco batted around in the fourth, knocking four hits on the first three pitched by Garvin in two men. Garvin was batted to pieces in the sixth, and after that the home team had practically its own way. Garvin made a bad error in fielding Nealon's bunt, by throwing it into the bleachers and allowing two to score. Score:

PRETTIEST PLAY BY THE GIRLS.

HIGH BEATS MARLBOROUGH AT BASKETBALL.

Lively Sport on the Neutral Court at U.S.C.—Beautiful and Thrilling Team Work Carried on by Miss Burke—Defeated Team the Champion Last Year.

Hats off to the basketball team of the Los Angeles High School for some of the prettiest play ever seen on a basketball court in Southern California, or any other place, for that matter!

The game played by this team yesterday afternoon against the Marlborough team, on the neutral court of U.S.C., was a revelation even to those most familiar with the work that the L.A.H.S. girls usually put up. The clean passes, the marvelous team work and the spectacular plays combined to win awe-struck admiration from their opponents and to leave their admirers breathless with excitement and hoarse from continually shouting.

They won the game with a score of 34 to 19, and distanced the Marlborough girls from the time the ball was tossed until one of the best-fought, most exciting and sportsmanlike games of the whole season was ended and the spectators went away feeling that they had gotten more than their money's worth.

The bleachers were early filled with a mass of youthful femininity and here and there an anxious parent, and sympathizer, only the men who were members of the faculties of U.S.C. and the two opposing teams being admitted to the court. Seats were at a premium, and many found it more comfortable to stand, as the excitement of the game was not conducive to quiet contemplation.

First blood was drawn by the High School side, Mary Plummer making a point on a free throw, and then the goals were scored in rapid succession. The weakness of the Marlborough team lay in the pretty center, Miss Bulkley, and during the first half Cleme Griffin played the game as though she had no opponent on the field. Biff! and the ball would go speeding into the High School territory, where the most beautiful and thrilling team work was carried on by Miss Burke, who played a star game—her finest. Mary Plummer also rivaled her best previous efforts. The opposing guards worked hard, but they were of no avail; the team play of those two forwards was like magic, low down, high up, or midway, wherever the ball could be passed without the guards intercepting it, there it was, and it must have seemed to them the most elusive sphere that ever sped out of their way and into the basket above.

Finally, near the end of the first half, when Miss Plummer tossed the ball backward over her head, making the celebrated Wellesley back throw, it was caught by little Miss Burke and tossed into the basket in a clear field goal, a great cheer went up. It was science, pure and simple. Miss Plummer made four field goals in the first half and four free throws, while Miss Burke made five field goals. Three field goals were scored by Miss Katherine Mellus on the Marlborough side during the first half, and three free throws were made by Miss Margery Severance. Miss Severance is a fine player, a great player, in fact, but she and Miss Mellus, the other forward, were given small chance to show what they could do, for the ball was seldom in their territory, and Miss Augur and Miss Hunter guarded them for all they were worth. Miss Augur saved the ball for the High School girls several times by always being on the spot and rising to the occasion.

A number of fouls were called on both sides during the first half, the High School girls making the larger number in the second half. What's the score? What's the score? was asked in breathless tones by crowds of excited girls at the end of the first half, when it stood 22 to 9 in favor of the High School.

The second half looked more favorable for Marlborough and their team showed the most valuable of all traits upon the field—staying power. Not discouraged by defeat they made greater efforts than before. Things began to even up just a bit; a goal was thrown by Miss Mellus and then another one by Miss Severance. The centers managed to get the ball and make several fine throws to her forwards. Then the Marlboroughs had eleven chances for points on free throws, making five of them. Another basket was made by the Marlborough girls, but to offset any gain, Mary Plummer threw two field goals and two free throws and Miss Burke made three field goals, making eight to her credit during the entire game.

The Marlborough team was the champion one in the Woman's Basketball League of Southern California last year, and beat this very High School team with a score of 34 to 6, but it is greatly weakened this year by the loss of Miss Brown as forward, nor does Miss Mellus play as well as formerly.

The officials were Miss Turman of Pasadena, referee; Miss Mabel Peyton of U.S.C., umpire for Marlborough, and Miss Ethel Hogan of U.S.C., umpire for High School. Misses Arnold of High School and Ellis of Marlborough kept score.

The line-up for Marlborough was: Misses Mellus and Severance, forwards; Miss Bulkley, center; and Misses Kingsberry and Rust, guards. High School line-up: Misses Plummer and Burke, forwards; Miss Cleme Griffin, center, and Misses Hunter and Augur, guards.

Possibly the greatest game of the whole basketball year will be the meet between the High School girls and the U.S.C. girls, which is set for next Tuesday.

LIVELY TIME IN TERRIERS.

Dog Show Champions Now All Selected.

Bill Sykes Cleans up in the Bulldog Class.

Judge Ashton Finds His Work Cut Out.

"Many are called, but few are chosen."

The man who wrote that now famous quotation must have dreamed it the night after seeing his dog beaten in the judging ring of a bench show.

Strange it is, but every man—or woman—who enters a "purp" in any exhibition of blue-blooded canine aristocracy seems to think it must needs get a first prize without regard for the unalterable fact that somebody must be beaten, as only one can win at a time. Yesterday there was more than one head that ought to have been hung to a black bear in honey time if soreness be any criterion.

Judge Ashton had a lively session in winding up the classes and certainly earned whatever sum is coming to him. With a heavy and evenly matched entry of bulldogs, fox terriers, and bull terriers to pick from, the lot of the official critic was anything but a sinecure.

With the awarding of prizes last night, the principal feature of the show passed, and general satisfaction was expressed with the decisions of Judge Ashton, the arduous character of his week's work being fully appreciated.

In the bulldogs, Benjamin Blossom's Bill Sykes scored a first, largely upon his perfect condition.

Capt. E. V. E. Neill had a good one on exhibition in Battler, said to be a Boer War veteran. He certainly looks the part. His coat was conspicuous by its absence; Battler looks as if his mother had been thrashed by a hairless Chihuahua and took out the grudge by marking him for it. But the animal has the body, the head and the handsome undershot visage that go with the prize-winning bulldogs's part. His proud owner avers the possession of enough medals to sink a Russian man of war without any internal aid from her crew.

On the whole, the bulldogs were not up to the average of some former shows held in Agricultural Park several years ago, when such champions as Klein's Ivel Rustic and Beaumaris Fortune graced local benches.

In the bull terriers, far famed for their gameness in the pit and ever popular as the companion of a gentleman, George M. Easton, with his peerless pair, Woodcote and Tedcote Wonder, scored a clean-up and won about all the portable honors offered.

A sprinkling of the fancy breeds, just enough to give an idea of their requirements, was passed upon by Judge Ashton. Mrs. Sada Sweeney's Japanese spaniels were easy winners in the class, nothing else being able to touch them. Toys of the various sorts well described as a "cute lot" were led out like so many little rats, Mrs. T. H. Broadhead carrying away most of the awards.

A trio of yesterday's prize winners: Top, Mrs. Sada Sweeney's Japanese spaniel, Inglenook Pitti Sing; lower left, Sam Schenck's bulldog; lower right, Benjamin Blossom's imported English bull dog, Bill Sykes.

THOMAS SHUTS LOOLOOS OUT.

FAMOUS TIGHT WAD NEGLECTS TO ALLOW HITS.

Dillon is Only Local Man to Get as Far as Third Base—McLaughlin's Work in Left Field is Feature of the Contest—Hitting is Very Light by Both Teams.

Tacoma, 2; Los Angeles, 0.

The Tigers slipped out of the jungle yesterday for three minutes, tore off two chunks from us and shot back again before anything further could transpire. We never had any chance of catching them.

That's the whole thing in a few remarks of what happened out at the Chutes yesterday and the opportunities for Los Angeles to win were about as great as the realizations of the man who expects to find the University Traction car any place near being on time.

Thomas went in to hand them out for the Tigers and naturally he made such a good job of it that for over an hour we ran ourselves to death and only got as far as third base. This business doesn't win any ball games and of course it's easy to see with even one eye why the Looloos couldn't score any runs. It was simply because they failed to hit Thomas when hits might have made runs. About 1500 fans watched the show.

Thomas was in excellent form and allowed only four swats and all came in different innings. If some of us managed to get one, the Tight Kid shut up from that time on and it was impossible to get more than half way around. Dillon reached third in the fourth inning, with one out, by slamming a double against the right field fence and advancing on an infield out, but there he stuck and that was the nearest we came to the plate.

It might be remarked, however, that McLaughlin in left field saved the game for Thomas, for he was the busy kid of the whole performance. He pulled down no less than eight fly balls and this is believed to be the local record. Some of these were on long flies out of his territory and were spectacular to look at, but he nabbed all of them with apparent ease and when a left fielder takes in eight it shows that his pitcher has a peculiar left-handed twist on the ball that sends everything into the air. Thomas and McLaughlin had the whole thing between them, as it were, and Hogan in the right field and Lynch in center had practically nothing to do.

Baum, for the Looloos, pitched a good game, but when the people behind him couldn't hit anything there was little use of trying to win. Only six swats were made off him, but two of these happened to come in the same inning, and this was why Baum lost. Aside from this fourth inning, he held the visitors safe and pitched all kinds of good ball.

Lynch opened the fourth for the Tigers with a safe shot to left and then Baum walked Graham. Happy Hogan advanced both of them with a neat sacrifice and then Thomas smacked a hot high liner over Toman, scoring Lynch. Graham ran to third on this and scored after the catch of Doyle's long fly to left field. That was all.

SHIELDS OUTPITCHES SCHMIDT.

SEATTLE WINS AFTER FIFTH.

[BY THE ASSOCIATED PRESS—P.M.]

SEATTLE, May 18.—Seattle won today in a game characterized by errors and timely hitting. Shields outpitched Schmidt, although the Oakland man had his game won until the fifth inning, when the errors and the hitting began and Seattle took the lead, holding it to the end. McHale made four hits in four times at bat. Score:

Seattle, 6; hits, 9; errors, 2.

Oakland, 4; hits, 7, errors, 2.

Mitchell and John L.

TACOMA, (Wash.) May 18.—Charles Mitchell and John L. Sullivan have signed the articles for a 15-round fight in Tacoma September 19, for the gate receipts, to be divided 65 and 35 per cent.

"Now you've got 'em," said the Occidental supporters, when Hosokawa and Suyami struck out without the Japs scoring anything in the second. The Americans seemed to feel they had a line on their opponents' play, and proceeded to show it. In the second and third innings they made four tallies altogether. Bird hit a two-bagger past third base and he and Roth subsequently scored one apiece. Again the Japs failed to make. In spite of Thacker going out on a pop fly in the second, Bacon and Merrill scored, the latter owing to an error of Hosokawa at first base. In the fourth Hosokawa landed a two-bagger, and an error of Roth's allowed the Japs to add one to their score. A foosle of Shishimi at third base nearly gave Clever a chance to score for the Occidentals. But in spite of this and a drive of Thacker's over the fence they did not increase their tallies.

With the score at four-all neither side made anything in the next two innings. In the seventh a hit of Thacker's resulted in a score, owing partly to a muff by Hosokawa. But the latter retrieved himself by a very good catch that sent Merrill back, Hashido also catching McKnight high up over his head. Bacon added another, sending the Occidental score to six, where it stayed for the rest of the game.

Things became decidedly lively now. If the words used by the Japs in the bleachers were as bad as they sounded, they must have expressed their feelings strongly. The brown men on the diamond looked as placid as when they started, but a good deal hotter. In the eighth, Izumitani's slick work in stealing sent the Jap score to five, where it stayed. Spaulding going out on a fly, the score was now 6 to 5, in favor of the Presbyterians.

Things looked easy when one man after another was struck out by McKnight. The Occidental rooters started to shout out the score, and claim the game. Then Hosokawa took first base on balls. With Oshikawa at the bat the Jap rooters then started to recite a short Shinto poem in 175 verses about not counting your chickens before they hatch. But Oshikawa going out on a foul fly showed that the beaks were through the shells, and the Occidentals had won. The Japs took their defeat very good-naturedly, and the teams parted very good friends.

The schedule of games has been changed slightly. Today the Japs are going to rest. Tomorrow afternoon they play the Indians. The Red vs. Brown game comes off at Fiesta Park. On Sunday the game will be played at Santa Monica against the Los Angeles-Pacific team. Excursions will be run out there for the occasion. On Monday they play St. Vincent at Fiesta Park if St. Vincent wants to play. If not they will play an all-star team. On Tuesday they play at Claremont and on Wednesday against the U.S.C. on the U.S.C. ground.

Pen Points

David Belasco having evidently succeeded in busting the theatrical trust, why not turn him loose on the others?

The last soldier of the War of 1812 is now dead and decently interred, but the "oldest Mason" and George Washington's body servants are happily still with us.

Three deep in the list of the dead from Jolo lie "Kelly and Burke and Shea." Wrap them 'round with the banner of the stars, and let the bugle sing to them its last fond good-by.

If we understand the proposition before the Presbyterians correctly, it is that they might as well all go to heaven together as to be straggling along in squads.

They are now saying that Togo and Rojestvensky are kept from fighting on account of politics. In this country it is on account of politics that most of the fighting is precipitated.

The republic of Panama would do well to keep a close watch on its new navy and not leave it standing out of doors at night. Some drunken sailor may come along and steal it.

The King of Spain has appointed the King of England an admiral in the Spanish navy, but in view of the fact that there isn't any Spanish navy, Ed'ard needn't be in a hurry loading up on new uniforms.

A speaker in the great Baptist convention at St. Louis claimed to be a Democrat and a Christian. Well, sometimes the Lord permits these things. There is probably no other way to explain it.

There are about half as many Chinese in California now as there were ten years ago, but there are fifty times as many Japs. The change is not for the better. A Chinaman could at least be trusted to a bill of goods.

Dr. Chapman writes a manifesto in the Express and says he gives it "in strict confidence." The doctor is on sure ground. His secret is safe. Only a few people can possibly learn about anything printed in the Express.

"Vote against the drink traffic," says the Express in one column, while in another column it advises you to drink "Schlitz" beer. If people would only read the Express, things like that would make them laugh.

The leading Christian sects are showing a commendable disposition to unite. They should get together if only for the reason that there are so many denominations now in existence the world has become weary trying to keep track of them.

Uncle Sam has been doing a great deal of preaching on the subject of "the open door" in China. The Chinaman has been thinking it over, and now he wakes up and says to Uncle Sam: "Whas the mallah you no makee you own dloor open, too? Savve?"

After several weeks of silence, more or less eloquent, Sister Cassie Chadwick breaks into the scuffle again and owns up to having borrowed at least $300,000. The more one thinks of it the more it seems a pity to put a really smart woman like that in jail.

A convention of good church people in New York declares that "brotherhood is the only true basis of business." The banks and other money lenders, however, will doubtless continue to figure cash as the basis, or gilt-edged paper which is just the same as cash.

The Express is "agin" the drink traffic and is out with a whine to church members to send in their subscriptions as a reward for its virtue. Yet the Express regularly publishes a flaring advertisement of the hop dope of Mr. Schlitz that "made Milwaukee famous." Consistency thou art a jewel.

Even if the anti-saloon ordinance should pass, the historic remark made by the Governor of South Carolina to the Governor of North Carolina will not apply with any force to Los Angeles. There will be the "blind pigs," the drug stores, the clubs, the cafés and the hotels to fall back on, not to mention the fact that there will be handy little closets in offices, and sideboards loaded to the muzzle in private residences.

Not only Mr. Rockefeller's, but all money, is "tainted," at least from a physical standpoint. It is hard to imagine anything filthier than the coin of commerce. Heaven knows what kind of hands it goes through. And yet you will find the veriest health crank handling it without a thought of sterilizing it, and the daintiest woman will grab a wad of it and stuff it in her stocking without ever batting an eye.

When Gen. Horace Porter, our former Ambassador to France, comes home, he should receive a reception that will voice the gratitude of the nation for the noble service he has rendered it during a distinguished career both in war and peace. Not the least of Gen. Porter's achievements was the finding of the body of John Paul Jones. When government aid failed, he prosecuted the search at his own expense. There are none too many Americans of the Porter brand.

BUSINESS.

The New York stock market was chiefly animated yesterday By a desire to liquidate. There was heavy selling by speculative pools, which have made unavailing efforts to get prices up. There was nothing in the money market to explain the urgent liquidation which became precipitate in the final dealings, making the closing very weak and at about the lowest. At Chicago, unusual strength developed in the wheat market late in the session, and July closed at 89 3-8@89 1-2.

THE MAGNETIC POLE.

A very interesting expedition is now buffeting the ice floes of the Arctic Sea, threading its almost uncharted way among the islands and shoals north of Hudson's Bay. It consists of a single vessel—a little sloop seventy feet in length and only forty-five tons burden, manned by a Norwegian explorer, Captain Noard Amundsen, and seven hardy sailors and expert assistants.

This daring party has set out from the port of Godhaven, Disco Island, Coast of Greenland, to find and definitely locate the north magnetic pole. It proceeded north to the head of Baffin's Bay, then westerly through Lancaster sound to Erebus Island where the ill-fated Sir John Franklin met his death in 1847. Here the expedition has been heard from through sealers, and was in good spirits. Thence it will proceed in a southerly direction to Boothia peninsula where Ross approached the magnetic pole in 1831.

Here, at a considerable distance inland, if the intervening region can be traversed, the explorers will find a spot where the north pole of the magnetic needle, if the latter is freely suspended, will point directly towards the center of the earth, in other words it will assume a vertical direction, or, in technical phrase, its dip will be ninety degrees.

At the time Commander Ross visited this peninsula in 1831, the position of the pole as near as then determined was in latitude 69 degrees, or about 1300 miles south of the terrestial North Pole, and in longitude 95 degrees west of Greenwich, or almost due north of the City of Omaha.

But Captain Amundsen will not find the magnetic pole where Ross located it in 1831, for since that date it has been slowly shifting towards the east, and is now north of the State of Michigan. East of that meridian the needle deviates to the west of north, till in Maine it attains its maximum of about twenty degrees. At Los Angeles, on the other hand, the deflection is 14 degrees and 27 minutes to the east of north, and civil engineers correct their alignments accordingly in all their surveys.

One of the unsolvable mysteries of ancient and medieval times was the steadfast trend of the magnetic needle towards the North Pole, and the mystery has not yet been solved. The most learned physicists offer only tentative conjectures to account for the strange tendency of the pivoted filament of iron.

Among the hypotheses which were put forth in the twelfth century was an assumption that deep within the earth's interior is an immense body of magnetic iron with a northerly and southerly trend, and powerful enough to govern the movements of the needle. But when Columbus discovered, to the dismay of his men, that the needle varied in different longitudes and was consequently no longer true to the pole; and when, two centuries later, Halley discovered that the north magnetic pole was constantly shifting through a wide geographical range, the internal magnet theory was no longer tenable, for the enormous pressure of thousands of tons to the square inch in the deep interior of the earth would render such shifting of the position of a great interior mass impossible.

Another theory which has gained considerable favor supposes that the earth is itself a great magnet, resulting from the swift rotation on its axis as it moves with unthinkable velocity along its mighty orbit round the sun, cleaving its way through an ocean of ether as it flies. This theory supposes furthermore that the sun is another rotating dynamo, and under its fitful moods, evidenced by its fierce hydrogen flames and tremendous calcium outbursts, sends forth streams of magnetic influence to its family of revolving worlds. On the whole, this cosmic source of terrestial magnetism, though somewhat vague in conception and lacking in precise data and definition of terms, while not conclusive, is yet seductive, and has many adherents.

Meanwhile, let us bid Godspeed to Amundsden's expedition. In imagination we behold him discovering and locating the exact spot where the sensitive needle is swerved neither to the right nor to the left. We see him thus adding a new and valuable fact to the world's store of knowledge and proudly erecting a monument upon this focus of all the ships' compasses on the globe, and then, his great ambition achieved, completing his perilous journey through the Northwest Passage, emerging at Behring's Strait, and finally landing to be welcomed in triumph at one of our California ports. He left Christiania in June 1903, and we may expect to hear from him along the Alaskan Coast in 1906 or at the latest in 1907.

OPEN SHOP APPROVED.

The National Association of Manufacturers, by a vote which was unanimous, has approved the open shop, and reaffirmed its adherence to that policy. The report of the Committee on Resolutions was favorable to the continuance of that policy, and when the report was brought before the convention, it was adopted with unanimity and great enthusiasm.

A thorough trial has been given to the open shop policy by the members of the National Association of Manufacturers, and the result has proved so successful and satisfactory that the extension of the system to all branches of manufacture has been shown to be both expedient and desirable. In the resolutions just adopted, all manufacturers who have not adopted the open shop policy are strongly urged to do so as soon as possible. The ultimate triumph of this policy over that of the closed shop is an absolute certainty, because it is the only just solution of the questions involved. In other words, the principle of the open shop must eventually triumph, because it is based upon the eternal principles of right and justice.

One of the most pernicious and unjust features of the closed shop policy, which the advocates of trades-unionism are seeking to establish, is the fact that it would shut the door of opportunity to thousands and tens of thousands and millions of the young men of the country. The limitations which this policy would impose upon apprenticeship, in the different trades, would prevent the learning of trades by a very large proportion of the young men of the country. No man nor combination of men has or can acquire the right to estop a young man from learning a trade. Yet the unions deliberately and for a specific purpose limit the number of apprentices who shall be allowed to learn trades. They place the limit so low, in many cases, that the supply of workmen would speedily decline below the demand if the ranks were not recruited from non-union sources.

This attempted monopoly of labor and the opportunities to labor constitutes one of the many influences which have contributed to make labor unionism a stench in the nostrils of decent men. The fight for the open shop is a natural sequence of the dishonest, self-seeking policies of unionism. It is a fight for the principles of "a square deal," and for justice in the abstract and the concrete. The National Association of Manufacturers has done a service to the people, and to the cause of right, in so firmly indorsing the open shop, and in urging upon all manufacturers the necessity for keeping up the fight until the victory shall have been made complete and unassailable.

LAWS IN THE CANAL ZONE.

Recently, the Supreme Court of the United States decided that the Federal laws are in operation as completely in the Panama Canal Zone as they are in any part of the United States. This clear-cut opinion will go far toward clearing up some of the troublesome questions which are sure to arise during the construction of the great isthmian waterway, and its maintenance and operation after the work of construction shall have been completed.

The case upon which the Supreme Court's decision was based was that of a Chinaman who was conducting a lottery in the canal zone at the time the United States took possession, and he set up the claim that the transfer to the United States did not deprive him of the benefits which he would enjoy under the original concession. This contention was swept aside by the Supreme Court, which held that all former concessions and agreements in conflict with the terms of the transfer to the United States terminated with that transfer.

It is manifest, upon a moment's reflection, that the Supreme Court could hardly have arrived at any other conclusion, under the circumstances. The complete sovereignty which our government is to exercise in the canal zone is inconsistent with the exercise of privileges or concessions of any kind above or beyond our authority. In order that the purposes of our government may be thoroughly carried out in the canal zone, we must have complete and undisputed sovereignty throughout the territory. Unquestioned power must go with the unlimited responsibility which we have assumed.

Prior to the treaty which gave us control of the canal zone, many practices were lawful in that country which are not lawful in the United States. If we were to permit any of these practices to continue, we should show inconsistency and weakness. The only plan calculated to insure uniform government, peace and progress throughout the canal strip is to establish the authority of United States laws over the entire territory. This the decision of the Supreme Court accomplishes. It simplifies the situation, and insures the prompt determination of all controversies that may arise.

Seventeen men imprisoned at Barcelona, Spain, for connection with anarchistic affairs, were released on the occasion of the celebration of the nineteenth birthday of King Alfonso.

MEN AND THINGS OVER THE SEAS.

A War for Turkey.

The revolt in Southwestern Arabia has assumed the proportions of a regular war. The Sultan of Turkey is thoroughly aroused to the dangers of the situation, not merely as involving the loss of the province of Yemen, now in full possession of the rebels, but as endangering his position as guardian of Mecca and Medina, the holy cities of Islam. Transports are being commissioned at Constantinople for the dispatch of thirty-two battalions of troops to the disturbed regions. Meanwhile, as a striking commentary on Turkey's real ability to conduct a modern war, in which, as the Japanese-Russian contest so thoroughly proves, foresight and preparedness to meet all emergencies count for everything, the story is being told that the last relief levies were detained for days outside the Suez Canal, because the vessels carrying them came unprovided with money to pay the canal dues! This delay in the transit of the urgently required reinforcements had much to do with the disastrous rout at Sana and the failure to relieve the beleagured garrison in that city, now surrendered to the insurgents.

A Far-reaching Revolt.

There is now the proof of a widespread concerted movement to throw off the Turkish yoke in Arabia, Syria, and Mesopotamia, and establish a new and independent Arab nation. Powerful sheiks in several regions are openly enlisted in this movement. The next complication to be feared is that the Khedive of Egypt, backed by the British Government, may aspire to the headship of the Mohammedan faith and the guardianship of the holy places. It is certain that if the Sultan shows himself powerless to restore order in Western Arabia, there will be intervention from some quarter, and such a political move at Cairo as that indicated may be made necessary, simply to forestall interference by powers less vitally affected. Fear of this very contingency no doubt inspires the Sultan's profound belief that England is at the bottom of the whole trouble.

The Tutelage of Egypt.

Meanwhile a movement is on foot to raise the national status of Egypt by granting to her at least a measure of the legislative autonomy which all other civilized countries enjoy. The laws of Egypt are the result of a hasty and haphazard reproduction of the French codes, with many omissions and obscurities that render their every-day administration very difficult, and operate seriously to the detriment of commerce. But by the existing system no law can be altered without the consent of the fourteen different powers represented on the Mixed Tribunals, under whose jurisdiction come all cases affecting foreigners. This cumbrous procedure has in the past simply blocked the way to all reform, and the Khedive's government now demands relief from its anomalous and humiliating position. But it is extremely doubtful whether at the present moment there is enough spirit of fraternity among the nations of Europe to permit of such a reform being carried through. When new rights are being reached out for in all directions, there is little likelihood of any vestiges of existing privileges being voluntarily surrendered.

Governing the Transvaal.

The Transvaal Constitution has now been promulgated, and, as was to be anticipated, the irreconcilable Boer party declares that it is a little better than a fiasco. There is to be, for the present, a single Legislative Assembly, or Volksraad, to be composed of the Lieutenant-Governor, sixty to sixty-nine members officially nominated, and thirty to thirty-five elected members. All financial measures must originate from the Government. English is to be the official language, although Dutch may be used by permission when a member happens not to speak English. All burghers of the late South African Republic, and all white males of British birth having specified financial qualifications as owners of capital or renters of property, are invested with the right to vote. Obviously such a parliament, carefully safeguarding that the fruits of the war shall not be filched away by the vanquished, does not confer self-government. But it is claimed to be the beginning of the more liberal measures that will be granted so soon as the Boers prove their loyal acceptance of the new order of things, and their sincere desire to aid in the administration of the country, whilst at the same time helping towards the establishment of permanent racial harmony. In a somewhat sullen spirit of acquiescence in the inevitable, the Boer leaders have announced their intention to take part in the forthcoming election.

Electricity in Warfare.

In consequence of the important part played by searchlights during the siege of Port Arthur, the British Army has now added to the establishment of the Royal Engineers a special Searchlight Company. All the rank and file will be trained electricians. They will be equipped with portable searchlight apparatus for use with troops in the field, and during the approaching drill season at Aldershot extensive experiments are to be carried out towards developing the usefulness of the new detachment.

O'LEARY AT THE CROSSING.

'Tis all along Fifth avenue, as wheels
the grand display
Of hansom, coach, victoria, of landau
and coupé,
That like Napoleon Bonaparte reviewing his array,
Stands Officer O'Leary at the crossing.

"Whoa there! slow there! Can't ye understand?
Dhraw back! shtop that hack whin Oi howld up me hand.
That's the way ye must obey whin th' gineral gives command,"
Says Officer O'Leary at the crossing.

'Tis all along Fifth avenue the city orchid blooms,
The miles and miles of many styles, furs and silks and plumes;
But keen and stern, the censor of the coachmen and the grooms,
Stands Officer O'Leary at the crossing.

"Whoa now! slow now! Put yer horse to grass!
Aisy, sure, ye fresh chafoor—don't give me any sass!
Halt, Oi say, an' open way to let this lady pass!"
Says Officer O'Leary at the crossing.

Half a mile of millionaires along that moving chain,
Dappled grays and thoroughbreds with cropped and arching mane—
But Maggie Flynn, the milliner, need not appeal in vain.
To break the grand procession at the crossing.

"Whoa, there! slow, there; Don't give me anny chin!
Stiddy, sure, ye fresh chafoor, before I run yez in!
Whin Ol've me say ye'll all give way for little Maggie Flynn."
Says Officer O'Leary at the crossing.

RARE MINERALS, MINES AND METALLURGY.

POPULAR QUERIES AND EXPERT ANSWERS.

[Answers to legitimate questions in mineralogy, metallurgy, chemistry or mining will be given here, but only when of interest to the mining or commercial world. Personal questions, from curio dealers and mineral collectors, on ores, minerals, earths or metals of non-commercial value, and assays for metal, will not be answered, but should be written direct to analysts and assayers. Address The Times.]

Not Apatite.

RIVERSIDE, May 2, 1905.—[To the Editor of The Times:] Will you kindly tell me, through your columns, what the enclosed sample of "marl" is? It seems to me like an "apatite." However, it is used here very extensively for mixing with our loam for lawns and other purposes.

The question is, has it any economical value?

Yours truly, C. T.

ANSWER: Apatite has a somewhat resinous luster, and is found in many colors. Hardness, 5; when massive, 4.5. Fracture, compact and granular, rarely fibrous. In habit, it is acicular, tabular, or columnar. Crystallization, hexagonal. When pure, the formula is twofold, i.e., "phosphorous pentoxide, 40.92; lime, 53.80; chlorine, 6.80—equals 101.54. The second formula is, phosphorous pentoxide, 42.26; lime, 55.55; fluorine, 3.77—equal 101.58. Sometimes both calcium chloride and calcium fluoride are present." (Dana.) The distinctive features in the two formulas are, one includes chlorine (chlor-apatite,) the other shows fluorine, as a constituent (fluor-apatite.) The mineral is generally known as phosphate of lime. In density it is over 3. B.B., fuses with difficulty when in small chips, with a yellow-red flame. It is soluble in nitric and hydrochloric acids without effervescence. If sulphuric acid be added, as reagent, to either of the acid solutions, a copious precipitate is thrown down (calcium sulphate.) "The dilute nitric acid solution gives with lead acetate (sugar of lead) a white precipitate, which B.B. on charcoal fuses, giving a globule with crystalline facets on cooling. Distinguished by its softness from beryl; does not effervesce with acids like the carbonates; unlike pyromorphite, yields no lead B.B." Prior to the discovery of phosphate rock in Florida, Pennsylvania and elsewhere, apatite was bought in large quantities by manufacturers of fertilizers. Phosphatic pebbles occur in North Carolina. Your sample is granular. Silica is present to a large per cent., with 8 per cent. magnetic iron ore, no lime, nor phosphoric acid is found therein. It would appear that your "loam" lacks sand, and is mixed with such as your sample to make a fertile soil. The concentrates from this deposit should be assayed for precious metal values.

Lime and Cement.

MOJAVE, May 1, 1905.—[To the Editor of The Times:] The sample of ore you have from me—please inform me what kind of lime is it? By proper manipulation, will it make cement?

Truly yours, DR. C. F. D.

ANSWER: Your sample carries lime as calcium carbonate, combined with alumina and limonite (yellow oxide of iron,) with silica, probably some precious metal values, and sulphuric acid. It is doubtful that your sample would make cement, alone (cement rock.) "In connection with the subject of the manufacture of Portland cement in Germany, it may be of interest to note that the association of German Portland cement manufacturers has adopted the following definition of Portland cement: An hydraulic cementing material having a specific gravity of not less than 3.10 in the calcined condition, and containing not less than 1.7 parts of weight of lime to one part each of silica, alumina and ferric oxide, the material being prepared by intimately grinding the raw ingredients, calcining them to not less than clinkering temperature, and then reducing this clinker to a proper fineness." Your sample, probably, carries too great a per cent. of lime. Try the following practical hint: Grind some of your ore, burn the powder to clinkering. When cold, grind the clinkers fine. Mix some of the product with water (mortar-like;) if "it sets under water," you have hydraulic cement. It is well to give an analysis of cement rock as shown in "Mineral Resources of the United States, 1902," in per cent., as follows: Silica, 6.11; oxide of iron and alumina, 2.73; carbonate of lime, 87.42; carbonate of magnesia, none; sulphuric acid, .69; organic matter, 2.73; moisture by difference, .32—100.

Alloy and Amalgamation.

BUTTE (Mont.) May 14, 1905.—[To the Editor of The Times:] Please give me a reply to the following questions: (1.) Describe an alloy. (2.) Give an example of amalgam. (3.) Give process for amalgamation of silver ores.

Oblige, D. J. H. (assayer.)

ANSWER: An alloy is, "A mixture of different metals (excluding mercury) by fusion together; also, the metal used to deteriorate another metal by mixing with it." Amalgam is a mixture of mercury with some other metal. By "amalgamating" a sulphide ore (copper and silver) by solution, in nitric acid, and inserting a bright piece of iron, or knife blade, in the acid liquid copper covers the iron. If a strip of copper is placed in the solution silver attaches thereto.

Silver is extracted by means of amalgamation with mercury, ex. gr., with the metal, or sulphide, providing no lead is present. In silver glance (argentite) the sulphur must be separated as follows: Roast the stamped ore with common salt, by which silver chloride and sulphate of soda are formed. The roasted ore is then mixed with water, iron scraps and mercury, and kept in agitation for some time in closed casks (barrel amalgamation.) Metallic silver and chloride of iron are thereby formed, and the silver dissolves in the mercury. The mercury is then washed from the ore, and solid silver amalgam obtained therefrom by pressure. Remove the mercury from the silver by distillation.

WONDERFUL BIRD, THIS.

A Parrot Called "Bill" is the Only Friend of an Omaha Cobbler.

[Omaha News:] For seventeen years and more William McCrum has sat upon a little bench in a little shop in Howard-street and cobbled shoes.

Before he came to Omaha he was a seaman, and few and remote are the ocean ports on the face of the earth that he has not trod. He cannot tell how long it was that he followed the sea, but says it was years and years, ever since he was a lad and stowed himself away in the hold of a four-master bound from Liverpool to Calcutta.

From boyhood to manhood he grew, and then to middle age, before it occurred to him that he would like to see a little of the world other than from the fo'castle of a ship. So he left the life job one day at San Francisco and drifted eastward, until he reached Omaha. Here he cast anchor and here he has since remained.

While on board ship, McCrum had learned, as many another Jack Tar has had to learn, to mend his own shoes or go without, so that when his savings were exhausted and it became necessary for him to make a competence he took to the cobbler's trade.

One day, long before the idea of leaving the deck of his ship had even occurred to him, a dusky belle of one of the oriental ports where the ship lay at anchor gave McCrum a gaudy hued and unsophisticated parrot, and when he took to the land for good the parrot came with him. It came to Omaha when he did, and it has been with him ever since, and will be to the end of the chapter, unless some unforeseen accident happens to break the friendship.

The bird is a wonder, as birds go. Few and far between are the parrots with such brilliant plumage, and its list of accomplishments is, according to its owner, practically unlimited. That it is a wise bird, even a cursory acquaintance will prove, and when it does not know or understand what is going on it looks wise and lets it go at that.

This particular parrot's name is not Polly; and it resents being called Polly to such an extent that it will screech in anguish and anger at the appellation. McCrum says that is because the bird hates women, and Polly is a woman's name. So it is, and has been for years, called Willie, and sometimes Bill for short, until now McCrum has but to speak the bird's name to have him sit up at attention.

Willie has a large cage in his master's shop but the door to it is always ajar, and its occupant is seldom at home during the day. Much of his leisure time he sits perched on his master's shoulder or hat, and offers friendly little suggestions to the man as he pegs away.

At other times Willie makes little exploring trips about the shop, and with the gravity and deliberation characteristic of his kind inquires into things about which he does not understand.

"Here, come out and stop your growling," said McCrum to the bird the other day, on the occasion of the visit of a reporter to the place. Instantly the ruffled feathers smoothed themselves, and with as near a smile as a parrot can make, Willie clambered off his perch and hopped to his master's knee.

"Ain't you ashamed to be so durn grouchy to a stranger?" asked the man.

"Cold day, cold day," said Willie, with a little shake of his handsome feathers, and, as if anxious to change the subject, "Cold day; ha, ha! 10 cents, please."

"What are you talkin' about, anyhow?" asked the man. "I b'lieve you're crazy. Now, take that old shoe and pull all those nails out, and hurry up, with the work."

Without any further ceremony, William took the shoe, and with many a grumble and unintelligible utterance proceeded to pull every nail out with his sharp bill.

"There now; that's something like," said the cobbler, "now you can go and get yourself a peanut or two," and without the slightest hesitation and a little screech of delight the bird made for a box in the corner and fished out two peanuts, which he consumed with much gravity and apparent satisfaction.

"No," said the owner of the bird, "I am not rich, but there isn't money enough in Omaha to buy that bird. He is the only friend I've got—ain't you, Bill?"

"Ha, ha—pretty cold—10 cents, please," observed William.

Woman's Ready Wit.

Senator Depew, at a dinner in Washington, was praising the wit of women.

"Against this wit," he said, "we men are powerless. Even when all the right and logic of an argument are on our side, woman, with her wit, will, nine times out of ten, put us to shame.

"Thus a man once found that his wife had bought a few puffs of false hair. This displeased him. He hid in the hall one day, and, just as the lady was fixing the false puffs upon her brow, he darted in upon her.

"'Mary,' he said reproachfully, 'why do you put the hair of another woman on your head?'

"'Why,' his wife answered, 'do you put the skin of another calf on your feet?'"—[New York Tribune.

A Bewildering Perfume.

Mexico has an institute of medicine, and has lately sent forth a delegate thereof to the State of Michoacan to investigate the properties of a plant which grows there and bring back a specimen. According to the Michoacans, the perfume of this plant produces a bewilderment of the senses, and persons thus affected lose their way in the woods where it grows, and cannot find their way out. The Institute will investigate the properties of this singular plant when the emissary is successful in bringing back a specimen. But if he does find it and get out losing his way, the native precautions in regard to the wood should prove for some abatement.—[Dyer County Times-Democrat.

TOWN BULL'S BITTER PILL.

Supreme Court Finds Against "Slow Freight."

Eddie Earl "Off" on that Printing Contract.

Finishing Touches on Award to "The Times."

The Town Bull of West Fifth street and his little Express (Slow Freight) got theirs Wednesday from the State Supreme Court.

It would hardly be fair to accuse the members of the Supreme bench of bullheading; but their decision, sustaining in every point the legality of the Council's award of the city printing contract to The Times last year, is as exquisite torture to the Town Bull as was ever invented by even the most finished torturer of the bull ring.

Little wonder that the owner of the Ox-press gazes nightly from his bedroom window out at the pale, unsympathetic moon and murmurs "what's the use?"

All the painful circumstances which attended taking that contract from the Express and giving it to The Times as a business proposition have passed into history. Few have forgotten the wailings and the gnashings of teeth of the disappointed and frenzied loser. The decision of the Supreme Court now comes like drawing aside the burial shroud and exposing to public view its ghastly, grinning habitant.

But to the Town Bull it was like unto pouring salt into old sores, or a second application of the paddle to the spanked place still O! so tender from the basting it received when he tried to hold onto the contract for another year.

The decision is a complete vindication of the action of the City Council in awarding the contract to the paper making the lowest bid, based on actual circulation.

It places the brand of "falsehood" on the vaporings about "graft" that for months exuded nightly from the junk on the Ox-press editorial page.

Following as it does the decision of the Supreme Court that the recall petition which came up out of the Sixth Ward was "insufficient" because of its putrid mess of perjured affidavits, the decision lays bare to the public gaze its picture of envy and malice, and perjured testimony which form the warp and web of the coat of many colors worn by the False Prophet of the Express.

EDDIE WRIGGLING.

For it must not be forgotten that it was Eddie Earl himself who took affidavit that each of the things which the Supreme Court has pronounced false is a statement of fact. It was in his own name as a taxpayer that the suit was brought against the city officials and the Times-Mirror Company.

Goaded by his rage and malice, the Town Bull neglected for once to hide behind the broad backs of his subordinates and it is Eddie Earl himself who is now writhing and wriggling. He has learned to his sorrow that malice is a dangerous weapon; that its hilt is sharper than the blade.

As rats desert a sinking ship the one-time followers of the Ox-press and its malice-blinded editor have married to other fields, leaving the poor Town Bull to nurse his griefs alone.

Even Spook Howton and Citizen Clover weeks ago fled the wrath to come. He went back to the cabbage fields in which he first blossomed.

Sandhoe Hay has gone into retirement. It was Typographical Union money that paid a portion of the costs of that suit and Hay is already badly entangled in the meshes of a net set by his own union to ensnare him in the act of misappropriating union funds.

The "personal representative" was repudiated by the local union Wednesday in the election of a delegate to the international convention; and the walking delegate finds himself more walked than walking.

Tom Fennessy says he is ready to quit. He hasn't recovered yet from the jolt he received along with Spook Howton last Tuesday afternoon in the Council committee-rooms. The local union officers lay at Fennessy's door the reason for the dance which caused one of the Ox-press job-printing offices in the city to throw the totem label into the garbage can, discharge the union hangers-on and declare for the open shop.

Chieftain Norton is not here to cower with his former associates beneath the lash of this latest defeat. Norton left the city several weeks ago, presumably to dodge the attorneys who are seeking to collect from him money due to his divorced wife.

Even Dr. John R. Haynes has fled from the little Zion city on West Fifth street and in the seclusion of the Mayor's cabinet is trying to reform—for the long-suffering public, but some of his own errant, half-baked ideas of municipal legislation.

EXPRESS CONTENTIONS.

Eddie Earl contended in his brief that the printing contract was invalid, giving these reasons:

(1.) Because all powers conferred by its charter upon the city of Los Angeles must, in the absence of an express exception, be exercised by ordinance; and, in this instance, no ordinance was passed.

(2.) Because by the express terms of the charter, all "legislative powers of the city must be "exercised by ordinance"; that the power to make a contract of this character is a "legislative" power; and in attempting to exercise that power no ordinance was passed.

(3.) Because the charter prescribes certain formalities in the mode of executing a contract after it has been duly authorized by ordinance; that such formalities are mandatory; no contract is binding unless they are observed, and, in this instance, they were disregarded.

(4.) Because the City Clerk has no power to sign such a contract—that is to say, he is not a person "authorized" to execute contracts on behalf of the city; that the Council has no authority to "direct or "order" him to do so.

(5.) Because, even if the Council can "direct" the City Clerk to sign a contract on behalf of the city, it can do so by ordinance only, as the execution of such contracts is not one of the City Clerk's official duties, and cannot be added to by ordinance, while, in this instance, the alleged authorization was by order, and not by ordinance.

FACTS THAT STAND.

The City Council, Clerk, Treasurer of the Times-Mirror company, declare contended:

That the Council, in awarding and ordering the execution of this contract for the city printing, acted in the exercise of administrative capacity, and not in the exercise of its legislative or governmental powers.

That there is no rule of law, independent of statutory or charter provisions, requiring authority to enter into a contract on behalf of a municipality to be conferred by ordinance.

(2.) The charter of the city of Los Angeles does not, expressly or impliedly, require the Council to contract by ordinance; to the contrary, it expressly authorizes the Council to contract by order.

(4.) The Mayor is not a component part of the Council when it is exercising the contracting power of the city, nor is he vested with the power to veto the action of the Council relating to contracts.

(5.) All formalities prescribed by the charter were observed the present case.

(6.) The Council had authority to order the Clerk to sign the contract in behalf of the city, and no ordinance was required for that purpose.

(7.) The facts stated in the complaint are insufficient to entitle plaintiff to injunctive relief.

The Superior Court denied Earl's application for an injunction. Earl appealed to the Supreme Court, only to lose finally. The Supreme Court cited numerous cases to strengthen its findings and those of the lower court.

EDDIE'S WILL.

For months after the printing contract was awarded The Times because its bid was the best position for the city, Eddie Earl prated in the Slow Freight editorial column as a daily wail paragraph about "graft," and purporting to show how much money the city could have saved by the Express or some other paper. This silly paragraph became a bore to the twilight organ's readers that a number discontinued their subscriptions.

FOWL FANCIERS.

Poultry Breeders' Society Formed at Meeting of Persons Interested in the Industry.

The Poultry Breeders' Society of Southern California was organized at a meeting of about thirty poultry fanciers last evening at the Chamber of Commerce. William Humphreys, member of the Board of Park Commissioners, was chosen temporary chairman and Henry W. Tuckeberg temporary secretary. Numerous persons were present from Orange, Ventura, San Gabriel, Pasadena and South Pasadena being represented. Organization will be perfected by a meeting to be held at the same place next Thursday evening.

The object of the society is to stimulate interest in and to broaden and strengthen the poultry industry. There will be social features, lectures, monthly meetings and annual poultry show, if the plans of the projectors are followed.

"Home Made" Undermuslins

New summer stocks of the celebrated "Home Made" brand of Undermuslins—for which we are sole Los Angeles agents—have just arrived, and are given display space in show window, as well as on our sales counters.

We are particularly proud of these "Home Made" Undermuslins, because they launder beautifully, are both particularly serviceable and noticeably dainty, unlike certain lines made solely for show and not for service. Every garment is made on lock-stitch machines, and by the very highest class of skilled labor—no sweat-shop goods.

Materials used in their construction are muslin, cambric and nainsook; lace and embroidery, hemstitching, ruffles, tucks and similar trimmings.

Chemises, 75c to $5.00.

Gowns, $1 to $10. Drawers, 50c to $5.

Good, Home-made Baking.

A good many "home-made" articles have gone out of style—for instance, home-made linen, home-made dress goods and home-made candles. While the taste for "home-made" cooking is decidedly in style, the scarcity of this good cooking would make one think it, too, a back number. We still cling to bakestuffs, baked in the good old "home-made" way. We put as thick a filling in the cake as mother used to—and fill the pies as high. There's that good "home-made" taste to everything in our bakery. Prove it for yourself.

[NEWS REPORTS FROM TIMES CORRESPONDENTS.]

HEAVY DAMAGES ARE ASKED.

TRIAL BEGUN ON NOTED SUIT IN RIVERSIDE CITY.

Plaintiff Demands Twenty-five Thousand Dollars from City Officers Because He Alleges that He Received Permanent Injuries by Falling Over Obstruction.

RIVERSIDE, May 18.—A suit involving $25,000 damages came up in the Superior Court this morning. F. W. Merritt is the plaintiff and the defendants are the City Trustees, C. L. McFarland, J. T. Lawler, J. W. Chase, Oscar Ford, George F. Ward and the Superintendent of Streets, T. K. Seburn, and his two bondsmen, W. H. Davis and Judson House.

On the night of October 26, 1904, the plaintiff, while walking along Locust street just north of Seventh street, failed to notice the cut in the street which had raised the sidewalk fully two feet above the road. Mr. Merritt claims that no lights were displayed to warn him of his danger, and accordingly as he stepped from the sidewalk he fell headlong into the road, striking his head and shoulder against a rock.

A hemorrhage of the brain resulted and Dr. Van Zwalenburg was hastily summoned, and it was at first thought no serious injury had resulted. Subsequently the fact was developed that the plaintiff's vertebrae of the neck were fractured and his right side paralyzed so completely as to restrict him from using his right arm.

He alleges that his sight and hearing were affected by the fall, and that he will never be able to work again. His suit for $25,000 is divided among the five Trustees and the Superintendent of Streets for $24,000, and $1000 from W. H. Davis and Judson House.

The complaint was filed February 11 last. C. L. McFarland and W. A. Purrington are the attorneys for the defendants, while H. C. Hibbard and L. Gill represent the plaintiff. The case promises to be one of unusual interest, owing to the large sum involved and the character of the evidence that will be presented. Superior Judge J. S. Noyes will try the case.

The following jurors were sworn: H. J. Small, C. McClure, J. S. Castleman, S. A. Irvine, D. G. Cochrane, John Meharg, J. M. Rhodes, G. H. Seaton, W. D. Ennor, John Dougall, R. F. Cunningham, A. H. Willetts.

The case will probably go to the jury tomorrow.

FAST MEET SATURDAY.

On Saturday next the fast horses of the two counties of Riverside and San Bernardino will compete at the Riverside Driving Club Park for the beautiful cups that will be presented to the winners. This second matinée meet promises to be one full of interest, owing to the large number of entries already made. About all the sportsmen from San Bernardino are coming over with blood in their eye and confidently expect to return to their fair city with a row of local scalps dangling from their belts.

CONGREGATIONALISTS STIRRED DEEPLY AT COLTON.

Charges Made Against Dr. J. Francis Davies Arouse His Friends, Who Declare that His Accusers Must Make Good Their Statements or Take Consequences.

COLTON, May 18.—This town is upset and members of the Congregational Society are highly indignant. It is over accusations publicly made yesterday against Dr. J. Francis Davies, the divine who came here from Santa Ana to reside soon after the first of the year, and who has been delivering Sunday-morning addresses in the new Masonic Hall for several months.

It was stated that Dr. Davies was unorthodox and this, together with other statements have so aroused his friends that they declare the critics must make good their accusations or take the consequences.

The board of trustees of the Congregational Society, which has been organized here with Dr. Davies in charge of the flock, met last evening to discuss the situation.

It is also stated that these reflections against the preacher have been fathered by Santa Ana people who do not admire him.

REDLANDS.

EX-MAYOR CRITICALLY ILL.

REDLANDS, May 18.—Ex-Mayor William Fowler is lying seriously ill at his home on West Cypress avenue, stricken with paralysis. The trouble resulted from overexposure to the intense heat of last Monday. Mr. Fowler, who is 78, has continued to superintend his ranch, despite his advancing years, remaining strong and vigorous to a remarkable degree. Monday was the hottest day recorded for May in eighteen years, but Mr. Fowler disregarded the warning of the thermometer and worked several hours in his grove, with the result that Sunday the paralytic seizure took place. This morning the family physician reported the patient's condition to be slightly improved.

Saturday will see here the closing baseball contest of the season for the interscholastic League of Southern California the Riverside boys will come over to battle for the cup with the Redlands team.

The annual convention of the San Bernardino County Christian Endeavor Union will be held in the First Presbyterian Church Friday evening and Saturday.

DRIVEN OUT BY WORMS.

Crawlers Force San Bernardino Family Out of House and Home.

[SPECIAL CORRESPONDENCE.]

SAN BERNARDINO, May 18.—Actually driven from home was today's experience of one San Bernardino family, whose domicile was invaded by a horde of army worms.

This morning thousands of the pests crawled from large patches of weeds to the north and south of the home of a Santa Fé shopman at No. 116 Carter avenue.

The family was first apprised of the invasion by meeting hundreds of the worms crawling in through windows and doors. They were attacked with brooms and hoes, but soon put the occupants of the house to rout, and all day the place has been overrun by the creatures.

At noon the pest was piled three to four inches deep about the house. Many had gone inside, thousands had obtained shelter beneath the building, and others were squirming along the steps, porch and up the side of the building. The entire neighborhod is threatened.

UGLY FALL OF CARPENTER.

SANTA ANA WORKMAN PURSUED BY BAD LUCK.

Both Ankles Dislocated and Painful Lacerations Received — Same Workman Had a Similar Accident Four Years Ago and Broke a Leg. Worms Doing Damage to Celery.

SANTA ANA, May 18.—J. S. Allyn, a carpenter who resides on West street, this city, was painfully injured this morning by falling from the roof of a building near Tustin. Allyn fell twenty feet to the ground and sustained a dislocation of both ankles and painful laceration of the arms and hands, besides other injuries. Four years ago Allyn fell from a scaffolding and broke on of his legs.

MAKE IT PLAIN ASSAULT.

M. Garcia and Juan Gerero, two Mexicans charged with criminal assault on Mrs. Matilda Baca and her sister, near Los Alamitos last Tuesday, have been searched for by the officers for the last few days, and yesterday Garcia was arrested. The evidence was so conflicting at the examination that it was decided to withdraw the original charge and proceed under a charge of simple assault, and on this charge Garcia was convicted and sentenced to serve ninety days in the County Jail. Gerero has not been heard from since Tuesday and he is supposed to have left the country.

NOTES OF ORANGE COUNTY.

The army worm is reported to be doing great damage to celery, beets and alfalfa in the country west of the river, and already it is estimated that in some sections one-half the beet crop is destroyed.

Mrs. Victor Montgomery, wife of Judge Victor Montgomery of this city, is at the Santa Ana Hospital, where she underwent an operation recently for appendicitis.

C. C. Wright, aged 75, until recently in charge of the Methodist Church, South, at Newport, died yesterday in this city.

STUDENTS TO GRADUATE.

FULLERTON, May 18.—The following students will graduate from the Fullerton High School next month: Stanley Chapman, Florence Goodwin, Katherine Twombly, Leon Overton, Ralph Tanner, Ronald Collis, Lilian Strain, Sue Sheppard, Nora Boeckman, Chester Montgomery, Fannie Bess, Charles Hansen, Walter Schultz.

With one exception, the same faculty has been employed for the High School the coming term at the following salaries: W. R. Carpenter, principal and teacher of mathematics, $125 a month; Miss Nina McCulloch, English, $100; Miss Ruhie Cunningham, science, $100; Miss Lena Ingraham, drawing, (afternoons,) $50; Miss Lulu Collins, physical culture and history, salary increased from $90 to $100. Miss Hannah T. Oehlman will teach elsewhere the coming term, and the trustees will employ some one soon to succeed her as Latin and German teacher.

MORE DENTISTS.

Twenty Tooth Doctors Turned Out of College Last Night With Their Diplomas.

"Wanted: Twenty new brass doorplates." Twenty new dentists were made in the Simpson Auditorium, twenty young men became Doctors of Dental Surgery.

A large audience of friends and relatives was present at the commencement exercises of the Dental College of the University of Southern California. Each member of the graduating class received a round of applause from his particular circle of intimates as President Bovard of U. S. C. conferred the degrees and presented the diplomas.

The address of the evening was made by Rev. W. P. Ferguson of Redlands. President Bovard also made a congratulatory address to the graduates; and Dr. Garrett Newkirk, dean of the College of Dentistry, gave them their send-off into the world. Prior Brothers' male quartette made a hit, and J. J. Falls contributed an organ solo. The new dentists are: John Leslie Allen, William Henry Brett Anderson, Burrous Clark Arnold, A. C. Ralph Bailey, Irving F. Baldwin, Horace Eaton Brown, Harry Gardner Brown, Maxwell Merton Dixon, George Hiram Flanders, Frank Albert Giguette, Nye White Goodman, J. NUMBER ONE DAY OF PLAY.

Opening of Children's Frolic Grounds Fixed.

Marks a Unique Step in Advance for City.

Original and Happy Ideas Are Carried Out.

A three-ring circus with its many rival attractions is about the only thing worthy of comparison with the grand contemplated opening of the first public playground of Los Angeles.

Playground No. 1 is the name, for the Playground Commission hopes to make this the first of a chain, and the formal opening will take place June 10, with a public reception and varied entertainment from 3 to 6 in the afternoon.

The playground will then be ready, with its manifold provision for boys and girls, and the public is invited this first day before it is turned over to the little folks, who will then rule supreme.

Prominent men in the city are to be invited to make speeches, a fine band will discourse lively airs, and a reception committee composed of various notables will receive the visitors who will doubtless throng to see this new and valuable departure for the benefit of the rising generation.

Besides all this, there will be fine athletes from the Y.M.C.A., from the Turners' Hall, and from various schools in the city, who will give a sort of continuous performance upon the apparatus of the outdoor gymnasium, who will give exhibitions in pole vaulting, broad jumping, shot putting, and all of the feats that this wonderful playground is outfitted to afford.

The handball courts will be put to immediate service on that day, and some crack teams in basketball will be secured to play games on the courts provided for that sport.

The Playground Commission will be in charge, and C. B. Raitt, the superintendent, will arrange the athletics.

DONE UP BROWN.

The work of finishing the playground is being pushed forward with rapidity. The house for the resident superintendent is all ready now, and presents a very artistic appearance. It is built in bungalow style, and stained a soft dull brown, in which the woodwork of the whole playground, with the surrounding fence, is also finished. The harmony of color, and the whole designing reveals a cultured taste, and preaches a little gospel of its own to the surrounding neighborhood. This home on the grouds for the man who is to superintend the games and play of the whole playground is distinctly a step in advance for Los Angeles, and combines the settlement idea with that of a playground. This new possession of Los Angeles is the only one on the Coast that has this residence for the manager, and Mr. Raitt, who recently made a trip to San Francisco to inspect the playground there, says it cannot compare with the one nearing completion here.

The superintendent and his wife are already in their new home. The furnishing is all in mission style. There is a long living-room across the front of the house, with a cherry fireplace within, beamed ceilings and soft-tinted burlap. The pretty lights were partly donated, the Home company has installedstalled a 'phone for the convenience of the superintendent, and the whole artistic little abode, even to the swinging sign in front, bearing the number2017 Violet street, shows good taste.

Within the 300-foot square inclosed by the playground fence are many and varied attractions that will bring such delight to the children's hearts as will make old-time fairy tales look like 30 cents. There are provisions for boys and for girls, for tall children and for wee tots.

The only blot on the landscape at the present time is the homestead of the negro, who is willing to part with his land and his house, but the deed must be signed by his children and thus the delay in tearing down the humble abode. It is hoped that this matter may be adjusted before the opening day, so that it can be removed in time.

About half of the huge space of the playground is portioned off for the girls, and the future occupants are already looking through the fence with shining eyes, and with bright cheeks pressed close against the palings.

Within there are two great big receptacles for sand, and there are three small trees to shade them, for some may play in sunny spots and some may want the shady ones.

EVEN A FISH POND.

Ah, here is a fish pond and a wire netting is to be placed over it so that the littlest ones may not tumble in in their eagerness to watch the shining goldfish. Six box swings promise great delight, and there are five rope swings besides. And there in the midst of it all a pretty summer house with tables just the right size and that is actually to be devoted to dolls and their accessories, while the small tables will no doubt see many tea parties of the future.

If you don't know what a May pole is you should go over to the playground after things are started and you will no doubt see a lot of small girls flying madly around in a joyous circle that whirls about, and that is a May pole. There are two of them there, besides several seesaws, each with a paved base underneath. Off at one end is the space for the gardens to be planted.

Then there are basketball courts for the girls as well.

Through a gate into the boys' part, and there you see a fine open-air gymnasium roofed in and made of piping, very solid and substantial. In this is every kind of equipment: one trapeze, one horizontal bar, parallel bars, a leather horse, a leather buck, a rope ladder, two punching bags with platforms, six traveling rings, peg poles to develop grip, slanting ladders, vertical ladders, and horizontal ladders, and two shower baths at the back in the gymnasium storeroom. The girls will have the use of this gymnasium on certain days of the week. Paved handball courts and seesaws, and swings and garden spaces finish out this garden of delight for the boys, and only the future can tell how many useful citizens this playground will save to the city of Los Angeles.

Mrs. Willoughby Rodman and Miss Bessie Stoddard of the Playground Commission have been most zealous in originating and promoting this scheme for the children of the city.

A PLEASANT LAXATIVE NOT INTOXICATING

Horrible Torture of Children

Thousands of mothers, every night, watch the fevered unrest and the awful torture their babes and children undergo, when RASHES, BLOTCHES, PIMPLES AND BREAKINGS-OUT appear on their little bodies and faces. Immediately they imagine the child's blood is impure or poisoned, and begin to dose an already overworked stomach with vile and noxious drugs, when as a matter of fact the disease is not in the blood, but solely in the skin.

Don't Dose the Stomach! Treat the Skin.

These rashes, blotches pimples and breakings-out are given the general name of ECZEMA.

It is purely and simply a local disease and entirely confined to the skin, and in no instance is it the result of impure or poisoned blood. This disease is caused by the presence of little germs which burrow into the outside skin, and their ravages there result in the sores, the fiery itching and burning sensations experienced by sufferers from this disease. The only successful treatment for ECZEMA is by EXTERNAL or LOCAL APPLICATIONS.

Our Confidence in the D. D. D. Prescription.

So many astonishingly effective and permanent cures have been made by D. D. D. (Prescription) that we are absolutely convinced it will conquer any and all diseases of the skin and scalp.

We Back This Assertion With Our Guarantee.

Those who are interested in this subject are invited to call at our store and see actual photographs of many people cured of these seemingly incurable skin diseases.

A Shoe Sensation

The Mammoth Shoe House Buys the "Avery" Shoe Stock from J. Herzikoff for 33⅓c on the Dollar

Sale Starts Tomorrow

Over 2000 Pairs of Shoes Will be Sold for 50c a Pair at 519 S. Broadway.

The Mammoth Shoe House has purchased the shoe stock of the Avery Shoe Co. and will place it on sale commencing tomorrow.

The Mammoth never does things by halves, and will give the public the benefit of this buy.

Two thousand pairs will go at 50c a pair.

The shoes are being arranged on the bargain tables and will be offered for sale at a fraction of their worth.

They comprise shoes for man, woman and child. There are hundreds of styles to choose from, mostly all sizes of some kinds and broken sizes in others. Take your pick for 50c a pair. None will be sold to dealers. Sale starts promptly at 8 a.m.

In addition to this bargain, there will be many more surprises. The 98c tables will be packed with shoes that formerly sold for from $2.00 to $3.00. The $1.49 and $1.95 bargain tables will contain many of the finest grades of footwear.

This sale will surpass all the efforts the Mammoth has ever made. Come tomorrow to the big shoe store; walk down the aisles, and see the bargains displayed and be convinced that the Mammoth is today the same as it was 15 years ago, "the store that saves you money." The new location is 519 South Broadway, between Fifth and Sixth.

THE DISCOVERER

Of Lydia E. Pinkham's Vegetable Compound, the Great Woman's Remedy for Woman's Ills.

No other female medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian Troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Leucorrhœa than any other remedy the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development.

Irregular, Suppressed or painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Floodings, Nervous Prostration, Headache, General Debility quickly yield to it. Womb troubles, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it invigorates the female system, and is as harmless as water.

It quickly removes that Bearing-down Feeling, extreme lassitude, "don't care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, Faintness, sleeplessness, flatulency, melancholy or the "blues" and headache. These are sure ejections of Female Weakness, or some derangement of the Uterus, which this medicine always cures. Kidney Complaints and Backache, of either sex, the Vegetable Compound always cures.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

If You Come to Me I Will Remove the Cause of Your Trouble

FOR MEN My treatment is the most potent, most rational, and the most effective known; it removes the cause directly responsible for the trouble. This is accomplished by personal attention, and not by guesing through the mail. Patients coming to the city are furnished rooms free of charge.

FUNCTIONAL WEAKNESS
When I treat these cases I will see and know the exact condition and will know how to accomplish the desired results. My facilities are the best and especially adapted to the requirements. This condition is referable to many causes—stricture and diseases which tend to weaken the reproductive system, which in turn lowers the standard of vitality. I am getting the most satisfactory results every day.

VARICOCELE
I make definite claims for my cure of varicocele which invariably is from 4 to 6 days. I can introduce you to any number of cured patients, which is convincing of the claims I make over all other treatment not so well founded.

STRICTURE
No operation necessary to effect a cure. Mammon complaints of any nature which could be avoided—irreverent fussing or possible or condition which requires periodical treatment. I remove the cause responsible for the trouble—the cure is permanent.

CONTRACTED DISEASES
Immediate results follow my treatment. I cure every case by getting at the exact cause. The treatment destroys every germ and all poison is driven from the system. If I cannot do more in one week than can ever be accomplished by any other known treatment.

Dr. Morton, 36 SOUTH BROADWAY

VARICOCELE

Every man having varicocele can be cured, but any and every external application—medicines internally, electricity, electric belts—ARE ALL ABSOLUTELY WORTHLESS. There is but one method that will cure varicocele. Dr. Harrison is the only specialist in Los Angeles using that method. Dr. Harrison guarantees an absolute, permanent and perfect cure. We will show dozens of men right here in Los Angeles we have cured. We cordially invite men to call.

Contracted Disorders

are cured by us. Every particle of poison thoroughly eradicated from the system. Every patient coming to us consults no one but Dr. Harrison or his associate, both regular physicians. Each and every man coming to us for consultation has his case carefully and understandingly looked into. Every case we treat receives our personal attention.

STRICTURE

This trouble we treat successfully by our improved method, which never fails to bring about a cure. Electricity or electric belts cannot do this trouble any good. When you employ either you throw your money away. Call and let us explain the nature of the trouble and how you can be permanently cured.

"WEAKNESS"

Affections of men commonly described as "weakness" according to our observations, are not such, but depend upon reflex disturbances and are almost invariably induced or maintained by appreciable damage to the prostate gland. As this may not be perceived by the patient, it is very frequently overlooked by the physician.

If you come to us we give you a thorough examination and a guarantee absolutely free, and faithfully tell you if you can be cured.

MEN

We are Specialists for Blood Diseases, Stricture, Hydrocele, Varicocele, Piles, Fistula, Contracted Diseases, Private Diseases, Loss of Vital Power, Kidney and Bladder Troubles.

Piles, Fista, Rupture

DR. HARRISON is and will positively cure every one of these troubles placed under his treatment. If you are suffering from either, it or you nothing to call and talk with him; methods of treatment fully explain hundreds have been cured by him as they have suffered years.

SAN PEDRO.

ALASKA TRADE TAKES CARRIERS

SAN PEDRO, May 18.—On account of the steady increase of business at Nome and Alaska in general, many large lumber carriers, both sail and steam, which have been engaged in the coastwise lumber trade are taking charters for Alaskan ports. This condition is not due to any unusual strikes in the northern country, but to a steady development.

The three large steamers, Melville Dollar, Robert Dollar and Harold Dollar, of the Dollar Steamship Company's fleet, have been chartered for this trade. These steamers have been carrying lumber from Sound and Northern California ports to San Pedro. The Harold Dollar is now discharging a cargo here. The Tampico, now in port, when discharged, will proceed to San Francisco to load a cargo of provisions and general merchandise for Nome.

Several windjammers have also been secured to carry freight to the Arctic goldfields. The bark James Johnson is en route from San Pedro to San Francisco to load lumber for Port Clarence, and the bark Nicholas Thayer, which was for years a salmon packer, and was recently purchased from the Alaska Packers' Association, will sail from San Francisco on May 28 for St. Michael and Nome. From Puget Sound the bark Coryphene and ship Emily Reed will carry full cargoes to Nome.

The usual fleet of steamers that ply during the summer months between the Sound ports and Nome will be augmented this season by two steamers on a regular schedule from San Francisco—the Valencia and the Zealandia.

The withdrawal of several large carriers will not mean the falling off of lumber business coming to Southern California ports during the summer. Many sailing vessels which have lain in boneyards in ports in the North are being overhauled and placed in commission for this trade. An additional advantage to them will probably be an increase in freight rates.

GLENDORA.

MISSIONARY BODY TO MEET.

GLENDORA, May 18.—The second annual convention of the Pasadena district of the Woman's Foreign Missionary Society will be held at the Glendora Methodist Episcopal Church next Tuesday and Wednesday. Arrangements for the gathering are being made under direction of Mrs. G. D. Whitcomb. Tuesday evening addresses will be made by Dr. Martha Sheldon and Miss Mary Means of India.

COVINA.

COVINA, May 18.—The question of a site for the Carnegie Library appears still to be an unsettled problem, on account of the generosity of property holders who are contesting for the location of the coveted building. The latest offer was a free deed tendered to the library trustees yesterday by Dr. A. E. Hostettler of 100 feet frontage on Citrus avenue opposite the public schools. This property has a market value of $2200. A special meeting of the library trustees is called for Monday morning next, at which time final action on the selection of a site is to be taken.

Mr. Henry Ramel, of Pasadena, Masonic inspector for this district, visited the Covina lodge last evening.

The Ladies Aid Society of the Christian Church entertained a large gathering at the home of Col. and Mrs. F. M. Chapman last evening.

POMONA.

LAST HONORS FOR POLLOCK.

POMONA, May 18.—Mayor McAleer of Los Angeles, accompanied by Mrs. McAleer, came to Pomona this morning to attend the funeral of his foster-father, R. A. Pollock. The services were held at the home. Rev. Geo. Soper of the Congregational Church, officiated.

Elmer E. Izer and bride, nee Miss McCain, have returned from Long Beach. They are at their new home on East Fourth street.

The Woman's Club, Monday, re-elected Mrs. John Wasson president, and elected Mrs. A. Skinner vice-president, and Mrs. J. A. Gallup secretary.

James E. Berry has returned from a trip to Colorado and his old home in Fulton, Mo.

City Treasurer George W. Hill has a critical illness. His physicians say there is no hope for his recovery.

Mrs. Dutton of Throop, and a number of others. The question of manual training in the public schools will be the chief theme for consideration.

Richard Taylor of Claremont Drive has returned from a trip to India, where he secured his portion of a large estate left by a deceased brother who was tutor to the Rajah of one of the rich interior provinces.

Secretary Eaton T. Sams of the local Y.M.C.A. departed last evening for Niagara Falls, N. Y., where he will attend a convention of association leaders, following which he will visit Washington and his old home in Tiffin, O.

That $100 reward that the Pasadena Consolidated Gas Company has been offering for information as to the miscreants who turned water into their mains, has been declared off. A leaky water main over a rusted gas pipe was found to be the cause of all the trouble.

Street Superintendent Beyer has made arrangements with the railroads to facilitate the work of unloading oil for use on the unpaved streets the coming summer. The oil will be unloaded at the most convenient points for subsequent handling.

L. V. Harkness with his family have quitted their Orange Grove-avenue home and gone to New York for the summer, accompanied by Dr. Harry Macomber. They left in the Harkness private car.

There is a probability that the West Colorado-street committee may recommend the use of brick in paving that thoroughfare. A committee consisting of City Engineer Allin, William H. Vedder and C. D. Daggett made an investigation yesterday without arriving at a definite conclusion.

Judge Congdon acquitted J. Haas of a charge of battery preferred by P. Weidenicht, after trial yesterday afternoon. Haas, reinforced by his wife and daughter, proved witnesses too many for Weidenicht to out-testify.

Judge Henry H. Klamroth has been unable to be at his office for the past week, owing to illness, and his friends are much concerned over his welfare. Last evening while in consultation with a client Judge Klamroth swooned away. He was quickly restored to consciousness, however, and is now somewhat improved.

STIFF SENTENCE FOR NORFLEET.

SCATHING COMMENT OF A LONG BEACH JUSTICE.

Friction Between W.R.C. and Mrs. Forbes as to Who Originated Custom of Strewing Waves in Memory of Dead Sailors—High School Girls Take to Baseball.

LONG BEACH, May 18.—"Prof." Robert Norfleet, who was found guilty by a jury Tuesday of practicing medicine without a license, was sentenced by Justice Brayton this morning to 100 days in the County Jail and to pay a fine of $250.

In pronouncing sentence, the magistrate said that comparing Norfleet's method of fleecing sick people and the method of the highwaymen, the latter appear in the more favorable light, because they boldly demanded one's money at the point of a revolver, but Norfleet robbed by working on the sympathies of the sick and afflicted and pretending to be their friend and counsellor, robbed them not only of their money, but of their health.

Norfleet was visibly affected and wanted to speak, but was cut off short. He was taken to jail, on the next train. As one act of reparation he assigned his interest in a camp wagon and team, now at Fresno, to his victim and Constable Lynn, left today to secure possession.

FLOWER-STREWING FRICTION.

Memorial Day and its attendant ceremony of strewing flowers on the waves will be observed in Long Beach, by the local patriotic societies, alone. The Naval Reserves of Los Angeles received an invitation to conduct the services designed by Mrs. A. S. C. Forbes, but there exists a friction between that lady and the local W.R.C., both parties claiming the credit of originating the custom of flower strewing in memory of dead sailors. When it was found that the Naval Reserves insisted upon having sole charge of the day's exercises, there was a protest, and as a result, the Naval Reserves and Mrs. Forbes will go to Playa del Rey and Long Beach will conduct its own ceremonies, which will be elaborate and take up most of the day. Col. Samuel Merrill has been selected to deliver the oration, while the Sunday-school children of the city will strew the waves with flowers from the outer end of the pier.

GIRLS TAKE TO BASEBALL.

The girls of the senior and sophomore classes of the High School have the baseball fever and a match game will be played on the local diamond Saturday afternoon. Miss Wiltshire will act as umpire, the two teams lining-up as follows:

Seniors.		Sophomores.
Miriam Caldwell	c.	Anna Mussetter
Mabel Taylor	p.	Hazel Davies
Bertha Grant	1st. b.	Lucy Newcomb
Marjorie Curts	2nd. b.	Mabel Gutzler
Leah Frazier	3rd. b.	Bessie Cullen
Grace Meyers	s.s.	Ethel Staley
Mildred White	l. f.	May Meade
M. Hardenbrook	c. f.	Minnie Sessions
Camilla Helvic	r. f.	Annie Lyon

Among the players are four members of the basketball team, Misses Myers, Taylor, Davies and Sessions.

LONG BEACH BREEZES.

A five-room cottage on Hellman street, in Alamitos was totally destroyed by fire at noon today, and an adjoining cottage damaged. Being outside the city, there was no fire protection, but neighbors with garden hose prevented a spread of the flames. Some of the furniture was saved. The fire started from a leaking pipe in a gasoline stove. The loss is $1000, on which there is an insurance of $300.

Plymouth Congregational Church last night dedicated its new chapel on Fourth street near Locust, in the old Tabernacle grounds. It will be used for social gatherings and minor services, the congregation continuing church services in the Tabernacle, until they are able to build their own church. The chapel is of the mission style, the interior finished in weathered oak, the furnishings being in harmonious blendings. The seats are in Plymouth style with high backs. The building was dedicated free of debt, the piano used being the gift of C. H. Merigold. The financial statement made last night shows that the young congregation has pledged $9000 for future plans, of which $4000 has been paid in. The programme of dedication was short, but impressive and a social hour followed.

Henry Williams, who lives in Santa Monica, last week took pity on a man with a hard luck story and clothed, fed and sheltered him. Tuesday the fellow took all of Williams's clothes and fled. Returning from San Pedro yesterday Williams saw his man on the beach, through the car window, and arriving here, told the marshal, who drove up the beach and arrested John Rogers, aged 30. He had on a new suit belonging to Williams and the rest of the stolen clothing wrapped in a bundle. He was taken to Santa Monica today by Constable Jackson.

The United Improvement Company, the new gas company of Long Beach has elected officers as follows: H. S. Farnsworth, president; W. B. Redburn, vice-president, and F. W. Stearns, secretary.

Word has been received here that Rev. Frank L. Norton, former pastor of the Baptist Church, has been appointed by the San Francisco City Missionary Society, as superintendent of city missions, at a good salary.

The license for the new Bank of Commerce of this city was received this morning from the State Bank Commissioners.

Frederick Smith, the unfortunate bandmaster of Pueblo, Colo., who became insane, through overstudy, was taken back home last night by his mother and his attending physician.

The Ebell bazaar closed tonight with a programme by Miss Phelps, a reader. From an artistic and social standpoint, the exhibit has been a success, but financially the prospects are not so encouraging.

The Long Beach Bath-house Company will open the season here on Saturday. The bath-house has been repainted and many new attractions added. A programme has been arranged, the chief event being a balloon ascension and parachute drop by Prof. Haddock. Other attractions will be an exhibition of mind-reading by Mlle. Chapman, a pie-eating contest in the lunch pavilion, a high dive of ninety feet from the arch in the bath-house by Senor Dropus, swimming races in the plunge and a concert by the Long Beach Marine Band.

Tristam Mayhew, died last night at his son's home on American avenue. He was 79, and came to California in 1849. A widow and one son survive.

Monday evening, June 5, the Long Beach Elks will go to San Pedro to institute a new lodge of the order in that city.

Gen. Maximo Gomez, who underwent a serious surgical operation recently, is improving and it is now believed that he will recover.

TYPHOID NERVES

Extreme Weakness of Nerves an After-Effect of Fever.

Mr. Worth Suffers Six Months of Misery Caused by General Disorder of His Nervous System.

Typhoid fever is sometimes called nervous fever. During the course of the fever the nerves are always profoundly disturbed, and when it is over they are left so sensitive that the patient has to be guarded against all excitement. In the tonic treatment then demanded, regard must be paid not only to building up flesh but to repair waste and give new vigor to feeble nerves, is the most convenient and economical.

Mr. Worth has had valuable experience by which other sufferers may profit. He says: "I had a severe attack of typhoid fever late in the fall. I got over the fever, but remained very weak during the succeeding spring and summer. My heart palpitated, my breathing became difficult after the least exertion and there was numbness in both hands. I suffered in that way for fully six months. As I did not grow out of it, did not in fact see the slightest improvement as time passed, I decided to use the very best tonic to be found, and endeavor to get back my strength and my command over my nerves. A statement in the papers about a very remarkable cure effected by Dr. Williams' Pink Pills impressed me so much that I concluded to make a trial of them in my own case.

"Almost as soon as I did so, I found that I was using the right remedy for my troubles. They helped me so quickly that I could see decided improvement before I had finished the first box. I kept on taking them for several weeks and when I stopped I was completely well. I consider Dr. Williams' Pink Pills a most valuable remedy, and I am in the habit of recommending them to others who are afflicted as I was."

Dr. Williams' Pink Pills are widely known, and justly praised. It is one of their great merits that they supply strength to muscles and nerves at the same time that they purify the blood, and correct disordered action of bodily organs. Nothing could be better for forwarding recovery from debilitating diseases such as typhoid. They create what we call the necessary conditions or basis of all sound health, and they do all this better than any other known remedy.

Thousands of testimonies from all parts of the world agree in supporting that of Mr. Charles Worth, whose home is at East Vassalboro, Maine. Dr. Williams' Pink Pills are the remedy to use when the blood is thin as in anaemia; or impure, as in rheumatism; or when the nerves are weak, as in neuralgia; or lifeless, as in partial paralysis; or when the body as a whole is ill nourished, as in general debility. When the nerves ache and tremble it means that they are starving. The only way to feed them is through the blood, and the best food is Dr. Williams' Pink Pills. They are sold by all druggists.
